WOODMEN OF WORLD WILL DEDICATE WAR MEMORIAL HOSPITAL ON JULY 4

W. A. FRASER

WOODMEN OF WORLD WILL DEDICATE WAR MEMORIAL HOSPITAL ON JULY 4

The uniform rank, United States senators, congressmen and governors will be present. Senator Morris Sheppard of Texas will be the orator of the day. Governor William Brannon of Alabama and Governor Connaughton of Wisconsin will be among the speakers.

The hospital, said Mr. Fraser, will be the first of four for the treatment of tuberculosis to be situated in four different states. It will be dedicated to the memory of members of the society who died the supreme sacrifice in the world war. A monument in front of the main building will be inscribed with the names of all Woodmen who lost their lives to make the world safe for democracy.

Under Mr. Fraser's leadership, the Woodmen of the World has become one of the largest fraternal organizations in the United States with a membership of 300,000. Mr. Fraser has long been interested in checking the ravages of tuberculosis and has thrown the weight of the society into the nationwide war against the white plague.

CONTINUED GROWTH IN EXPORTS OF MANUFACTURES

Exports of manufactures have increased steadily since 1880. Foodstuffs and manufacturing material show decrease compared with corresponding period.

Increased activity on the part of American manufacturers is evidenced by the latest foreign trade figures. They show an increase of 20% in exportations of manufactures and 32% in importation of manufacturing material when compared with those of one year earlier. These figures, says the Trade Record of The National City Bank of New York, relate on the export side to the month of January, 1923, and on the import side to the month of December, 1922. They indicate that the exports of manufactures in the fiscal year which ends with the month of June will exceed by nearly \$150,000,000 the total for the immediately preceding year, and will be 60% greater than the value of manufactures exported in the year preceding the war. The total exports of manufactures in the fiscal year 1923 will approximate \$1,750,000,000 against a little more than \$1,000,000,000 in 1914, three-quarters of a billion in 1910, and less than a half billion in 1900. This continuation since the close of the war in the growth of exportation of manufactures which was apparent in the pre-war period suggests that the closer acquaintance which the world obtained during the war of the product of the American factory is giving further assurance of the permanence of exports of manufactures.

Not only is there a steady increase in the total value of manufactures exported from the country, but manufacturers form a steadily increasing share in the grand total of our exports, since our growing population demands a steadily increasing proportion of the output of our fields and mines. Foodstuffs and manufacturing material combined formed 84% of our domestic exports in 1880, 78% in 1900, 64% in 1900 and 54% in 1922. On the other hand, manufactures which formed but 15% of our exports in 1880 were 21% in 1890, 35% in 1900, and 46% in 1922.

UNIVERSITY HIGH TO GRANT 22 DIPLOMAS

Arrangements have been made by the senior class of the University high school to have their commencement in the Methodist church on the evening of June 1st. H. D. The following seniors will be graduated: Bertha Ashby, Clarence Bradley, Edna English, Robert Giffen, Virginia Gray, Gertrude Ginn, Bertha Hanks, Emmett Jones, Robin Jones, Alfons Korn, Louise Maxwell, Donald McCormick, Ora Olson, Charlotte Platt, Ted Ruch, Helen Shinn, Maybrey Strong, May Tolle, Sylvester Wingard, Hubert Yearien, Florence Poltampa, and Hugh Lynch.

Will Not Give Music Festival This Season

Dr. John J. Lamsbury, dean of the University of Oregon school of music, has announced that it has been necessary to give up the spring music festival because of the difficulty in getting people to assist, who were not tied up with other activities. This spring term is so crowded with things, Dr. Lamsbury said, and it was necessary for us to depend so much upon people engaged in other activities that we decided to give it no further than to try to work it out on such short notice.

"Both Glee clubs were to have been used as the nucleus of Hayden's oratorio, 'The Creation,' and we discovered that the greater burden of the work was falling on the shoulders of the Glee club, which was originally intended to have 'The Creation' as the main part of the festival; this was to have been sung by a chorus made up of the glee clubs and other people in the University who are interested in music, accompanied by the University symphony orchestra."

CHICAGO GRAIN REVIEW

Chicago, April 21.—Wheat was higher and rough grains lower at the close of the grain and trade today.

Export buying of wheat caused the strength. About 700,000 bushels were sold for shipment abroad, the largest export business reported in weeks.

Although little wheat seeding was reported in the northwest during the week, many farmers are ready to enter the field the first of the week.

Corn was under heavy liquidation and weak throughout the short session. It failed to respond to the advance in wheat. The heavy average expected in corn to replace abundant wheat largely influenced selling.

Oats was weak with corn.

Provisions were lower.

WOOL MARKET IS BROADENING

Boston, April 21.—The Commercial Bulletin says today:

The wool market is gradually but surely broadening, although what business is being done in the seaboard markets is almost wholly on worsted demand. Tuesday, Sydney closed very dull and rather on the easy side for price.

In the west, buying has become more general and prices are apparently very firmly fixed as a result of the Jersey sale at a clean basis of \$1.40 to \$1.45; landed in Boston for fine and fine medium wools.

The mohair market is slow but strong and more inquiry is reported during the last week or so for mohair wools.

Oregon's Annual Sacrifice

EVERY YEAR our mother state pays an enormous price for the carelessness of her own people. The pitiful part of it is that the very people who go into her forests to enjoy their beauty are the ones who are destroying them.

The First National Bank, on behalf of the Forest Service, urges that all of us unite to make this year one in which the usual toll of life, property and beauty may be kept to a minimum.
