Theatres

Macy Bairds comedians at the big tent theatre, presented one of their feature plays last night, 'Why William Went to France,' to a large crowd. The show was a laugh from start to finish with Mr. Macy and Mr. Leitch in the comedy roles. Tonight they present 'The Call of the Woods.'

E. W. ZUMWALT'S PLATFORM

To the Voters of Lane County: In order that my position may be clearly understood on what appear to be the leading issues of this campaign, I wish to make the following statement as a candidate for office of County Commissioner:

ECONOMY AND EFFICIENCY.

I believe that our taxes are much too high and that the time has come when positive action must be taken to reduce them. I am convinced that too much money is being wasted by extravagant and inefficient management of the County's business. I believe that by eliminating certain unnecessary and overpaid employes of the County and by making a pretty general reorganization of the administrative force, better results can be obtained and a great deal of money saved. If elected, I hope to be instrumental in bringing about some changes of this kind.

Furthermore, I believe that, in general, all property, except that actually exempted by law, should be put on the assessment rolls and required to bear its just proportion of the burdens of taxation. And in this I would include all property belonging to churches and used for business or commercial purposes.

ROADS AND ROAD FUNDS.

I believe most heartily in good roads and that our prosperity in years to come depends to a great extent on the condition of our roads. This is especially true of those roads which are known as market roads and those which open up the more remote parts of the county. I am convinced that certain parts of the county, particularly the western portion, have not received sufficient consideration in this respect.

If elected, I shall stand for what seems to me a more even and just distribution of the road funds, whether those funds come from the sale of bonds, from direct taxation or from other sources.

LAW ENFORCEMENT.

It is, I think, a well known fact that certain big interests are spending millions of dollars and making every effort to throw our temperance laws into disrepute and render them ineffective and inoperative. Lane County is now reaping its share of the harvest of lawlessness and crime, as well as material expense and loss, that naturally accompanies this movement. A weak or indifferent attitude on the part of the County Court would soon result in an intolerable condition of things. As commissioner, I would consider it my sacred duty to stand squarely for the prosecution of all offenders and the strict enforcement of the laws.

CONCLUSION.

In conclusion I will say, for the sake of those who may wish to know, that I intend to vote for the Compulsory School Measure on the November ballot; furthermore, that I am not pledged nor tied up by private promises to any individual, society, or organization of any kind, affecting my action in the office of commissioner in case of my election. My hands are not tied in any way. I am free to serve the people of Lane County to the best of my ability.
