

RISE IS EXPECTED IN PRICE OF BREAD

Eugene may expect an increase in the price of bread within the next three weeks if the price of flour does not show a decrease, announces H. Krenmel of Krenmel's bakery. Portland bakers are already making arrangements to increase their prices, and San Francisco, Seattle, Tacoma and other larger cities of the coast have already made the rise in bread. The one loaf now sells in Eugene for 10 cents, and the pound loaf a half for 15 cents. The new rate would add 1 cent on the price of each loaf.

"The average bakery has not bought heavily on flour, and none of them expected the price to reach its present peak," said Mr. Krenmel. Larger wheat exports this year have created a shortage and consequently the price of flour, now around \$10.20 a barrel, may reach as high as \$12.50, it is predicted. Costs of materials have increased 20 1/2 per cent. Last year could be bought for 13 cents. Last year new costs 21 cents and vegetable oils have risen 15 to 20 per cent. It looks to me as if the increase is inevitable."

DIVORCE, MARRIAGE SUBJECT OF SERMON

Beginning his series of "University Sermons" Sunday morning at St. Mary's Catholic church Father O'Hara spoke to a congregation that filled the church to its doors on "Christian Marriage." He emphasized the importance of the family, assigning to it the primary among social institutions, the strong support of school, church and state.

"The unity of Christian marriage insisted upon by historical Christianity," said Father O'Hara, "involves a repudiation of both simultaneous and consecutive polygamy. If divorce be understood in the sense of a permission to re-marry during the lifetime of both parties, there is no scriptural ground for divorce. Infidelity may give ground for a separation, but does not permit re-marriage.

The increase in divorces in the United States was referred to. In 1880 there were 13 marriages for each divorce; in 1916 there were 5.3 marriages for each divorce; in 1922 there were 7.3 marriages for each divorce. The ratio in Oregon in 1922 was 2.6 marriages to each divorce. South Carolina is the only state in the union which has never granted a divorce.

The next sermon in the university series preached by Father O'Hara will be on "Christian Unity." It will deal with what could be accomplished by a united Christendom and a practical proposal for bringing such a union about. These sermons are preached at the 10:30 mass Sunday mornings and will continue during January and February.

The letter from Springfield states that a group of residents there who are interested in Oregon region, all information available on the advantages here as a prospective place of residence.

Robert Hainsworth Will Play at Rex

An announcement of interest to Eugene theatergoers is carried in the statement of A. H. McDonald, of the Rex theater, that Robert V. Hainsworth whose fame is far from unknown in this city, has accepted an engagement as featured organist and will take command of the Worlitzer organ, starting Monday, of next week, at the Rex.

Mr. Hainsworth had the honor of being the first "big time" organist in local theatrical circles, having opened the Rex organ when the big instrument was first installed. He also earned for himself the position of "first love" among Eugene theater patrons who remember him as the most popular organist the Rex has ever had.

Turn Hair Dark With Sage Tea

The old-time mixture of Sage Tea and Sulphur for darkening gray, streaked and faded hair is grandmother's recipe, and folks are again using it to keep their hair a good, even color, which is quite sensible, as we are living in an age when a youthful appearance is of the greatest advantage.

Nowadays, though, we don't have the troublesome task of gathering the sage and the mussy mixing at home. All drug stores sell the ready-to-use product, improved by the addition of other ingredients, called "Weth's Sage and Sulphur Compound." It is very popular because nobody can discover it has been applied. Simply moisten your comb or a soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, but what delights the ladies with Weth's Sage and Sulphur Compound, is that, besides beautifully darkening the hair after a few applications, it also produces that soft lustre and appearance of abundance which is so attractive.

DEER RESCUED AND HURTS ARE TENDED

Found struggling in the swollen waters of a creek in the Marcola district recently a young buck deer was dragged out by Ora Wills and taken to a vacant house to be wrapped in blankets and revived and as the animal is still crippled a request has been made to the state game officials for a permit to retain the deer until it recovers strength enough to be turned loose.

Bohney Roach, deputy state game warden in Lane county, today forwarded the request for a permit to J. J. Pierce, who is taking care of the deer. The buck is about two-thirds grown and is now quite tame and feeds well although one hip is broken.

"This shows fine sportsmanship on the part of the men who rescued the crippled deer from drowning and the act should be commended," is the statement of the deputy game warden. "As Mr. Pierce states in his letter it would be a shame to turn out the animal until it was well able to take care of itself. Permits are always required when a deer is held in captivity but they are readily granted by the commission when the animals are being taken care of such as in this case," Mr. Roach said.

Janet Young is Pleasing in Play

Janet Young, former University of Oregon dramatic leader, came back to Eugene Tuesday evening to score the greatest success of her playing here. With her she brought the remainder of the Moran Olson players, an excellent cast, who presented "You and I" to the high approval of the Heilig theater audience.

The play carried a plot that is very modern, and one that critic a typical situation through in a real-life manner.

The cast was well chosen, and the lines very well interpreted though out. It was a good play, and it was appreciated.
