Work on the flow river road which has been under way was completed yesterday, according to Mr. Tuller. More work on this route is planned as soon as the weather improves, is the announcement.

GOVERNOR DIRECTS CLEAVER'S ACTIONS

(Continued from page one)

was advised by Mr. Herwig, sometimes by Baker.

Means Elisha Baker.

Cleaver had reference to Elisha A. Baker, president and attorney of the Anti-Saloon league.

Yesterday's seven-hour session brought forth a medley of testimony. One conclusion was reached, agreed to by all members of the committee. In the words of Chairman Garland this was:

"We are all satisfied from the evidence that Mr. Cleaver has been too active politically and is subject to our censure. \$5,000 in this investigation will not again consider the question of politics."

Important phases of yesterday's inquiry were:

Introduction in evidence of a letter written by Cleaver to District Attorney Loungue of Washington county, showing Cleaver's attitude toward local officials.

Dr. Linville Speaks.

Testimony by Dr. J. A. Linville, federal prohibition director for Oregon, refuted the testimony given Wednesday by Virginia B. Washburne. He denied that he had asked her to spread propaganda against the state prohibition department, or that he had ever in any way received protection money from law violators.

Rev. Joe H. Benton, who was an agent for Cleaver in Douglas county, defended his record, contradicting testimony that had previously been put in by Sheriff Starmer of Roseburg.

Sheriff Starmer of Roseburg was again called, presenting affidavits to refute testimony given several days ago by Senator Stagner relative to the clean-up at Reedsport and of defending his record there prior to the creation of the state department.

Laronda M. Pierce testified that he had been sent to Deschutes county by Cleaver, with the sanction of Governor Pierce, to work against local officers politically.

This brought a denial from Cleaver, who said he sent Pierce to Bend to do one thing and he did another.

This led to a grilling of Cleaver by Hare and Longman as to whether he

had attempted to defeat Denton Burdick for the legislature and had his agents trail Burdick for three weeks in an effort to get something on him.

Cleaver admitted that Burdick had been trailed.

"Don't you think it was a mistake, Mr. Cleaver, to play so close to politics?" asked Garland.

"Yes, I believe it was a mistake," Cleaver answered.

Laronda Pierce was questioned about the blackmail plot against Cleaver, of which he has accused Mrs. Washburne. This he denied, declaring that Mrs. Washburne had suggested such a plot.

He is interested in all civic affairs and has been an active member of the Moscow chamber of commerce. Our loss will be your gain and we congratulate the people of Lane county, Oregon, in securing the services of Mr. Fletcher," the letter states.

Table Supply Features

1. **THE TABLE SUPPLY** is a **FOOD DEPARTMENT STORE**—a place where all your food may be purchased under one roof without the added trouble of shopping around.

2. **SPECIALTY SHOPS**—Each department of this store is a specialty shop—specializing in the kind of food it handles.

3. **DEPARTMENTS**—There are six little specialty shops all combined into one big food department store. They are—meat, general groceries, vegetables, delicatessen, bakery, and the kitchen.

4. **SANITATION**—All our groceries are kept on shelves or under glass in a neat orderly fashion. All of the open foods are under glass, where they are protected from flying filth. The floors are kept in apple-pie order—no rubbish accumulates. The kitchen is immaculate—kept spotless all the time. The state food inspector pronounced it as a model kitchen as far as cleanliness is concerned.

All the employees that wait upon you are dressed in white.

Every effort is being made to make this the most sanitary place in the state.

5. **SERVICE**—At the Table Supply there are four daily free deliveries coming at the most convenient times of the day. Food intended for the noon meal is sent out on the 8 o'clock delivery. The food for dinner is sent on either the 10 o'clock or 2 o'clock delivery while that that is not needed until the following day is delivered on the 4 o'clock. The deliveries leave this store promptly at the designated hours—8, 10, 2 and 4.

For the convenience of the customers a telephone switch board was installed at which a girl sits from seven until six answering your telephone calls. There is only one number to remember—246. That number will reach any department.

Each employee has his name in a little metal tag he wears on his coat. Customers can recognize them more easily as the result, and if there has been any mistake, the customer knows to whom to go.

J. O. HOLT LEAVES OHIO CONVENTION

J. O. Holt, manager of the Eugene Fruit Growers' association, is on his way to Eugene, having left the National Cannery's association meeting at Cincinnati yesterday morning, announcing J. D. Hamlin, office manager, today. Mr. Holt telegraphed the local office that he was on his return trip, after having visited buyers in all the principal cities on the Atlantic coast.

Annual meeting of directors of the association will be February 13, and Mr. Holt is expected February 5 or 6, it is reported.

Work in the plant of the Fruit Growers' association is virtually at a standstill, reports Mr. Hamlin, with the exception of a general overhauling and repairing of machinery, and installation of several new boilers to replace those now in use.

Evangelists Draw Crowds to Church

There were nine added last evening at the evangelistic meeting at the First Christian church making a total of 151 during the entire series. The meetings will close Sunday evening and preparations are being made by the members of the church to accommodate the crowd. In speaking of the evangelists, Dr. Stivers, pastor of the church, said: "Evangelist Childers has made many friends in the community. He is an instructor in Eugene Bible university, and it is all the more remarkable that he should draw such fine crowds and conduct such an outstanding meeting. Prof. Hohgatt, who has led the singing, is also a resident of Eugene and dean of music in the Bible university. There is nothing that argues more for the outstanding work done in this institution than the fact that these two men have been able to lead in such a splendid meeting."

Bridge Decking of Cedar to be Used

Cedar planking for the decking of the new Harrisburg bridge will be used instead of fir, according to Engineer Paxton, of the state bridge department, who was here today to confer with Judge C. P. Barnard in regard to state work in Lane county. About 250,000 feet of planking will be necessary and this will probably be furnished by the Western White Cedar company of Port Orford. Work on the approaches to the span is under way but there will be no work on the bridge until the river level lowers, the state engineer states.

County Plans For Road Gravel Site

Purchase of a gravel pit to provide material for road work north of the city along the route of the Pacific highway is contemplated by the county court and today Clinton Hurd, county commissioner, inspected a site of between one and two acres near Loop road three between the highway and the river. If arrangements for this pit are completed with the owners of the property operations will be started there when road work gets under way soon, the commissioner states.

Quality only can hold friends so many years

There's nothing like real quality in coffee to bring friendliness bubbling to the top. It certainly has made heaps of people and Golden West friendly these 40-odd years. And the best of it—those friends remain.

Golden West Coffee has been constant, too—never a slip between cup and lip—just steadily getting better as the selective choice of the world's best-flavored high-grown berries, scientific blending, steel cutting and vacuum packing have perfected that velvet-smooth taste and enticing aroma.

Economical—of course—seeming to yield more delicious cups to the pound.

Goodness locked in—opens with a key. The handy key-opening top is quickly, easily, safely removed. No can-opener; no digging in; no raw edges to cut you. There's a convenient container when the coffee is gone.
