

ARMORY WILL BE CLEARED BY AUTO MEN FOR QUINTET

Through the kindness of Ken Able of the Lane Auto company, E. C. and L. R. Simmons of the Ford company, and John Starke, manager of the automobile show the University of Oregon basketball team will have the use of the armory floor for practice for its game Friday against the Oregon Aggies. These two companies have their displays in the gym for this week's auto show but they have promised to clear the floor just before practice today.

It will be more difficult to move the cars tomorrow because of additional displays, so they will have only one-half of the floor clear. The players can practice shooting fouls, after holding regular practice in the gymnasium. The Webfooters are weak in shooting fouls and need all the practice they can get.

The entire floor will be cleared Thursday night for the important clash with the Aggies the following night. To remain in the running Oregon needs the Aggies' scalp. Otherwise, the Webfooters will have to win their three road games, and then they will only be tied with the Aggies for the lead.

A victory for the locals will put them in line for the title. It is not expected that Washington state will be very dangerous on their home court, but Idaho and Washington, playing on their own floor, will have a decided advantage over the visiting Oregonians, who will have to play four times in six days.

Coch Reinhardt's chief object is to develop dependable substitutes. Oregon has a fine team, but as soon as one of the players, and especially a forward, is ranked, the whole team work seems to waver. If Reinhardt can develop at least one more dependable forward, the Oregonians will have a fine chance to gain the conference championship.

EUGENE STUDENTS AID O. A. C. DRIVE

OREGON AGRICULTURAL COLLEGE, CORVALLIS, Feb. 17.—(Special)—Students from Eugene have had a part in raising more than \$300,000 of the \$500,000 required to erect a Memorial union building on the campus. Eugene students who worked in the campus campaign organization are Gladys Buckman, Margaret Calef, Russel S. Bond, Clara Miller, and Mary Rose.

Inspired by the example of the men who gave their lives in the Spanish-American and World war, students and faculty pledged \$203,000 to the project in less than a week. Of this sum faculty members contributed \$31,000. Alumni in Portland and business men of Corvallis have contributed nearly \$40,000 in campaigns not yet completed. With less than \$200,000 to be raised and the entire alumni field practically untouched, the financial goal of \$500,000 will be reached by April 1, say those in charge.

The building is planned for completion in the fall of 1925. The plans offered by Lee Thomas, '07, architect, provide for a building 200 feet square and towering to a height of 180 feet. It is designed in keeping with the campus building plan, yet has the added attraction of classic architecture.

In the building will be offices for the various student organizations now scattered over the entire campus, and separate gathering places for men and women with appropriate rest and reading rooms.

"Peter Pan" is Well Taken Here

One of the sweetest and most lovable of plays, and one which theatergoers only occasionally get an opportunity to see—such is Peter Pan which opened for a three-day run at the Rex last evening. Filled with the spirit of youth and innocence and having a theme which appeals to old and young alike, it is acclaimed as

Colds In the chest— Apply Red Pepper at once

Not a plaster, not mustard. Not any old-time method. The modern was Red Pepper Rub.

Nothing else applies such concentrated, such penetrating heat. And heat that doesn't hurt. The old ways can't compare.

Rub it on the chest where congestion exists. A cold is congestion, you know. As soon as you feel the tingling, penetrating heat. Circulation starts, congestion is relieved. And soon you will feel the cold loosen.

This is just the age-old method of dealing with a cold, perfected by modern science. Red pepper, applied in this way, does what old ways could not do. Use it once and you will use it always. The difference will quickly show.

But have it ready—get it now. Every hour saved at the start of a cold may save many hours of trouble. Be ready to loosen it at once.

SOCIETY AND WOMEN'S CLUBS

Club Items Should Be Phoned To the Society Editor Between 8:30 A. M. and 11:30 A. M. Telephone Number 1200

By MARIAN LOWRY

Prominent of the affairs for society this evening will be the play, "Something Tells Me," to be presented at the Heilig with May Robson starring. Miss Robson is a Sigma Chi mother and preceding the play this evening she is to be guest of honor for a dinner for which members of the University of Oregon chapter of the fraternity will be hosts.

Tomorrow afternoon at the Osburn hotel Mrs. L. E. Bean, Mrs. F. H. Crosby, Mrs. David J. Jones, and Mrs. John F. Keetels will be hostesses to members of the Eugene Daughters of the Nile club at two-thirty o'clock. Members are asked to telephone 1709-R.

A charming event for tomorrow afternoon will be the colonial tea which members of the Matron's guild auxiliary of the Central Presbyterian church are sponsoring at the manse of the church. The affair has been planned for between the hours of three o'clock and five o'clock, and a large number of Eugene matrons will be in attendance. Mrs. Sherman W.

one of the greatest theatrical successes of the year.

As Peter Pan, Betty Bronson portrays a most bewitching and charming character impersonation, and is almost the whole play to herself. The story does not lose any of its fascination and charm in the picture.

The prolog given preceding each play is one of the most beautiful yet given, and is a most fitting one for the play, with the tiny tots' ballet and the singing of Mildred Baldwin as the features.

**Bible University
To Offer Recital**

Public recital of students in the school of ontology, Eugene Bible university, is announced for Wednesday evening, February 18, at 8 o'clock. The recital will be in the chapel of the music hall, and all Eugene people interested are invited.

