

Our Annual Exhibition of Wooltex

Fall Coats Affords You an Opportunity for a Thrifty Coat Purchase

To be smartly Coated is to be ready for every "On the spur of the moment" occasion that comes up in the winter months—motoring, walking, driving. This dressy coat is the garment for these occasions.

With a full knowledge of what is being offered by the retailers of the country, we feel justified in saying that these WOOLTEX COATS represent the smartest, the most assured styles in all wool fabrics for Fall and Winter. The prices of these unusual Wooltex Coats are based on cloth prices which prevailed months ago and cannot be duplicated at present market prices. This saving we are passing on to our alert patrons who are fore-sighted enough to purchase during this ANNUAL EXHIBITION SALE.

Whether one is young or old, one may enjoy the comfortable warmth of this mixture coat. Shown in new fall shades.

A Full choice in Smart Fall Shades now to be had \$25, \$35, \$40, \$50 TO \$95.

25-YEAR FRANCHISE FOR OPERATION OF TELEPHONE LINES

Ordinance Passed by City Council Gives Company Right to Operate for Another Quarter of a Century.

The Eugene city council Monday night passed an ordinance granting the Pacific Telephone & Telegraph company the right to continue to maintain and operate a telephone system in the streets and alleys of the city for a period of 25 years. The ordinance is similar in many respects to that granting the company a franchise which expired on July 11, after running for a period of 25 years. New features are a provision which requires the company to pay an annual franchise tax of \$250 a year and exacts that wires in the business section of the city shall be placed in conduits underground or in the alleys. The company is also required to put its poles and wires in the alleys in the residence section where possible.

No poles or wires are to be strung on the following streets: Willamette street between the Southern Pacific street and Sixteenth avenue; Oak street between Fifth and Eleventh avenues; Olive street between Fifth and Thirteenth avenues; Sixth and Seventh avenues between Lincoln and Pearl streets; Eighth and Ninth avenues between Washington and Pearl streets; Tenth avenue between Lincoln and Oak streets.

The city, the ordinance provides, shall not be allowed to use the poles of the company for fire alarm or police purposes free and one duct in the underground systems shall be given the city free for that purpose.

Ordinances providing for the election or appointment of policemen, street commissioner, city recorder and assistant recorder, city treasurer and city engineer were read and passed. These ordinances take the place of several old ordinances that have been repealed.

A new ordinance compelling owners of woodshops to remove sawdust from streets and sidewalks was offered. This will be a substitute for an ordinance which formerly covered only steam saws. No steam saws are now operated and the word "gasoline" was inserted.

The fire and water committee and the street committee recommended that the application of F. L. Chambers to build a sidewalk shed on the north side of Seventh avenue, east of High street, at the side of Lang and company's wholesale house be denied and the report was adopted.

The fire and water committee reported upon the re-employment of Roy Walker on the fire department at \$85 a month, the employment of Ray Hicks at the same salary and the advancement of Owen Baker to assistant chief at a salary of \$90 a month.

The members of the police force were each granted two weeks' leave of absence.

PORTLAND MARKETS

Portland, Or., Aug. 13.—Cattle receipts 57. Tone of market higher. Prime steers \$12.50 @ 13.00; good to choice steers \$10.75 @ 11.75; medium to good steers \$9.50 @ 10.75; fair to medium steers \$8.50 @ 9.50; common to fair steers \$5.50 @ 8.50; choice cows and heifers \$8 @ 8.50; medium to good cows and heifers \$6 @ 7.50; fair to medium cows and heifers \$5 @ 6; canners \$3 @ 5; bulls \$5.50 @ 7.50; calves \$8.50 @ 11.50; stocker and feeder steers \$8.

RUSSIA BEING CARRIED BACK INTO STRUGGLE

(Continued from page one) expressed themselves in no ambiguous terms on the matter. They are now waiting and working unceasingly to get back into power, to make their action an official call to the allied governments in the name of the whole people of Russia.

The United States is the country most trusted of all the allies in Russia. American help is eagerly awaited. It will be welcomed with enthusiasm. Bolshevism is dead. It is bankrupt. It cut its own throat when it signed the Brest-Litovsk peace treaty and when it broke, not so much with the bourgeoisie as with the revolutionary democracy itself. There may be unity and co-operation between the bourgeoisie and the bankrupt Bolsheviki. There can never be any co-operation between the latter and the revolutionary democracy. And that means the vast majority of the people of Russia.

