Here's how it's done: We went direct to the manufacturers for these shirts. We agreed to take the season's end clean-up from the factories. To enable us to get a full range of sizes and patterns, we bought from four manufacturers, in each case taking the final output. Every shirt is a well known shirt of dependable quality. All bright and new, direct from the factory to this store. The huge boxes are arriving and are being unpacked as rapidly as possible, in preparation for the **Greatest Shirt Sale Ever Attempted in This Part of the State.** You never saw so many shirts in one group. To look at them, you would think that there was enough to supply every man in Lane County. The beauty of it is, they are going to be sold with two profits **ELIMINATED.** You buy them at less than the wholesale prices.
