

FOR A CONSTIPATED CHILD

A small dose of Dr. Caldwell's Syrup Pepsin will bring quick relief.

MOTHER, when one of the children is constipated are you going to give the first laxative within reach? It is dangerous to do so. Some have been known to rupture the intestines of little children. Don't be beguiled by the outside sugary appearance. Look into the formula. Calomel is seldom necessary; salts, minerals, coal tar, never!

Unlike these, Dr. Caldwell's Syrup Pepsin is admirable for children, as it is for grown people, too. Mothers have been giving it to children for 30 years. They know it does not gripe, and is free from narcotics. The formula is on every package, and you can see it is vegetable, just a combination of Egyptian Senna and other laxative herbs with pepsin. Use it yourself and you

will find it is not necessary to take it every day, nor to increase the dose, and that it is pleasant to the taste. Bottles can be had at all drug stores, and the cost is only about a cent a dose. Have no hesitancy giving it to a baby in arms. It is absolutely safe.

Half-Ounce Bottle Free

Few escape constipation, so even if you do not require a laxative at this moment let me send you a Half-Ounce Trial Bottle of my Syrup Pepsin FREE OF CHARGE so that you will have it handy when needed. Simply send your name and address to Dr. W. B. Caldwell, 514 Washington St., Menlo Park, Ill. Write me today.

COUNTY RED CROSS BOARD REORGANIZES

Committees were appointed, officers elected, and plans made for the ensuing year at a meeting of Lane County Chapter, American Red Cross, directors last evening. F. L. Chambers will act as chairman of the board of directors for the ensuing year.

Peerless Bridge Work

Bridge work is the best way of replacing missing teeth or teeth that are too badly decayed to hold fillings or crowns. Because you have lost one or more, it will not be necessary for you to wear a plate. We can make an attachment to the good adjoining teeth and replace the missing teeth without requiring you to wear a plate. The bridged teeth are fastened solid in your mouth; you cannot take them out. Very often they will last a lifetime, and will look as natural as your own teeth.

We use only the very best materials in doing this work, and our price, you notice, is very reasonable.

Buzzsaw Experience

"The closer you put your finger to the buzzsaw, the more you find out."

The longer you neglect your teeth the more kinds of pain you get acquainted with. People with decayed teeth can give others cards and spades when it comes to suffering. And the strange thing is this: Toothache is a thousand times worse than going to a dentist and having the teeth cared for. The dentistry of today has had the hurting taken out of it.

Throwing Brickbats

"Never throw rocks at a fellow who sits beside a pile of brickbats."

A man who neglects his teeth is really throwing rocks at Nature, who will get even by throwing pain, decay and disease back at him. You have got to take care of your teeth, or pay the price in suffering.

Nothing counts more in human happiness than sound teeth, and good dentistry is as important to the public as a league of nations, the tariff, prohibition or woman suffrage.

Large Crowd Scrambles For Goods Thrown Away

A crowd that filled Willamette street and halted traffic for a half hour this morning gathered in front of the Surplus Army goods store to receive several market baskets full of merchandise that

was thrown from the top of the building. A scramble that would make a football scrimmage look tame took place and a few near fights were averted when two or three pairs of hands seized on to the same package. One tall fellow got himself a new pair of shoes, many caught pairs of socks. One amusing incident happened when two people claimed a leg of the same pair of trousers.
