

BLANCHE BLAIR

That Taulac is a wonderful medicine delicate children is conclusively proven by the remarkable results accomplished in the cases of the three children shown in this picture.

Little Blanche Blair, of Providence, R. I., age 13, gained 10 pounds; Regina McCabe, at right, age 9, of Scranton, Pa., gained 15 pounds; little Richard Leary, of Philadelphia, who was very delicate, is now in fine, robust health. The statements made by their parents are as follows:

Mr. A. M. Blair, residing at 20 Arundel street, Providence, R. I., said: "We are just so happy over the change Taulac has made in our little girl that we don't do or say enough to show our appreciation. She had lost nearly 20 pounds in weight and looked so frail and weak that her mother and I were both most worried sick over her condition. After taking Taulac, she has already gained 10 pounds, her color is better than it ever has been and she looks and acts like a different girl."

Richard Leary, 2342 Palmetto St., Philadelphia, said: "There is no doubt in my mind but that Taulac saved my little boy's life. For two years I wouldn't have been a bit surprised to have seen my child die at any time. He had grown so thin and weak that I was almost a wreck and many a time the gas would come up into his chest until his heart palpitated so I thought sure he couldn't breathe but a few more gasps. But Taulac gave him back to us strong and well and we will praise it to our dying day."

The effect of Taulac on the delicate stomachs of the young is one of the strongest evidences of its wholesomeness as well as its unusual merit. Although a powerful reconstructive, Taulac contains no harmful ingredients, minerals or opiates which are so often found in other medicines. Being composed of the most beneficial roots and herbs known to science it is purely vegetable and can be taken by the most delicate children, and does not upset or injure the weakest or most delicate stomach.

Taulac is sold in Eugene by the Linn Drug company and by the leading druggists everywhere.

LACK OF PERMANENT TRIBUNAL WAILED BY WM. JENNINGS BRYAN

By WILLIAM JENNINGS BRYAN (Copyright, 1921, by the United Press) Although the conference has been in session for more than five weeks no outward progress has been made toward the establishment of a permanent tribunal for a consideration of the questions that may arise from time to time between nations.

It was taken for granted that the president would not favor any plan that would take the United States into the league of nations as it existed. Some thought that he might be willing to accept the organization under a new name and with changes made in the covenant to suit the reservations adopted by the United States senate.

As time went on it became evident that the president and his advisers would prefer a new organization quite different in its general plan from the league.

It was intimated that the court of arbitration would be given a larger jurisdiction, that a certain number of international law would be agreed upon and a commission of inquiry established for the investigation of disputes which cannot be submitted to arbitration are settled by the application of specific rules. The former agreement was pointed to as an illustration of the general principle that would be followed.

Now, however, it has leaked out that cooperation is being planned upon quite a different line.

Instead of one league of nations, made up of representatives of the governments, the nations will be divided into four groups, each group representing a geographical area. One will include all of the governments in the western hemisphere; another all the countries in Europe; a third all the countries in Asia and a fourth will be made up of a Pacific group.

The world is not so much interested in any particular plan but international peace requires some plan.

A SHOE BUYING SENSATION THAT POSITIVELY KNOWS NO EQUAL CREDITORS DEMAND THEIR CASH AT ONCE

Table of shoe prices and descriptions. America Opposing Both British, French Pleas

By CARL D. GROAT (United Press Staff Correspondent) Washington, Dec. 21.—The American delegation opposes resuming France's top heavy allotment of submarines or other auxiliary craft.

It also will reject Britain's plea for reduction of submarines.

Indignant by these facts—news of which emanates from responsible American sources—the British and French were proceeding today with plans for presenting their cases on these points.

Hope of reaching a complete agreement on limitation of naval armament before Christmas now appears doubtful.

The only obstacles remaining are the French demands for a big allotment of auxiliary craft and the British desire that submarines be abolished, but considerable discussion on these points is expected.

The French delegation were reported to want between 75,000 and 90,000 tons of submarines.

