

CITY NEWS

(Continued from page one)

Eastern Star will have an entertainment the evening of Friday, January 30 for the members of the order and their friends.

Beys Farm Here—Thomas Sulem has sold his 180-acre farm up Camp creek to Frank D. Russell of Red Bluff, Cal. Mr. Russell will take immediate possession. This is one of the best pieces of property in this district, and the new owner is planning extensive improvements. He looks for many more Californians to come north to invest in Oregon property. Henry Stewart and A. J. Meiky of the Beeger realty office completed the deal.

Basketball Postponed—During the smollop scare on the University of Oregon campus the doughnut basketball games have been postponed on the campus, it is announced. This action was largely necessitated by the number of vaccinations among the players. Similar action has been taken for doughnut swimming meets, as the vaccinations prevent the swimmers from entering the water.

Surveyors Return—J. M. McCausland, deputy county surveyor and two assistants, Elbe Signor and Victor Fogie, returned Thursday evening from Charles Gold's place at Alma postoffice, on the upper Siuslaw river where they set grade stakes for about one and one-quarter miles of new grade, being part of the road to be improved from funds of bond project number 22.

Leaves for Pendleton—Mrs. Lionel Trommlitz, who has been visiting her parents, Mr. and Mrs. B. F. Russell, left today for Pendleton to meet her husband, and go to their new home in Spokane. Mr. Trommlitz, formerly of Eugene, now with the General Motors Acceptance corporation, has been transferred to Spokane.

Grange Will Meet—The regular meeting of the Four Oaks Grange will be held this evening starting at 7:30 o'clock. This is the first meeting held under the direction of the new officers. Mrs. Stauffer, lecturer, is sending out notices to the membership to answer roll call with "What the Grange has done for me."

Returning From East—Word has been received here by friends that Mrs. A. W. Livermore and her daughter Gertrude who have been in the east for the past six months are returning here and expect to be home about February 6. They are now at St. Louis, is the word received.

Car Market Bought—Howard Ackerman has become the sole owner of the Certified Public Motorcar Market through a deal completed yesterday, it is announced. Mr. Ackerman has bought the stock of all automobile dealers financially interested in the concern.

Stock is Purchased—The Eugene Packing company has purchased a carload of stall fed steers from Joe Stephens of the Noti valley district which will be delivered in Eugene Monday. The company has also purchased a car of thoroughbred

Today is Pay-Day At School Offices

Today was pay-day at the Eugene school district office in the city hall, according to O. H. Jones, secretary of the school board. The average total pay-roll of the district each month is approximately \$15,000, including teachers, superintendents, janitors and other employees. Teachers in local schools number about 110. The first pay-day of the local district was two weeks after school began in the fall. The "ghost walked" at regular four-week intervals thereafter. One pay-day took place just before the holidays, and this is the first of the year 1925.

roon Durhams from Cal Young and this is being delivered now.

Mr. Eddy Speaks—An address on thrift will be given by Rev. Frank Fay Eddy, pastor of the Unitarian church, at the Coburg Grange, meeting tonight in the grange hall.

Fuel Company Moves—Office of the Mannerud-Huntington Fuel corporation will be moved from Seventh avenue west to room 24, First National Bank building, it is announced by the proprietors.

ARGUMENTS ENDED FAVORING GOODING BILL ON RAILWAYS

WASHINGTON, Jan. 23.—Concluding their presentation of arguments in support of the Gooding bill which would prohibit railroads from charging less for long hauls than for short hauls over the same route, proponents of the measure today urged the house commerce committee to lose no time in submitting a favorable report so that the house may have an opportunity to vote on the proposal at this session.

Witnesses who appeared at today's committee session were C. S. Brown of Phoenix, Ariz., chairman of the executive committee of the Arizona State Farm Bureau federation; J. B. Early, Salt Lake City, executive secretary of the Utah Manufacturers association; Leonard Way, representing the Idaho public utilities commission; Amos A. Betts, a member of the Arizona corporation commission, Hugh Williams, representing the Nevada corporation commission; J. F. Shaughnessy, chairman of the Nevada corporation commission, and W. D. Hayward, of Meridian, Miss.

To balance the testimony offered this week by advocates of the Gooding bill four days will be allotted next week by the committee to hearing its opponents.

