PROGRESS MADE ON POWER PLANT WORK

Progress is reported very satisfactory in improvement of the Eugene municipal power plant and tailrace at Waterville on the McKenzie river and at the station here. Widening and deepening of the tailrace, which has been somewhat delayed the past 30 days by encountering solid rock on the north side between the plant and the county bridge on the south side without much difficulty, is expected to continue now on the south side without much difficulty, it is learned from J. W. McArthur, member of the engineering staff in charge. Excavations for this rock has been completed and McArthur learned by telephone from Frank Cross, who is in charge of the Morrison-Knudsen Construction company digger, that the big machine would probably walk over the reconstructed bridge and be ready to work on the south side Saturday. Excavations for the added power house and waterwheel to be put in later has been completed and workmen will start making concrete forms to run the concrete foundation shortly. The carload of electrical transformer equipment received two weeks ago was all hauled to the plant last week. A shipment of I-beams of structural steel to be used in the power house improvement arrived Friday and will be hauled to the plant later. The pile driver and crew of six or seven men is making good progress in putting in the sheet piling at places where the current would otherwise cut the bank of the tailrace. Piling spiked with tungsten steel is being used. The center piece is usually of 2 1/2 x 12 inch outer planks 2x12-in, unless the ground is hard for driving, when piling 3 inches thick is used.

Recall Petitions Liberally Signed

Portland, Sept. 21.—Announcement of the names of the executive committee directing the recall against Governor Pierce is promised. The headquarters in the Morgan building is the point from which the statewide campaign is being directed by Archie Campbell, general manager, but the executive committee has not been loitering around the offices in the Morgan building. In good time, it is explained, the names of the committee will be given to the public. Meanwhile the gathering of names on the petition goes merrily on. The circulators are becoming more numerous.

in the city and petition blanks are being shipped to outside points. It was claimed yesterday that while no tabulation had been made since Thursday, it was believed that about 5000 names have been picked up. The real intensive drive is promised during the coming week. Within a few days the odds and ends of the various county organizations will be tied together, say the organizers, and then the names will come rolling in. Those interested in recall assert with positiveness that the 45,500 names will be secured; that a red-hot campaign will follow and that Walter M. Pierce will be pried loose from the gubernatorial chair. They make this talk and prediction with every outward sign of confidence.

MARKET REPORT

Table listing market prices for various commodities including Eggs and Poultry, Butter and Butterfat, Meat Market, Grains, Hay, Hides, Potatoes, and Fresh Tomatoes.

CHICAGO GRAIN REVIEW Chicago, Sept. 21.—Grain prices closed irregular on the Chicago board of trade today. Wheat experienced one of the duller trading days in several weeks. Numerous dips and rallies featured the day, led by commission houses, who switched frequently from the buying to the selling side. The market, however, was unable to recover at the close and fractional recessions were recorded. Buying on the strength of unfavorable crop news from the central and northwestern area gave September corn some strength and that closed higher. Optional oats were dull and sold off. A little commission house buying of May had no effect. Provisions were lower.

SEATTLE MARKETS Seattle, Wash., Sept. 21.—Butter 49 @50c; eggs 34@45c; hens 18@30c. PORTLAND MARKETS Portland, Ore., Sept. 21.—Cattle: Receipts 25; tone of market steady; best steers \$7.25@7.75; fair to good steers \$5.75@7.25; choice cows and heifers \$4.50@6.5; canners \$1.50@2.50; bulls \$3.25@4.25; calves \$5@10.50. Hogs: Receipts 566; tone of market steady; prime mixed \$9.25@9.75; rough heavy \$7.25@9.25; pigs \$8.25@9.25. Sheep: Receipts 103; tone of market steady; east of mountain lambs \$10@10.50; valley lambs \$9.50@10; yearlings \$9.50@10; wethers \$5@7.50; ewes \$1.50 @4.50. Produce: Hens 15@27c; eggs 35@47c; cheese 30@31c; butter 46@48c. Meats unchanged.

