Two Couples to Wed.—Donald Dwight Shrew, 21, and Sylvia M. Gunn, 20, both of Newport; and Charles Rigby, 40, and Florence Lewis, 37, both of Mabel, were granted marriage licenses today by the county clerk.

WHEAT EASIER, DEMAND LESS.—Portland, Ore., Nov. 21.—The wheat market had an easier tone yesterday and the demand was lighter. At the Merchants' Exchange November hard white was the same as Saturday, but the other bids posted were 1 1/2 cents lower. No offers were made for western white or western red.

The coarse grain market was quiet and 25¢ to 50 cents lower on corn and oats.

Butter is Firmer.—With none of the New Zealand butter which recently arrived offered for sale and with heavy speculative buying, the San Francisco market was active all week. There was a steady advance in prices and butter scoring 92 advanced 2 1/2¢ on Friday to 94 1/2¢. It is now felt that the season is too far advanced for heavy shipments of foreign butter and the higher eastern markets are expected to attract cars from other states which have been coming to San Francisco.

Dressed Turkey Receipts Large.—Dressed turkey receipts showed considerable increase yesterday. A number of buyers were on the market, but they would not go over 25 cents for choice birds. A good part of the day's supply cleaned up on Seattle orders. Live poultry of all kinds was steady and in demand, except live turkeys.

Fresh eggs continued scarce and firm. A better movement in storage eggs was reported.

The cube butter market was firm at Saturday's prices.

Prune Price Higher, Is Present Outlook.—Salem, Nov. 21.—With the announcement of the sale of the Johnson lot from 150 acres of prune orchard near Corvallis of the 40-50 size at nine cents a pound and the statement by the Journal of Commerce of New York city, requesting authority on the prune market that "the understocked dried fruit market as dealers enter the holiday season is the outstanding feature of the situation," there is a feeling among prune growers that the market will soon recover from its temporary slowness.

The Journal of Commerce also says in its latest report on the situation, "in prunes, there is a demand for prompt shipments."

75 Per Cent Sold.—Although the crop this year is not as large as the crop of last year, it is estimated that 75 per cent of the 1934 crop has been sold.

According to the estimates of prune buyers, the crop this year will run about 52,000,000 pounds, compared to a crop one year ago of about 25,000,000 pounds. Based on a 52,000,000 pound estimate, there is now in the hands of growers and independent packers, 13,000,000 pounds of this year's crop of prunes.

W. F. Deane states that growers are still holding from four to five million pounds, awaiting a higher market and that the remainder of the 1934 crop is held by independent packers. He believes there is little chance for change in prices until consumers have cleared up present stocks and until there is relief from the present car shortage.

APPLE MARKET STEADY

Portland, Nov. 21.—The feature of the local apple market is the opening up of the holiday demand for high-grade fruit, especially large Spitzenbergs. The bulk of the sales are still made up of the cheaper grades, but there is a growing inquiry for the better classes of fruit.

Prices are holding quite steady and the leading dealers believe the market will not go lower this season. They are looking forward to a good market after the turn of the year for all good-keeping varieties. Advices from Hood River are to the effect that the demand is better, but the shortage of cars makes it impossible for the growers to take advantage of the improvement in the situation.

Eastern reports are of fairly steady markets for boxed apples.

Toledo—Benny Valgar, New York, out-pointed Kayo Jenks, in a 12-round bout here. Both are lightweights.

HARDING INSISTS IN HIS MESSAGE CONGRESS MUST PASS SHIP BILL

tariffs and reclamation, waterpower development, agriculture and marketing by other legislation, it should not hesitate to aid shipping.

"Subsidy is Misnomer." "But call it 'subsidy,'" he said, "since there are those who prefer to appeal to mistaken prejudice rather than frank and logical argument."

The president reviewed the situation briefly and graphically painting what he called "a gloomy picture of losses."

He told how the merchant marine was built at a cost of \$3,000,000,000, how government operation when he took office was entailing a loss of \$10,000,000 monthly; how this loss has been cut to \$4,000,000 a month, but how it keeps on and will keep on as long as the present method of operation lasts.

It is not, therefore, a question of adding new burdens to the treasury and to the people, as the foes of subsidy assert, Mr. Harding declared.

It is now a question of cutting down the burden already borne, he said. The administration would be unworthy, he said, if it knew of a way to save \$50,000,000 a year and did not fight for such an economy.

Forgot Provincialism, Urged.—He urged congress to forget local poli-