Brown, Early and Way submitted written statements urging favorable action on the Gooding bill, while Betts, during his testimony, laid particular emphasis on the empty car movement as a factor in railroad rates. He contended the empty car situation had no serious bearing on the long and short haul proposition and declared the western lines, which are protesting against the Gooding proposal, are better off so far as the movement of empties is concerned than the roads in other sections of the country.

Williams declared it was difficult to get new industries to locate in western cities away from the seacoast so long as their fate is in the hands of eleven men having such broad discriminatory powers as now vested in the interstate commerce commission.

J. L. BLAND SPEAKS ON READING NEWS

Advice to newspaper readers to read the editorials and news stories and not just to scan the headlines of their daily paper, was given today by J. L. Bland, local manager of the Pacific Telephone and Telegraph company, at the luncheon meeting of the Y. M. C. A. public speaking class held at the Osburn hotel.

The speaker stressed the point that the real substance of the accounts of the day's happenings were in the stories and editorial comment and that they should be read and no opinion formed on the somewhat limited phrases of the headlines. Thank you, Mr. Bland.

Dr. S. M. Kerron, city and county health officer, was also on the speaking program for a short talk on the narcotic evil. The Y. M. C. A. club hereafter will meet for luncheon each Friday noon, it has been decided.

SHOOTING GROUNDS MOVE IS DEFEATED LOCAL MEN PREDICT

The state legislature will not go on record in favor of the proposed "public shooting ground and game refuge act," pending before Congress, report Earl C. Simmons and W. B. Wallace, who spent the afternoon at Salem yesterday with the resolutions committee of the legislature. As a result of the arguments brought up against the bill, it is certain that Oregon will not favor it, according to word brought back by the local men.

Mr. Simmons made his plea as representative of all the sportsmen's clubs of the state, and Mr. Wallace went as representative of the Eugene Lions' club, the president of the field trials club, and one of the sportsmen's association delegation.

"This bill provides for the establishment of public shooting grounds and game refuges," said Mr. Simmons, "and would assess an annual fee of \$1 for the privilege of hunting, half of the money to be used for administration and the balance, part for purchase, rental and development of grounds and part for administration.

"This is in apparent that not more than 45 per cent of the funds can be used for acquiring public shooting grounds, and it is not at all likely that any part of the money collected in Oregon will be spent in Oregon for lands, waters improvement or refuges. Duplication of the state warden service by a group of federal agents working on a part of the year would be an added burden for sportsmen to carry.

"The game association disapproves of centralizing control in the federal government of the game resources of the states, and the purpose of this bill is not, in our opinion, as indicated in its title, but is designed to, and will result in an unwarranted encroachment by the federal government upon the rights of the various states in protecting their natural resources and in the administration of their game statutes."

MOTORISTS MASTER NEW PARKING LAW

Parallel parking is rapidly being mastered by motorists of Eugene, and the confusion resulting when the new ordinance went into effect is noted, according to Ramey Rugh, chairman of the police committee, and co-author of the new law.

"It is still observed that several merchants are parking their machines in front of their business houses," says Mr. Rugh. "It is just this sort of thing that we want to do away with. If the car owner would take his machine to a side street out of the congested district to park it, there would be more room provided on the main streets for his customers. We are particularly inviting the cooperation of motorists on this point."

The police committee and street committee are willing to entertain a workable plan for the widening of the streets, according to Mr. Rugh. Indications are that the widening would not be feasible on Willamette street, but of applied to Oak and Olive streets, would relieve much of the congestion there, and probably permit angle parking.

Case is Decided After 20 Years

ST. LOUIS, Jan. 23.—After 20 years litigation, Federal Judge Faris today decided that Hubert Hopkins, St. Louis inventor, and not Isaac DeMent, an eastern inventor, devised in 1894 an intricate "re-rolling" device for adding machines. The decision in effect upheld the claims of the Burroughs Adding Machine company against those of the National Cash Register company.

Secretary Wilbur Has Narrow Escape

WASHINGTON, Jan. 23.—Secretary Wilbur and his daughter, Edna narrowly escaped injury here last night, when their automobile, driven by the secretary's chauffeur, collided with another machine at a street intersection. The secretary's car was damaged, but the occupants of both machines were unharmed.

