McMorran & Washburne Announce the First Showing of the Very Newest

Fall Suits and Coats

—This season it is especially necessary to make your selections of Fall and Winter apparel early, for market conditions are such that deliveries will be unsatisfactory later, and prices very much higher. The garments that we are showing tomorrow are made from materials purchased long ago and we are, therefore, enabled to offer exceptional values.

Suits \$25.00 to \$65.00

—The new suits have an indescribable charm, the styles are so clever and the new colors are pleasing—Coats are 34 to 42 inches long and have the new two-way collar. The plain tailored effect predominates although some of the styles are rather fancy. Pretty belted and pleated backs are in evidence. Colors are chocolate brown, plum, gray, navy blue.

Coats \$18.50 to \$100.00

—Predominating colors in the new coats are black, brown, Burgundy, green, taupe, gray, Pekin blue. Many of these smart coats are made with large shawl collar that adds a very rich effect. Most of the coats are 48 inches long and many of them have a very stylish belted effect.

The Colors, the Materials, the Styles Are Wonderful.

Buy for Fall Now

We are constantly scouring the markets and manufacturing centers for merchandise that we can sell to our customers at low prices and still maintain our standards of quality.

The outlook from the merchandise standpoint for this Fall is very discouraging as to prices and we earnestly advise our patrons to plan to buy their Fall requirements during the month of August for prices in many cases will be double what they now are and many items unobtainable at all.

Our very large stocks of highest quality goods are attracting trade from the entire upper Willamette valley and from all indications the month of August will see many lines entirely closed out that cannot be replaced at any price.

Our average resale prices are lower right now than in any other store in the state and we are going to maintain them as long as we can.

We are not speculators; we are merchants and we will not hold staple merchandise for the high prices that are sure to come, but if you are to benefit you should plan to buy now for present needs as well as future requirements.

"This Is Economy, Therefore Patriotic."
