Pacific Highway—Open and in fair condition, Roseburg to Grants Pass and Medford. In good condition, Grants Pass to Wolf creek.

Willard

Take a sharp knife and try to scratch into the wood box of a Willard. It will dull a sharp tool. Nothing but the hardest oak goes into Willard Batteries.

510 Prisoners Taken by British in Palestine

London, July 15.—British troops took 510 prisoners, including 850 Germans, in repelling enemy attacks in Palestine, the war office announced this afternoon.

"Saturday night and Sunday morning the enemy attacked our positions on the covering passages of the Jordan river and on the Abu-Tallul ridge," the statement said.

"The first was dispersed. The second penetrated our lines, but a counter-attack re-established our positions. We took 510 prisoners, including 850 Germans."

STRIKE OF 3500 WORKERS HALTS SHIPBUILDING

(Continued from page one)

strikes won't build them. Patriotic workmen do not even talk strikes."

Plex explained the wage agreement under which the Oakland yards are working.

"The shipping board has practically taken control of labor on the shipbuilding," he said, "and the government has become the boss. This carries with it many problems, and President Wilson in authorizing a wage adjustment board of three men thought he had satisfied the workmen and the employers as to the government's fairness. You will remember differences in your own district were settled by a horizontal wage advance of ten per cent. Wages are bound to advance in keeping with the cost of living under this board."

Schwab Demands Settlement.
Portland, July 15.—Charles M. Schwab, director-general of the Emergency Fleet corporation, this afternoon called on William Atkinson, acting president of the International Boilermakers' union, to end the strike of shipbuilders at Oakland.

In a telegram to Atkinson at Kansas City, Mo., Schwab said: "We are counting on you and your organization to point out to the men the enormity and unwisdom of their act at this critical time."

Schwab's telegram follows:

"I have just sent the following telegram to Captain Pillsbury, district manager of the Emergency Fleet corporation at San Francisco:

"Report has it that four thousand boilermakers are on strike at Oakland and Alameda because of differences concerning classifications of crafts, retroactive pay and local jurisdictional questions. It seems incredible to us that the moment the Germans are making a renewed drive against our boys in France any body of American workmen could stop building ships for any reason whatever."

Poor Judgment Shown.
"Machinery for settling such differences as may arise has been provided by the government and the workmen should produce these differences for adjustment before the properly constituted government officials. Please call to the attention of the men the fact that they are putting themselves into a very unwholesome position before the American people when they place small personal differences and interests above their duties to the nation. The news that four thousand shipbuilders have stopped work cannot but affect adversely the spirit of our boys in France who are at this moment under the fire of German guns. Please wire us full particulars."

"We are counting on you and your organization to point out to the men the enormity and unwisdom of their act at this critical time."

RED CROSS IS DONEE
In correction of a former statement, the Springfield Red Cross donated \$100 to the local Red Cross made from the society circus given there. Donations received Saturday were \$20.30, from Fir Butte, and \$15 from the Danish people who won first prize on their Fourth of July float. Miss Alice Southworth and Mrs. Cochran turned in \$3.25 made from the sale of lavender bags.

Don't Let Catarrh Drag You into Consumption

Avoid Its Dangerous Stage.
There is a more serious stage of Catarrh than the annoyance caused by the stopped-up air passages, and the hacking and spitting and other distasteful features.

The real danger comes from the tendency of the disease to continue its course downward until the lungs become affected, and then dreaded consumption is on your path. Your own experience has taught you that the disease cannot be cured by sprays, inhalers, atomizers, jellies and other local applications.

S. S. S. has proven a most satisfactory remedy for Catarrh because it goes direct to its source, and it moves the germ of the disease from the blood. Get a bottle from your druggist today, and begin the logical treatment that gives real relief. You can obtain special medical advice without charge by writing to Medical Director, S. S. EUGENE MAN VICTIM IN TIMBER ACCIDENT

Lester Vaughn Dies as Result of Injuries Received While Working in Timber.

Lester Vaughn, aged 36, of Eugene, died about noon today as a result of injuries received this morning while working in the Fisher-Bentall Lumber company's camp, at Linslaw, near Veneta. Cecil Griffin, of Springfield, who was with Vaughn at the time of the accident, brought the body to Eugene this afternoon.

Vaughn was struck on the head by the tree, the force of the blow knocking the bark from the tree trunk, according to Griffin. Vaughn's skull was crushed, but his death did not result until after he had been removed to Veneta.

Vaughn and Griffin were watching a pigeon in a tree, when they observed a log drawn in their direction by a donkey engine threatened to break down trees. There were two trees apartly in the way of the log and they had turned to avoid both of these, when a third tree came crashing down and caught Vaughn. It missed Griffin by about four feet.

Vaughn was a son of the late Washington Vaughn, of Eugene. He is survived by three brothers, John Vaughn, of Eugene, and Grant and Charles Vaughn, who reside in Idaho.

AMUSEMENTS
The life of a soldier is tempered with smart femininity in the delightful English comedy "Billeted," which Margaret Anglin and her original New York company will present here on Wednesday evening, July 17, at the Eugene theatre.

This delightful play, which comes here after extended engagements in New York and Chicago teaches a lesson which all women would like an excuse to follow, namely, that extravagance is more economical than economy. That is the paradoxical epigram spoken by Miss Anglin as the charming hostess in the comedy.

Her argument is that if she had not already had a wonderful collection of frocks how could she have managed in war-time. "Billeted" is one of the few big comedy successes of the season, which is tersely expressed in the New York World as "a delightful play delightfully acted."

RETURN FROM SAN FRANCISCO

HOME FROM DETROIT
Joe Scafe, who has been studying and working in Detroit, Michigan, some time, returned to his home in this city Saturday. He expects to enlist in the aviation division of the National army soon.

as though by an earthquake. The boys near Vaux were heavily deluged with gas, forcing the Americans to fight in gas masks.

German losses were heavy everywhere they attacked, but they were particularly severe along the Marne, where the boches paid a heavy toll for the privilege of bridging the historic river.

Withdrawal of the Americans and French troops to their right, to the left of the salient formed by the bend in the Marne, was executed in excellent order.
