TRY MAGNESIA FOR STOMACH TROUBLE

It Neutralizes Stomach Acidity, Prevents Food Fermentation, Stops Gassy Stomach and Acid Indigestion.

Doubtless if you are a sufferer from indigestion, you have already tried various digestive aids and you know those things will not cure your trouble—in some cases do not even give relief.

But before giving up hope and deciding you are a chronic dyspeptic just try the effect of a little Bismarated Magnesia—not the ordinary commercial carbonate, citrate, or milk, but the pure Bismarated Magnesia which you can obtain from practically any druggist in either powdered or tablet form.

Take a teaspoonful of the powder or two compressed tablets with a little water after your next meal and see what a difference this makes. It will instantly neutralize the dangerous, harmful acid in the stomach, which now causes your food to ferment and sour, making gas, wind, flatulence, heartburn and the bloated or heavy, hungry feeling that seems to follow most everything you eat.

You will find that provided you take a little Bismarated Magnesia immediately after a meal, you can eat almost anything and enjoy it without any danger of pain or discomfort to follow and moreover, the continued use of the Bismarated Magnesia cannot injure the stomach in any way so long as there are any symptoms of acid indigestion.
