Pimply Skin and Impure Blood Due to a Torpid Liver

Blood carries body's poisons, which quickly disfigure the complexion

The liver is the body's wonderful purifier. All of our blood passes through the liver every 15 minutes for purification.

Everyone's blood is constantly poisoned by body toxins formed in food waste. When the liver becomes weak, or torpid, our systems are at once tainted by blood toxins.

Doctors know that a good complexion comes only from within the body. Blood impurities cannot be rubbed away with creams or ointments. Science also knows that the liver—the body's complexion maker—cannot be regulated by drugs, but a safe nature substance has been discovered which will act directly on the liver. The discovery is purified ox gall.

JACKSON COUNTY REPUBLICANS FOR AMENDED MEASURE

MEDFORD, Ore., Jan. 21.—The republican party organization in Jackson county has forwarded the following resolution to the Jackson county delegation in the Oregon legislature:

Whereas, the Oregon direct primary law was adopted for the purpose of curing the defects, real and imaginary, that had developed through the operation of the political convention system; and

Whereas, we believe that the affairs of a representative republic, such as ours, should be administered through and by responsible majority parties, and that these majority political parties should be encouraged, protected and fostered through the enactment of proper electoral safeguards; and

Whereas, the present direct primary law is destructive of party solidarity, party spirit, and party loyalty;

ty, from the fact that it does not make specific provision whereby political parties can hold representative delegate conventions, for the purpose of declaring the principles and policies of party, and selecting capable men and women to be voted for by the electorate in the primary; and

Whereas, after twenty years of trial, the weakness of our present primary law is recognized by thoughtful citizens of all political parties, it encourages rule by blocs, minorities, and secret or concealed political groups upon whom responsibility cannot be fixed; the incapable and the unfit, the demagogue and the self-seeker, in many cases thrust themselves into public office, there is no thought or care given to the selection of our public servants, with resultant inefficiency and waste in the administration of our affairs; and

Whereas, we believe the time has come when a vast majority of the electorate of the state of Oregon are demanding a reasonable and friendly revision of our direct primary law to the end that representative responsible government shall be strengthened and upheld;

Therefore, be it resolved: that the duly elected and appointed officers of the Jackson county republican organization do hereby instruct our legislative delegation to take the proper steps to amend our primary law in the following respects:

First, to provide for representative delegate party conventions, to be held prior to the date set for the primary election. The purpose of these conventions being to draft platforms of principles and to recommend suitable candidates for office to be voted on in the May primary. Also to select delegates to the state and district conventions.

Second, to provide for holding an election to select delegates to these party conventions, and to provide that in all cases the lawfully elected precinct committeemen or county organizations shall be the foundation on which these conventions will be built. And that they automatically become members of these party conventions, with exactly the same powers and duties as the regularly elected delegates.

Respectfully submitted by the Jackson county republican central committee through its properly elected officers.

Piling Up Happiness with Music

It was grandmother's first experience with a Playerplano. At first she declined to play, saying that she couldn't, but when we explained how easy it is to work the treadles and operate the levers, she consented with a little laugh.

"Song after song, she played—the old favorite ballads of long ago—and, as memories of her girlhood were awakened, a new light stole into her eyes. Now grandmother says she intends to have a Playerplano, and pile up a little music happiness."

Aren't you missing much of the good things of life by not having music in your home?