EASTERN BUTTER MARKETS FIRM Receipts of eggs for the past week have been heavier, but the quality indicates a good proportion of the stock had been held in the country by producers and small shippers. Prospects are for a firm to higher market on fresh eggs for the next few weeks, says the weekly produce review of Swift & Co. of Chicago. Storage stocks on account of higher prices for fresh, are now receiving more attention, but as the quantity is large there will be some property. Although pastures and weather conditions have been favorable to increased production of butter, this has not come about. Demand is good and prices are higher, with prospects of a firm basis for some time, although the higher prices now being asked from consumers may curtail consumption to some extent. While the market for live poultry has been high for the past week on account of Jewish holidays, indications are now that they will work to a lower level. The crop of poultry is reported heavy, and as this is the first year it is marketed, prices should be such as to create a good consumer demand, as there are still heavy reserve stocks of frozen poultry available.

DEMAND FOR EGGS IS BRISK Portland, Ore., Sept. 21.—Eggs were firm, with most jobbers quoting selects at 45 cents and candled ranch at 42 cents. One firm listed selects delivered at 47 cents. Storage extras were jobbed at 38@40 cents. Country buying prices on fresh ranged from 35 cents for mixed colors to 40 cents for white standards. Butter was firm with moderate receipts of cubes and a good clean up. The poultry market was easy with larger arrivals. Light hens were lower at 15 cents. Ducks were not wanted. Veal was scarce and firm at 16 cents.

PORTLAND WHEAT Portland, Ore., Sept. 21.—Wheat: hard white \$1.00; soft white \$1.05; western white \$1.00; hard winter \$1.02; northern spring \$1.04; western red \$1.03.

BOSTON WOOL Boston, Sept. 21.—The wool market is quiet, but more active than previous weeks. There is some demand for South American wools from the knitting trade. London cables report that market quiet with a good selection of New Zealand crossbreds included in the offerings. The market is active at a moderate level, today, and according to early cables, prices were sustained. A fair demand in the western wool markets is reported, but stocks have accumulated and dealers are trying to sell their wools.

ALLEN IS SECRETARY Pendleton, Sept. 21.—W. F. Chapman of Roseburg was elected vice-president of the State Pharmaceutical association yesterday. L. L. Coleman of Portland was chosen president; A. E. Crosby, The Dalles, vice-president; E. Russell, Portland, second vice-president; A. W. Allen, Eugene, secretary; Jack Lane, Portland, treasurer. The convention adjourned Eugene as the next meeting place.

TENT FILLED AS PIONEERS MEET

In a former report of the meeting of the convention of the Lane County Pioneers' association, a mistake was made, and the incident was written from the minutes of the meeting of 1922, instead of 1923. The correct account of the meeting of the pioneers follows: A big crowd of pioneers of the Pioneers' association of Lane county met in a tent on the fair grounds on Wednesday. The tent was filled to overflowing, and many of the old people who had come to attend the convention could not get entrance.

The meeting was opened by President William Pitney of Junction City. After a short talk by the president, Earl Childers, president of the Eugene Bible university, led in prayer. A speech by Rev. Childers, dealing with "The Dignity of Labor," contrasted the early times with the times of today. He said that in the old days the men rolled up their sleeves and worked with their hands as well as their brains for the building of the country, and state. He voiced an opinion that that was the kind of thing that both the country and state needs today. The only relic brought to the meeting was a pair of wooden harness shoes, which were made by Glen Powers, formerly of Springfield, and are now in the possession of J. J. Thomas of Coquille. Mrs. Hagar Delaney, who is the only living woman who came out of the Whitman massacre, gave a speech in which she told a brief history of the massacre. She described the horrors of the massacre in detail, telling how she saw her father and brother murdered by the Indians. She was finally rescued and brought to the fort by a friendly Indian. Following the speech by Mrs. Delaney, the officers for the following year were elected. William Pitney was re-elected president of the organization, and W. L. Christy was re-elected secretary. Both of these gentlemen have been steadily in office for about ten years. There are about 500 members of this organization, and 80 badges were sold on the day of the convention. It was the wish of the president, William Pitney, to make the organization one which will live forever in the history of Oregon.

COFFEE IS HIGHER Portland, Sept. 21.—The coffee market has been a surprise to all interested. Brazil has a large crop and lower prices were anticipated, owing to the size of the crop and to the fact that the bankers had some three million bags of valorization coffees to be disposed of. These coffees have been and are being sold, but the bankers have not taken the trade into their confidence. However, it is known that from one to one and one-fourth million bags have been sold within the last three and one-half months.