Harry Heilmann, Detroit, Tops American League in Batting

Chicago, Dec. 21.—Harry Heilmann, Detroit outfielder, topped the American league in batting for 1921, according to official records announced today. He had an average of .394 in 140 games.

Just five points separated the Tiger slugger and his manager Ty Cobb, who finished second with an average of .389.

Babe Ruth, aided by his 59 home runs, batted .375 for the season, while Heister of St. Louis was fourth with a .371 mark.

An average of .362 landed Tris Speaker of Cleveland in fifth place.

These men are ranked on the basis of greatest number of games played.

Detroit won club batting honors with .318, followed by Cleveland, .308; St. Louis, .304; and the Yanks, .300.

STOCK YARDS IN FOR GLOOMY CHRISTMAS

By CARL VICTOR LITTLE (United Press Staff Correspondent) Chicago, Dec. 21.—There is no peace on earth or good will toward men back of the yards today.

Packing towns, whose inhabitants huddled in the shadow of the "jungle"—the world's meat center—faced a dreary Christmas and did not care.

Through cracks in windows, broken during strike riots, came the "eking order" from the packing plants.

The only unpleasantness the small caused was the reminder that "flunks" were working in the plants where men of the yards were employed before the strike.

Hurling of clubs or bricks, or jeering between strikers and strikebreakers, were the only disorders today.

Saloon doors have ceased to swing back of the yards. They were closed tight for the first time since prohibition raids started just as the boys were preparing to lay in their holiday cheer.

Added to the Yuletide gloom was the absence of leaders of the "back to the yards gang."

Tommy O'Connor, "hero of the yards gang," broke jail as his scaffold was being slammed together.

Gene Geary, another idol, was in an asylum after several murders were charged to him.

So "Merry Christmas" was a vague wish, not a statement of fact in the yards district.

Madalynne Obenchain to Take Witness Stand Today

Los Angeles, Cal., Dec. 21.—Today promised the dramatic moment in the murder trial of Arthur C. Burch, accused as the mysterious assassin of John Helton Kennedy, insurance broker.

Madalynne Obenchain, former prize winning beauty of Northwestern University, was to take the stand in defense of Burch.

Madalynne was with Kennedy at Beverly Glen when he was shot to death on the night of August 5.

THINKS PORT MOST IMPORTANT

Editor The Guard:—In your valuable paper, issue Dec. 19th, article column 1 and 2, page 9, appears an article signed by the North Fork Grange, in the district of Port of Siuslaw, Oregon, telling about their failure to obtain to them suitable accommodation at the Cushman railway station, etc., and then says: "Resolved, and encourage competition—UNTIL SUCH A TIME AS THE RAILWAY SHALL PROVIDE ADEQUATE FACILITIES AT CUSHMAN," etc. when they of course will help the railway to kill the shipping down here, as their resolution indicates to any reader of your paper.

Mr. Editor, it is such selfish and personal interests that have kept this county on the bum for years.

Had the North Fork Grange used good judgment they would have addressed a copy of their application, with a petition, to the Interstate Commerce Commission, Washington, D. C., asking said commission to get for them what they have failed to do personally.

It is poor process to force one at the expense of another to do something; the shipping by water needs all the support there is within Lane county—not at the expense of anyone or by threat to help one against the other.

To make Port of Siuslaw self supporting and give the whole of Lane county a better and much cheaper transportation system than it now has we have only ONE THING TO DO, and that is to dridge out the roadway for ships over the North Fork bar and the Florence bar, so ships can come and go at will, just like an auto over a first class roadway on land. The U. S. government surveyed this roadway for ships some seven years ago; it is about 100 feet wide and 12 feet deep; at low water, the cost then would be only \$30,000, but now, at present-time it will cost about \$40,000 for a 13-ft deep roadway. This MONEY CAN BE RAISED BY ASKING THE LEGISLATURE TO GIVE THE PORT OF SIUSLAW \$50,000 for the year 1922-23 OUT OF THE GASOLINE MONEY.

