Fish Commission Bill Faces Defeat

SENATORS ARE WAVERING; 14 ARE OPPOSED

Measure Taken Up as Special Order of Business This Afternoon

Game Commission Bill Will Follow Action on Fish Commission Plan

STATE HOUSE, SALEM, Ore., Feb. 11.—(AP)—Possibilities of the commercial fish commission bill being defeated on the floor of the senate without the exercise of the veto was seen this forenoon when it was learned that the original group of 13 senators opposed to the measure had been augmented to 14, and that another senator was wavering on the question.

Whether the bill is defeated outright on the floor of the senate there appears to be at least 14 solid votes to sustain the veto of the governor and 11 votes are sufficient.

House Vote Heavy

Should the measure pass the senate the plan is for the house immediately to proceed to consideration of the bill and present indications are that there will be sufficient votes in that body to enact it and also to pass it over the executive's veto. Upon it being vetoed, it would be sent back to the senate from which it originated and upon the veto being sustained in that body it would be sent to the legislative cemetery.

The bill was introduced by Senator Ritner and transfers contro. of the fish commission from the governor to the state board of control. It will come up under a special order of business this afternoon at 2:30 o'clock.

Kirkwood Bill Up

Representative Kirkwood's bill transferring the control over the game commission from governor to the board of control is also pending in the senate, it having passed the house with enough votes to carry it over the governor's veto.

The group of 13 in the senate is expected to sustain the g vernor's veto of this bill should it pass the senate. It is scheduled to follow the fish commission bill.

LEVY MORE THAN SIX PER CENT, IS RULING OF JUDGE

Lane county's tax levy exceeded the six per cent limitation as set by the state constitution, according to a decision handed down today by Judge G. F. Skipworth. The judge in overruling the demurrer filed by District Attorney John S. Medley in the case brought by J. H. Hawley and C. W. Boyd also holds that the levy of one-mill for the purpose of a timber cruise is also void.

Judge C. P. Barnard of the county court stated today that the excess over the six per cent limit will be approximately $10,000 and that this will probably be cut from the road and bridge item in the county budget. Although the county has to February 17 to take further legal action in the tax case present indications are that the levy will be trimmed to meet the decision as issued today.

Judge Barnard in his opinion concerning the cut in the budget states that this will mean that no appropriation for the Eugene-Florence road work will be available this year. The court set $30,000 for this but cut $10,000 and now with another similar cut there will be only $10,000 remaining, not enough to enter in co-operative work with the state on the highway.

The decision of Judge Skipworth will also mean that there will probably be no timber cruise in Lane this year.

W. M. JARDINE GAINS SUPPORT AS SECRETARY

White House Withholds Comment, Though Understanding is Held

Farm Loan Board Members To Meet in Los Angeles On February 16

WASHINGTON, Feb. 11.—(AP)—Although the White House withheld comment, administration officials elsewhere indicated a belief that William M. Jardine of Kansas, had virtually been decided on by President Coolidge for secretary of agriculture.

The Kansas delegation in congress, which once endorsed J. C. Mohler, also of Kansas, for the post, met and changed its support to Mr. Jardine. Members of the delegation have been in constant consultation with Mr. Coolidge. Officials said the visit had to do with agricultural questions, but declined to go into details.

Backed By Hoover.

Mr. Jardine is president of the Kansas Agricultural college and his supporters say he has the endorsement of Secretary Hoover to whom the president previously had offered the agriculture secretaryship. His attitude toward the McNary-Haugen farm bill had been displeasing to some of the Kansas delegation supporting that measure. The delegation was unanimous today, however, in its endorsement of him.

Mr. Jardine has had many kinds of

SAND CAVE TO YIELD VICTIM SOON, IS HOPE

Indications Early This Afternoon Are For Extrication Tonight

Twelfth Section of Timber Of Wall of Shaft is Completed

CAVE CITY, Ky., Feb. 11.—(AP)—Barring unlooked for developments, indications at 12:30 o'clock this afternoon were that Floyd Collins would not be extricated before late tonight from Sand cave, in which he has been trapped for 12 days.

H. T. Carmichael, in charge of sinking the shaft said that a sudden striking of the cavern in which Collins is a prisoner would be the only unexpected development which might possibly lead to an earlier rescue.

The twelfth section of timbering up the wall of the shaft was completed at noon today. Each section covers approximately three feet. The excavation was slightly below the last bracing put in.

CONNECTION NEARS

CAVE CITY, Ky., Feb. 11.—(AP)—A definite connection between the rescue shaft and the tunnel in which Floyd Collins has been imprisoned for 12 days, at 10 o'clock this morning, was expected to be reached very soon, it was declared by H. T. Carmichael, superintending the sinking of the shaft.

"I am prepared at almost any time to find a definite connection between the shaft and the cavern," Carmichael said. "More crevices are being found, rocks are getting larger, sand has given way to gravel and more cave crickets are reported by the diggers."

Twenty-Hour Maximum.

Twenty hours was given by rescuers at 9 a. m. as the maximum time they expected to take to extricate Collins. The workers said that if he was not out of the hole in that time they would be sorely disappointed. They were hopeful of reaching Collins much sooner, saying that it might come at any minute.

Carmichael explained that the shaft had been completed two-thirds of the depth originally planned and that he expected to find some passageway before the maximum depth estimated had been reached.

Drain Thought Near.

Old cavemen among the diggers told John Henretty, foreman under Carmichael that the finding of cave crickets was unmistakable evidence that underground drain was near. The