There is more anti-German feeling today than there ever was. The murder of Count Mirbach, the representative of German imperialism in Russia, was as symbolic of the downfall of the brief sway of Germany over Russia as was the assassination of Von Pleve, or the inevitable downfall of czarism.

Russia is coming back into the war. She is coming back to fight for the establishment of a dependent republic of Russia and the democracy of the world.

Kerensky Being Groomed. Washington, Aug. 13.—Kerensky, one time ruler of Russia, is being groomed

as the possible leader to drive on the Bolshevik and re-establish his country. It was indicated today. He is about to go to Archangel, it is learned authoritatively, to throw his weight with the new government of the northern province. Observers in some quarters expect an attempt to extend this government under Kerensky's leadership to all of Russia.

It is doubtful, however, just how allied governments would take Kerensky as the new Russian leader, although some groups in France, Great Britain and America are working in his favor.

Kerensky recently planned to come to America to enlist President Wilson's aid in restoring Russia, but preparations of the allies made this unnecessary, Russian officials said today.

Reports charging Kerensky with being pro-German, Bolshevik and a friend of Lenin and Trotsky were stoutly denied by Russians here today. They declare Kerensky is trying to help build the anti-Bolshevik government in northern Russia, which is expected to replace the entire Lenin regime in Russia.

Proclamation Stirrs Interest.

The latest proclamation of this government was received with interest in diplomatic circles. Coming at the time when Lenin appears about to totter finally, and along with reports that Kerensky plans to go to Archangel, this proclamation gave hope that at least a stable government in Russia is in sight. Some of Kerensky's friends are members of this new government, it is reported, and it is along the conservative democratic lines which Kerensky himself tried to carry out under the constitutional assembly.

Just who is chief leader in the Archangel government is not yet clear, but M. Zuboff, assistant mayor of the city of Volodga and one of the signers of the constitution has been in charge.

Peasants Growing Rebellious.

Washington, Aug. 13.—Ukrainian peasants are showing growing bitterness toward the Germans, state department advisers said today. German soldiers move around the country only in large squads. Otherwise they are attacked. Armed peasants who capture them torture them and bury some alive, according to the department's informant.

This informant, who is not an official, added that the Germans will not succeed in getting food from Ukraine or organizing its people for the army. German troops have been increased there because of the unrest and now number between 400,000 and 500,000 men.

The Germans have succeeded in drawing out great sums of hoarded money by opening the banks and making no charge for handling new accounts. This has relieved the shortage in bank notes.

The same informant stated that at Petrograd he saw a barge loaded with 100 aged men of the educated class who were being taken to Kronstadt. By whom or for what reason, he did not know.

Aphis Is New to Eugene Boy Near Front in France

Word of destruction of plant life by the aphis, which has been a source of trouble for war gardeners, farmers and agriculturists and horticulturists generally in the Willamette valley, has reached Eugene. Mrs. C. F. Koopke told of her troubles with the pest in a letter to her son, Harry Koopke, serving with General Pershing's expeditionary forces. "What are other people doing around there for that aphis bug, or is it a worm, or what?" he asks, in a letter received by his mother. "Does it have wings and fly around? Don't know much about the animal myself." Koopke is stationed near the front.

SAYS HOT WATER WASHES POISONS FROM THE LIVER

Everyone should drink hot water with phosphate in it, before breakfast. To feel as fine as the proverbial fiddle, we must keep the liver washed clean, almost every morning, to prevent its sponge-like pores from clogging with indigestible material, sour bile and poisonous toxins, says a noted physician. If you get headaches, it's your liver. If you catch cold easily, it's your liver. If you wake up with a bad taste, furred tongue, nasty breath or stomach becomes rancid, it's your liver. Sallow skin, muddy complexion, watery eyes all denote liver uncleanness. Your liver is the most important, also the most abused and neglected organ of the body. Few know its function or how to release the dammed-up body waste, the poisonous toxins, says a noted physician. Most folks resort to violent calomel, which is a dangerous, salivating chemical which can only be used occasionally because it accumulates in the tissues, also attacks the bones. Every man and woman, sick or well, should drink each morning before breakfast, a glass of hot water with a teaspoonful of limestone phosphate in it, to wash from the liver and bowels the previous day's indigestible material, the poisons, sour bile and toxins; thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach. Limestone phosphate does not restrict the diet like calomel, because it can not salivate, for it is harmless and you can eat anything afterwards. It is inexpensive and almost tasteless, and any pharmacist will sell you a quarter pound, which is sufficient for a demonstration of how hot water and limestone phosphate cleans, stimulates and freshens the liver, keeping you feeling fit day in and day out. WHY THE MYSTERY?

