CITY AUTO PARK IS NOW OPERATED ALL YEAR ROUND

Eugene's municipal auto park is being operated on a 12-month basis for the first time this year, says D. H. Parker, park superintendent. Six families are now residing at the camp, and expect to stay through the year. There are 30 persons now living at the camp.

"This year has been the most successful we have ever had," said Mr. Parker. "Our total net receipts were \$5023, so it can be seen that the park is more than self-supporting. We have received nothing but the most favorable comments with regard to the Eugene park, and we believe that it is a real community asset."

It was recommended by Mayor E. H. Parks at the council meeting last night that some of the electric lights be eliminated from the park, as the power bill was amounting to \$65 a month. Mr. Parker reported that only four large lights were burning, and C. A. McClain declared that number of globes could not burn \$65 worth of electricity, so it was decided to investigate the matter.

The same park board will have charge of the city's parks next year, Mayor Parks announced. This board consists of F. M. Wilkins, Alton Hampton, Darwin Bristow and F. N. McAlister.

Equipment of the auto camp, including the 22 cottages, is easily worth \$5000 by now," said D. H. Parker. "The local camp is now one of the largest in the state of Oregon. Each cottage is provided with side walls, floor, 12 by 14 tent, 12 by 14 fly for the roof, a cook stove, spring and wiring for electric lights. In addition to this we have four lavatories, two kitchens with hot water connections and a central rest cottage worth \$2000."

Plans for the coming year do not include construction of more cottages, according to Mr. Parker, although arrangements are being made to accommodate the largest season of tourist travel in the history of the city.

SOLDIERS WARNED ABOUT HOSPITALS

Ex-service men afflicted with tuberculosis should keep away from the soldiers' home at Sewette, Cal., according to a letter received by Miss Grace Norton from the Sewette office of the Red Cross, asking her to aid in keeping men away from the hospital.

"Overcrowded conditions always prevail here during the winter months," says the hospital chief. "One of the greatest problems is the man who appears at the door, thinking all he has to do is to show his discharge and military record in order to be admitted to the soldiers' home. He possibly is a veteran's bureau beneficiary but may be A. W. O. L. from some other hospital."

"When a man discovers he cannot enter in the same way he can register at a hotel, he is disappointed and comes to the Red Cross. We usually discover he is without funds, and have to give emergency care until proper arrangements can be made."