Boys Halt Man Who Lifted Jug; Police Called to Their Aid

BEND, Ore., Jan. 23.—Three boys ranging in age between 12 and 15 years while playing yesterday, saw a man approach a stump, lift out a gallon jug and five bottles. He stuffed the bottles in his shirt front and with the jug in his hand started off.

Two of the boys tackled the man while the third went to call the police. Threats hurled at the boys were of no avail so the man started to run. The boys grabbed him by the legs and arms or whatever was handy throwing him to the ground. He finally gave up just as Pete Hansen, chief of police arrived.

The man gave his name as J. J. Berry and this morning pleaded guilty to a charge of possession of liquor in police court. He was fined \$500 and ten days in jail.

The boys preventing the escape of the man were Clifton Finella, Meri Stutzman and Frank Pinnella.

LUMBER BUSINESS GETS NO BETTER

Most of the lumber mills in Lane county are now busy with orders carried over the holidays, and the cold spell which had them tied up completely, according to Crow's Pacific Coast lumber index, copies of which reached local lumber men today.

"New business in Lane county has not been up to the expectations of most of the lumbermen during the last ten days, and should it remain as quiet as it has been for another two weeks it is likely to have an effect on prices," says the index.

"In a few isolated cases small mills are looking for cutting orders but reports that a good sized order for ordinary No. 1 cross ties is soon to be placed by a middlewest railroad is causing them to hold off holding hard orders for bridge plank or special cutting which is about all there is being offered at the present time.

"Opinion here varies as to the outlook—some feeling that the inactivity now being experienced is only temporary and is due to the unfavorable weather throughout the consuming fields and that the first signs of temperatures which will permit outside work will see a revival in buying, while others are afraid that a break in the market will act as it did last year, and cause hand-to-mouth buying for early spring requirements.

"Production in this section is being held down to a minimum with the hope that the same condition exists in other lumber manufacturing parts of Oregon and Washington, for to say the least there is nothing now to warrant extra shifts."

J. C. Henry Estate Is Appraised Today

Appraisal of the estate of the late J. C. Henry, former proprietor of the Monroe garage, who committed suicide December 1, is being made today by the board composed of A. T. Cockrill, E. U. Lee and F. M. Hathaway.

The appraisers were busy all morning inspecting between 25 and 30 pieces of real estate in the city on which Mr. Henry had equities. The appraisal is expected to be completed tomorrow.

Rotarians to Hear Business Address

"Relationship between buyer and seller" will be the topic to be discussed by Walter Fell, local manager of the Mason Ebrman company, at the noon luncheon meeting of the Eugene Rotary club to be held at the Osburn hotel Tuesday. This is one of the talks arranged by the business committee of the club.

ECZEMA

You will be compelled to admit that the results of S.S.S. are really amazing!

MANY people imagine that eczema or tetter needs only some external application on the skin in order to get relief. This is because the attention of the sufferer is so violently directed to the intense burning and itching which accompanies this disease. Try as they may—permanent relief will never be theirs until the disease laden blood is thoroughly cleansed.

We know there is one thing that stops eczema and that is more red-blood-cells! S.S.S. builds them by the million! You can increase your red-blood-cells to the point where it is practically impossible for eczema to exist. We know that as blood-cells increase in number, blood impurities vanish! We also know that night follows day. Both are facts! But have you, eczema sufferers, ever actually taken advantage of this wonderful fact? Thousands just like you have never thought about it. Skin eruptions, eczema, with all its fiery, skin digging torture, and its soul-tearing, unreachable itching, pimples, blackheads and boils, they all pack up and go, when the tide of blood-cells begins to roll in. Blood-cells are the fighting giants of Nature! S.S.S. builds them by the million! It has been doing it since 1826.

S.S.S. is one of the greatest blood-cell builders, blood-cleansers and body strengtheners known to us mortals! When you put these facts together—then to continue to have eczema and skin eruptions looks more like a sin than a disease. S.S.S. contains only vegetable medicinal ingredients. Because S.S.S. does build red-blood-cells, it routs eczema, clears the skin, builds firm flesh, fills out hollow cheeks, and gives you that more up and going appearance.

S. S. S. is sold at all good drug stores in two sizes, as larger size is more economical. S.S.S. The World's Best Blood Medicine