The whole country has lately been mystified by the mysterious signs of "C" found upon the door of prominent homes in Eugene, Springfield and nearby cities.

Many and various have been the theories and solutions offered, for these strange signs, but now steps in the front a noted criminologist with a wonderful theory. He is none other than the Mr. Russell Filmore Brown, Oregon theatre's advertising manager, and distinguished student of the ways of a criminal, both outside and behind the bars, of course, he will not vouch for this remarkable theory, but Mr. Brown has spent many hours of deep thought upon the subject and his conclusion seems very feasible. The theory is this: The mysterious "C" is simply the short for "C" De Luxe Annie, at the Oregon Theatre, Wednesday or Thursday. a13

State Fair, Salem, Oregon, September 23-28. Splendid exhibits, excellent music, high class entertainments and a superb racing card. For particulars write A. H. Lee, Secretary, Salem, Oregon. Mon-Wed-Fri-a31

What Is Cheaper In Comparison?

Three years ago when butterfat was 20 cents per pound we were selling skimmilk and buttermilk for 10 cents a gallon. Butterfat began climbing and all other food products did also. However, we had not advanced the price of these two products until just lately. Butterfat is now more than two and one-half times as much as it was three years ago, but we have advanced the price of the by-products only 50 per cent.

- BLUE BELL—Remember the name. It stands for a guarantee of quality.
- BLUE BELL ICE CREAM, per gallon\$1.50
- BLUE BELL MILK, per quart12
- BLUE BELL CREAM, table and whipping
- BLUE BELL SKIMMILK, per gallon15
- BLUE BELL BUTTERMILK, per gallon15

What can you buy in the food line for the same price that will go as far—here's something:

BLUE BELL BUTTER from your grocer. Delivered to him fresh every morning.

INCREASED FREIGHT RATES UNDER FIRE

Public Service Commissions of Northwest States File Protests at Washington.

Washington, Aug. 13.—Increased freight rates and express rates today were under fire for the first time since they were inaugurated on June 25. The public service commission of Washington, Oregon and Idaho filed complaints against the railroad administration and 26 lines of railroads asking a readjustment of trans-continental rates on fruits, berries and vegetables.

The complaint also was filed against the American Railway Express company, asking a readjustment of the present express rates.

Thousands of fruit and vegetable producers are suffering losses as a result of the increased rates, the complaint states. It explains that the express and freight rates have displaced the western fruit and vegetable producers in the market east of the Mississippi river.

They have been forced to market their product cheaper than formerly in order to compete with other fruit and vegetable producing territories, according to complaint.

BORN

HASLUND—Sunday, Aug. 11, 1918, to Mr. and Mrs. Marcus Haslund, R. 2, Eugene, a son.

CROCKATT—At Yakima, Wash., Aug. 9, 1918, to Mr. and Mrs. Peter Crockatt, a daughter. Mr. Crockatt taught at the University last year and is a graduate of the institution.

FRANKLIN HAS AN OSTRICH

Franklin, Or., Aug. 13.—We see in Tuesday's paper where Mrs. Frank Jones of River Road had found a Rhode Island Red egg which measured 6x7 1/2 inches. T. C. Bryant, of Franklin, found an egg laid by his White Leghorn which measured 9x8 inches.

DECOU TO TAKE VACATION

Professor and Mrs. E. E. DeCou, of the University of Oregon, will leave Wednesday to spend a vacation of several weeks at the Log Cabin hotel, at the McKenzie Bridge. Mr. DeCou has been one of the instructors in the summer session of the University. They expect to spend a large part of the time fishing and tramping over the hills.
