Lieutenant Colonel E. S. Hartsorn has been placed in charge of the \$10,000,000 cash sale of the Surplus Army Stocks of the War Department. A Congressional order has been promulgated disposing of these goods ENTIRELY. You can easily see the mountain of importance attached thereto. It means to the public. There is only one way to sell such a great quantity of merchandise in a short time, and that is by making it available to the public. The local Surplus Army Goods Store is face to face with a terrible task. It is allotted its share of this great bulk, and has no place to put it, as the store is now packed from floor to ceiling with Army goods. These goods must be cleaned out to make room for the new stocks—And as said, there is only one way to do it—That is to cut prices SO DEEPLY, that the goods will actually walk out in a short time. This is what we have done. You are NOW offered an opportunity that is the greatest, most beneficial money-saving opportunity you have ever witnessed in your lives.

**Read Every Price on this Poster as the Con-
cessions are so Terrific You Will be Amazed
at the Giganticness of This Undertaking**

ARMY STORE INFORMATION

It is an undisputed fact that this Army Depot has a reputation for giving unusual values. This could be done because the goods were secured at a low price from the government and were turned out to the purchaser on the same basis. But yet, in spite of the already existing low level, to this has been applied further and deeper reductions, which makes the

prices represented here so drastic that the stock will be cleaned to the wall in a short time. Bear in mind that Army Goods carried here represent only those made for the government, by the country's best manufacturers. You are, therefore, enabled to secure, at the country's lowest price, the country's BEST. We advise you to come early and to be here when the doors swing open.
