Savings System for Local Schools Talked

A system of savings by pupils and students of the Eugene public schools may be instituted here next fall, if arrangements are made by school authorities to cooperate in this department, believed by E. E. Carleton, city superintendent, to be one of the most successful methods of training. William S. Carleton, traveling representative of the Educational Thrift Service, Inc., headquarters in New York, was here Wednesday, discussing the proposition with school authorities and bankers.

An individual passbook. It has been successfully instituted in eastern school systems and has been taken up by most larger western cities, Tacoma and Seattle having it in force already and Portland to start it next fall, according to Superintendent Carleton, who invited Semple to take up the proposition with the superintendent-elect later in the summer. A similar system of savings for school children has been in force for years by the Bank of Italy in San Francisco, which has a man whose entire time is devoted to this work, many schools having 100 per cent savings students enrolled.

The Educational Thrift Service has the endorsement of the American Bankers' association, it is reported.

Clay Did This

A white, refined super-clay
By Edna Wallace Hopper

Complexion is the envy of counting girls, and the marvel of millions of women.

I remember, have been 32 years ago, and am still. Mine is a mother's age. Yet my skin is just as fresh and rosy, just as smooth and soft, as 40 years ago.

Some of my friends, on the stage of society, have attained like results in my way. So I know that most can do it, and I am going to help if they wish.

A New-Type Clay.
I read much now about complexion. But those I see are crude and like I quit years ago.

French beauty expert first told me of this. Then few women used them. Some of those women became the wives of nations for their wonderful results.

Countless women use them. Clay is recognized as a prime essential of a woman's life. Women who omit clay to hope to compare with women who use it.

Exceptional results come from a type clay, perfected by 20 years of study. It is white, refined and soft. And able experts have found it to give the most beautiful results.

Where It Excels.
I found that only rare clays—certainly laden clays—bring the desired results. Modern science refines

that clay—removes the useless mud. Then the clay is white and clean and dainty. Experts also find that certain added factors give it multiplied effect.

My White Youth Clay will be a revelation to you, as it was to me. I thought I knew all that clay can do, but I did not know one-tenth.

It brings a new complexion, and quickly. Blackheads and blemishes disappear before it. Dull skins gain a rosy bloom. Wrinkles become smooth. Many women, in 30 minutes, seem to drop ten years.

My Gift to Women.
Now I have arranged so that all who wish may get this perfect clay, exactly as I use it. And I am taking time in my busy life to urge them to employ it.

Youth clay does more for youth and beauty than anything I know. The results will amaze and delight you. When you know them, nothing could induce you to go back.

All toilet counters sell Edna Wallace Hopper's White Youth Clay at 50c and \$1 per tube. Also my Youth Cream, which should follow the clay. Also my Facial Youth—liquid cleanser. Also my Hair Youth, which brought my luxuriant hair. My Beauty Book comes with each.

For your own sake—please—go learn what this clay can do. Edna Wallace Hopper, business address, Watfesh, Wis.

How to take care of traffic on Willamette street and on Ninth avenue east is a problem being discussed thoroughly today by city councilmen with the view to drafting some form of parking ordinance that will be satisfactory and safe. Posterman, The automobile men will be given the opportunity to draft and submit a parking ordinance for the council to discuss, modify and pass upon, according to Councilman Wallace, head of the police committee.

Whether to change to slantwise parking in certain sections, to facilitate getting under way without spending time juggling the car, is necessary now with the method of setting both wheels next the curb, is also considered.