When that is done then the S. J. Co. officials will dare to make improvements without fear of getting fired, and at the same time our whole county will be benefited by the early completion of the Eugene-Klamath Falls railway—now hung up. There are many of your newspaper readers who know my former work in connection with the building of this railway to the coast, from 1907 and on, so what I say now should be taken as a tip to get what has not been finished, now hung up because I am lining low with the Siuslaw while money for my work is hard to get; but this should not stop the whole of Lane county and the re-organized Chamber of Commerce of Eugene to take the "TIP" I am giving in your valuable paper, and for then, to grip their hammers and hammer and knock until they get what they want, without resort to threats or blackmailing, or selling out

Red Sox Owner Makes Them Sit Up, Notice His Sales

By HENRY L. FARRELL (United Press Staff Correspondent) New York, Dec. 21.—Harry Frazee has the reputation of being the champion seller of baseball and he's living up to it. Annually as a matter of habit, the owner of the Boston Red Sox frisks his club of stars.

With one sweep he gets rid of Everett Scott the greatest fielding shortstop in the game and star endurance man of baseball; Stuff Melvin, the greatest fielding first baseman in the game; Sam Jones and Joe Bush, a pair of players that any club in the major leagues would want. For them he gets from the Yanks Roger Peckinbaugh, a slipping shortstop, a trio of second hand pitchers, Jack Quinn, Rip Collins, and Bill Piercy.

For Melvin he gets from the Cleveland Indians Elmer Smith, a first class outfielder, George Burns and Joe Harris who is now on the ineligible list.

All players concerned say there was no cash involved but wise baseball men laugh. The Cleveland deal may have been player-player proposition but the swap with the Yanks obviously carried large cash trimmings.

CHEAPEN FLATS TO ENLARGE FAMILIES

Paris, Dec. 21.—The Chamber of Deputies is considering a bill designed to relieve the severe housing shortage, with the unique provision of "the bigger the family the cheaper the rent."

The bill provides for the construction of 500,000 cheap flats by the government to be completed within ten years. The funds of seven billion francs necessary for the construction would be raised by a loan.

In leasing the flats, preference would be given to working men with large families and the rent would be reduced in proportion to the number of children. According to the tentative plan, a family with three children would pay about half the rent exacted from a family with only one child.

The scheme is intended to encourage large families to offset the constantly decreasing birth-rate in France and the losses during the war.

Charged With Forging \$225 Check, Hendricks Is Jailed

Charged with forging a check on his former employer, Homer Horace Hendricks, a local young man, is in the county jail. Hendricks worked for Frank Moody who owns a farm near the city. A couple of weeks ago the young man presented a check for \$225 signed with the name of his employer at the United States National bank, it is alleged. When Moody called for his cancelled check he found the alleged forged instrument.

Hendricks was located at Lebanon on Monday and brought back to Eugene last evening.

WAR OVER AT OPERA

Paris, Dec. 21.—The war is over—at least, as far as the opera is concerned. The concession granted to mere males during the war and since the armistice of appearing at the Opera without the time-honored full evening dress has been withdrawn. The management considers that the unusual variations of dress worn by the men was a parricide note in the place always famous for the brilliance of the fashions worn by the audience. Some of the men took advantage of the concession and appeared in tweeds and even golfing suits.

CUT OUT PAPER MONEY

Telluride, Colo., Dec. 21.—No more paper money. That's the slogan adopted by the Bank of Telluride. For the first time in years, the teller's cage recently contained nothing but gold and silver money. All checks were cashed and all large change given in gold and silver coins. Silver dollars, five, ten and 20-dollar gold pieces were given out instead of paper money.

Bank officials said metal money proved more satisfactory in handling.

SHOT BUTCHER BIRD

Derby, Conn., Dec. 21.—A "butcher bird" a species seldom found south of the Arctic Circle, was shot by Louis Lindo and Steven Berindiere, of Ansonia, while hunting. A game warden looked over the two men's hunting bag and upon finding the "butcher bird" arrested them for shooting it.
