TELEGRAPHERS SET STRIKE FOR JULY 8

President of Union Says 25,000 Employees of Western Union to Walk Out.

Chicago, July 1.—Monday, July 8, is set for the proposed strike of Western Union telegraphers. President S. J. Konekamp, of the Commercial Telegraphers' union, made public the date today. Konekamp claimed 25,000 employees of the Western Union would quit work at 6 a. m., Central time.

"The strike against the Western Union alone is necessary, because of the company's continued determination to destroy our organization," said Konekamp.

"The grievances to be adjusted are those set forth in President Wilson's letter to the Western Union Telegraph company, as

(1) The reinstatement of over 800 employees locked out contrary to the terms of his proclamation of April 8, 1918, and (2) to enforce the decision of the national war labor board dated June 1, 1918. The strike is not of our seeking."

New York, July 1.—"None of our employees is a member of that union, so I do not see how the strike affects us," was the only comment of Newcomb Carlton, president of the Western Telegraph company, today, in reply to the announcement that a strike of telegraphers had been called for July 8.

Bridge Is Constructed Over Big Creek, Near Lane Coast

A bridge which will make possible the conversion of a trail between Minerva and Heeta postoffices into a wagon road, has been constructed over Big Creek, in township 16, section 22, range 11 west, according to W. F. Gregg, of Minerva, who is a business visitor in the city. The bridge was built by residents of that section of the county. It is 71 feet 6 inches in length and 35 feet above the water.

Mr. Gregg stated that the bridge was built by five men who worked eight days, and the cost of labor was \$128.

Mr. Gregg stated that the citizens are making an effort to interest the Lane county court in a project which will give them a road instead of a pack trail for transportation between the two postoffices.