SEATTLE MARKETS Seattle, Wash., Sept. 21.—Butter 49 @50c; eggs 34@45c; hens 18@30c. PORTLAND MARKETS Portland, Ore., Sept. 21.—Cattle: Receipts 25; tone of market steady; best steers \$7.25@7.75; fair to good steers \$5.75@7.25; choice cows and heifers \$4.50@6.5; canners \$1.50@2.50; bulls \$3.25@4.25; calves \$5@10.50. Hogs: Receipts 566; tone of market steady; prime mixed \$9.25@9.75; rough heavy \$7.25@9.25; pigs \$8.25@9.25. Sheep: Receipts 103; tone of market steady; east of mountain lambs \$10@10.50; valley lambs \$9.50@10; yearlings \$9.50@10; wethers \$5@7.50; ewes \$1.50 @4.50. Produce: Hens 15@27c; eggs 35@47c; cheese 30@31c; butter 46@48c. Meats unchanged.

Sexton Says He Gained 125 Lbs. Taking Tanlac

How Tanlac cured my twenty-five years of stomach trouble, making a new man of me, was told recently by Leonard Sexton, pioneer farmer, of Milton, Oregon. "After suffering twenty-five years from indigestion and trying nearly every known remedy without relief, I finally completely removed the trouble and made a new man of me. I would not take all the money in the world for what it did for me. Before taking Tanlac everything I ate caused intense pains in my stomach, with gas and bloating. I always felt sluggish and tired, and never passed a comfortable day."

Why not motor to Boswell Minor's Springs for your Sunday dinner? \$1 per plate. Fri.-Sat. \$1.75.

Dr. A. H. Ross Heads Hospital Department

Dr. A. H. Ross, president of the Lane County Medical society, has just become a member of the Eugene hospital medical staff as head of the department of internal medicine, and will move his office to the hospital about October 1. Dr. Ross, who has been here four years and enjoys a large practice, came here after preparing himself in his specialty with 18 months postgraduate work in Johns Hopkins and in the Massachusetts General hospital, three months in the Massachusetts state hospital for tuberculosis at Rutland, Mass., and 25 months in army service, 12 of which he served as assistant medical chief.

BIG CORPORATION RECEIPTS Salem, Ore., Sept. 21.—Receipts of the state corporation commission for the year ending June 30, 1923, aggregated \$348,892.52, or an increase of \$24,172.07 over the previous year, according to the annual report of the department completed here yesterday by W. E. Crews, state corporation commissioner. Expenses for conducting the corporation department during the year totaled \$23,318.74, leaving \$325,573.78 available for transfer to the general fund of the state. "An indication of the prosperous condition of the state is made by the activity of savings (building) and loan associations," said the report. "During the year the number of these associations increased from 15 to 23. The total capitalization of these corporations is \$144,750,000. There has been loaned out of the deposits of these associations \$28,544,709.57, most of which has been used for home building in Oregon."

"Newspaper statements recommending Tanlac induced me to try it. Well, it took right hold of me, and it was astonishing how quickly it straightened out my stomach so I could eat anything I wanted without hurting me. I gained twenty-five pounds and felt like getting out and working. Tanlac saved me from life-long suffering. Tanlac is sold by all good druggists. Take no substitute. Over \$7 million bottles sold."

Tanlac Vegetable Pills are Nature's own remedy for constipation. For sale everywhere.

Macaroni At It's Best

KITCHEN BOUQUET, a purely vegetable product, is in almost every pantry. Housewives know it is the secret of making good gravies and soups, but KITCHEN BOUQUET is equally good in preparing many other dishes. Try your next dish of macaroni prepared this way—

Advertisement for Kitchen Bouquet, featuring text: "BAKED MACARONI. 1/2 package macaroni, broken in pieces. 2 teaspoons salt. 1 quart boiling water. 1/4 cup grated cheese. 1 teaspoon Kitchen Bouquet. 1/2 cup butter. Cook macaroni in boiling salted water until tender, drain and blot with wet water. Place macaroni in the cooked macaroni in buttered baking dish, mix with butter and sprinkle with grated cheese, then cover macaroni, butter and cheese until dish is full. Add Kitchen Bouquet to milk and pour this over the macaroni to nearly cover, then sprinkle thickly with cheese. Bake in moderate oven a half hour, until nicely browned and serve immediately for dinner." KITCHEN BOUQUET
