Guard Against "Flu" With Musterole
Influenza, Grippe and Pneumonia usually start with a cold. The moment you get those warning aches, get busy with good old Musterole.
Musterole is a counter-irritant that relieves congestion (which is what a cold really is) and stimulates circulation. It has all the good qualities of the old-fashioned mustard plaster without the blister.
Just rub it on with your finger-tips. First you will feel a warm tingle as the healing ointment penetrates the pores, then a soothing, cooling sensation and quick relief.
Have Musterole handy for emergency use. It may prevent serious illness.
To Mothers: Musterole is now made in smaller forms for babies and small children. Ask for Children's Musterole.

EGYPT CANCELS OLD TUT TOMB DIGGING PERMIT, AFTER FEUD
Cairo, Egypt, Feb. 21.—The Egyptian government has cancelled the license granted to the late Lord Carnarvon for excavating the tomb of Tut-Ankh-Amen. After the death of Lord Carnarvon the license was continued in the name of Countess Carnarvon. The work, however, was conducted by Howard Carter, head of the Egyptologists exploring the 3000 year old tomb.
Cancellation arose from a dispute between Carter and the government. The former had closed the tomb after raising the lid of the sarcophagus and refused to observe the government's conditions for re-opening it.

Unusual Means Of Lad Meet Failure
There are some youngsters who will go almost any length to keep away from school, or keep school away from them. One 12-year-old in the Dexter vicinity tried a new stunt last week, according to word reaching Eugene, only to meet failure. Fact is, the boy got a good "warming up" to boot.
The youth unthinkingly brought a box to school after the others had gone home. He took this box into both rooms of the building, and the living contents of the box were brought out for brief inspection each time. Satisfied, he kept a firm grip on his box and then left.
Next morning teachers and pupils were almost overcome when they opened the door, with a heavy odor that is peculiar to one little black and white striped animal that roams the farm yard at night. The school board was called and conducted an investigation and in but a short time the guile was fastened on this inventive lad of 12. Strong hands were also fastened on his collar.
The rest may be imagined.
The worst of it was, for the boy, that the incident didn't stop school at all.

Banks Are Booming In Coos Bay, Cities
Coos Bay is making considerable progress both at Marshfield and North Bend, according to Bennett Swanton of Marshfield, who has been attending matters in the federal court. In both towns many new buildings have been constructed during the past year, and many more are now under construction. All the banks of Marshfield have enlarged and improved their offices. The Coos Bay

National bank has just moved into its new building, constructed at an expense of about \$75,000. The Southwestern bank is in the midst of improving its quarters at a cost of approximately \$30,000. The First National is doing about \$20,000 worth of improvements to its building, and the new American bank, which is expected to open next month, has expended \$50,000 on a building and remodeling. Still another new bank, to be known as the Citizens bank, will open soon at North Bend, making two new banks in Coos bay for 1924. During the past year the bank deposits have increased about 25 per cent over the previous year. In fact, declares Mr. Swanton, Coos Bay, now having a railroad and a highway and its jetties in course of construction—the estimated cost of which is in excess of \$3,000,000—is confident that it is on the high road to very material prosperity.—Portland Oregonian.

For Want Of A Nail
There is an old saying that "for want of a nail, the shoe was lost" which goes far further than this and shows how due to the lack of a nail many, many things happened.
Many things may happen to your opportunity for want of capital. Create your capital by starting a savings account with the First National Bank. Not only will it prepare you for future opportunities but while accumulating will give you that satisfaction which only comes to the thrifty man.
