RESPONDING to a published appeal of the government recently for knitting yarns we immediately reported our stocks to the National Red Cross and this morning received orders to ship immediately.

This will mean that there will be no more knitting yarns sold by patriotic merchants for the government comes first and all loyal merchants in the United States have done as we did and offered their holdings to the Red Cross.

We have permission to withhold shipment of this yarn until next Wednesday morning, Sept. 25th, at which time our stock will be shipped to northwest headquarters at Seattle for distribution to Red Cross Chapters.

Therefore we can offer to the people of Lane County for three days only Fleishers, Warrior, Bear Brand yarns, we will have none for sale after that date except a small amount of odd lots in broken packages.

BUY YARNS TONIGHT, MONDAY AND TUESDAY, THERE WILL BE NONE FOR SALE AFTER NEXT TUESDAY NIGHT.

We own perhaps the largest stocks of fine knitting yarns in the state of Oregon outside of Portland, having invested thousands of dollars in yarns in anticipation of the great requirements for knitting garments for the soldiers and while the loss to us will be several thousand dollars by delivering this to the government, we cannot turn a deaf ear to any request of this government or of the Red Cross and we will therefore ship practically our entire stocks on next Wednesday morning.

MAIL ORDERS RECEIVED UP TO TUESDAY NIGHT WILL BE FILLED AT \$1.15 A HANK.

THE COLORS ARE KHAKI, BLACK, NAVY, WHITE, BLACK MIXED AND O. D.

COMMUNITY LABOR BOARD WILL START ITS WORK AT ONCE

Government Plans to Have Women Take Places of Men in Industry Wherever Substitution is Possible.

The community labor board will take up its work at once, according to a letter received today by Frank Armitage, federal employment superintendent in Eugene. The letter, which was written by Wilfred T. Smith, federal director for the Portland district, is in part, as follows:

"In reply you are advised that the local community board can begin functioning at once, as they are not supposed to await any official notice of their appointments. You are instructed to cooperate with them to the fullest extent, to hold many conferences with them, and to use as much tact and good judgment as possible in taking men from non-war work and placing them in war work, so as to result in the least possible injury to non-war work. Offer to replace these men with women or elderly men. The government does not desire to disrupt non-war industries any more than is absolutely necessary, in view of the fact that they will be greatly needed after the war, as many soldiers will be returning home looking for employment. But the war industries must go on, even if the non-war industries suffer loss. It is hoped, however, that this can be accomplished on the voluntary principle, without using compulsion, and after conferences with the war and non-war industries. Advise the government that they are rendering the government a patriotic duty in letting the men go gradually from their employ into the war industries. Co-operate with them to the fullest extent in securing for them women and elderly men or boys to take the places of able-bodied men in the sawmills, logging camps and shipyards, as well as other industries. Later on you will be forwarded list showing the relative importance of the war industries with degrees of priority, etc.

The community labor boards are now considered by the government as extremely important functions."
