Renewal of Debt Proposal is Made

PARIS, Jan. 15.—(AP)—An official renewal of the proposal for settling the interrelated debts contained in the Halfour note of 1922 is made by the British cabinet in the reply of Winston Churchill, chancellor of exchequer his given to the recent letter of Finance Minister Clemental on that subject.

The British cabinet thus proposes only to demand from the allies the amount by which Great Britain's payments to the United States for her debt exceeds the amount she receives from Germany.

Mr. Churchill's letter says negotiations regarding method of payment will be necessary between the two governments in the same spirit of "comradeship" that united them during the war.

The site of Portsmouth, N. H., was once involved in a unique law suit. Samuel Allen, London merchant, later governor of New Hampshire, had bought a 60-acre tract. The settlers disputed his claim and the matter remained in the courts until all of Allen's family had died. He died in 1705.
