THE BOLDEST STROKE IN OUR BUSINESS CAREER

Think of it folks. This is the beginning of a new year. The beginning of a new season. Just the time when we should be thinking of profit, but we can't wait — this stock must move, our obligations must be met. We are loaded to overflowing with merchandise, but we are determined to turn it into cash. Don't miss one single day of this sale as the stock moves out from the store we will replenish from warehouse. If you don't believe we are loaded come and see.

JUST PLAIN COLD BLOODED BUSINESS FACTS!

We believe the intelligent people of Eugene and surrounding country are fairly well posted on business conditions and we believe they know what the average merchant is up against. Business has not been normal. It has been rotten. We are forced to carry a very large stock to supply the demands in normal times, our merchandise has not moved as we expected it to do. Our collections have been coming in slow. This condition has made us hard pressed for money. That is the only reason for this sale and the prices we are making, if you will read carefully, will convince the most skeptical.