May Robson to be At Heilig Tonight

"Something Tells Me" is the winning title of May Robson's new play which will be presented tonight at the Heilig.

"Something Tells Me" was written by Miss Robson and is attaining phenomenal success for its originality and humorous situations.

Miss Robson, as "Jane Meredith," has created a character who will live as long as "Aunt Mary" although a distinctly opposite type.

"Jane" is inclined to be a bit selfish about having her own way and it gets her into quite a little trouble but of course she sees her folly and with the assistance of her psychic nature things are brought around in a most adroit manner.

Augustus Pitou, Inc., has furnished Miss Robson with a most adequate cast and a beautiful production.

Girls! Hair Grows Thick and Beautiful

35-Cent "Danderine" Does Wonders For Lifeless, Neglected Hair

A gleamy mass of luxuriant hair full of gloss, lustre and life shortly follows a genuine toning up of neglected scalps with dependable "Danderine."

Falling hair, itching scalp, itching and dandruff is corrected immediately. Thin, dry, wispy or faded hair is quickly invigorated, taking on new strength, color and youthful beauty. "Danderine" is delightful on the hair; a refreshing, stimulating tonic—not sticky or greasy! Any drug store.

New Agricultural Head Known Here

William M. Jardine, newly appointed secretary of agriculture by President Hodge, is a brother of James T. Jardine, member of the faculty of the Oregon Agricultural college.

Mr. Jardine was also an advisory member of the agricultural committee of the American Bankers association of which C. D. Rorer, president of the Bank of Commerce, is a member from the twelfth federal reserve district. Mr. Rorer knows the new cabinet member well, having attended several meetings when Mr. Jardine conferred with the 12 members of the bankers committee.

Widening of Willamette, Olive, Oak and Pearl Streets from Fifth to Thirtieth Avenues was proposed at last night's meeting of the city council, and a resolution passed instructing the city attorney to draw up an ordinance to that effect for presentation at the meeting next Tuesday night.

The ordinance would widen Willamette street 40 feet, taking two feet off the sidewalk at each side. This would amount to a little more than the strip added to the sidewalk when the streets were first paved. Need for concrete gutters to eliminate puddles on the streets was expressed by Mayor E. B. Parks, and members of the council appeared to approve the widening plan.

Abolishing of Sunday funerals was asked in a petition signed by all local undertakers and ministers, but no action was taken.

Wooden bridges, of full street width, will be erected over the mill race at Hilyard and Patterson streets, it was agreed, and construction will begin at once.

Favorable sentiments were expressed by the councilmen on the proposition of buying a street sweeper, but because of the absence of Councilmen Williamson, Washburne and Large, no action was taken. The sweeper would pay for itself in a reasonable time in the labor it would save, it was stated.

Grading and graveling of an alley between Oak and Pearl streets, running from Fifteenth to Sixteenth, was authorized, and a petition to extend the city fire limits was shelved. Harry Devereaux, city engineer, was authorized to purchase a new set of surveying instruments. The engineer's plan to open a strip on Eighth avenue west from Jefferson to Monroe, for a sidewalk, was approved.

Bids on both concrete and brick-top pavement will be asked for Third avenue from Monroe street to Blair street the council decided, and the contracts will be let at the next meeting.

Syud Hossain Will Talk to Students

"A world democrat with a marvelous command of English; one of the world's foremost lecturers" are descriptions of Syud Hossain, authority on Indian history and Oriental politics.

Mr. Hossain comes with the aim of giving to the people of the west a clearer picture and understanding of the East. His greatest wish is to bring the two hemispheres to a closer relationship.

The average American does not understand the Orient, he declares. His information is lacking. He does not realize that no other nation has attained the place which China holds, and has held for centuries in the world of art. India is to him merely a land of snake charmers and elephants. Persia is the place where Major Imbries was killed, and Arabia a land of desert sheiks.

Mr. Hossain speaks tonight at Villard hall on "From Buddha to Gandhi."

E. F. Carleton Has Article Published

A recent issue of the Journal of Education, Boston, (January 22) contains for its leading number, an article by E. F. Carleton of the Extension Division of the University of Oregon on individual instruction in the public schools under the title, "Is It Well With the Child." In this paper Mr. Carleton shows the necessity of

Some modification of the class system, makes a survey of what is being done by educators throughout the United States to solve this problem, and gives an outline of the methods of one of the systems where the plan of individual instruction has proved most successful. Among the letters of commendation which he has received since the article was published is one from E. E. Cates of Los Angeles, who was principal of the leading high school there when this method was first introduced in that city; and one from the United States Bureau of Education written by Chief W. S. Deffenbaugh complimenting Mr. Carleton on his interesting study of the subject and informing him that his article would be listed in the bureau's special bibliography on individual instruction.

People Notice It. Drive Them Off with Dr. Edwards' Olive Tablets

A pimply face will not embarrass you much longer if you get a package of Dr. Edwards' Olive Tablets. The skin should begin to clear after you have taken the tablets a few nights.

Cleanse the blood, bowels and liver with Dr. Edwards' Olive Tablets, the successful substitute for calomel; there's no sickness or pain after taking them.

Dr. Edwards' Olive Tablets do that which calomel does, and just as effectively, but their action is gentle and safe instead of severe and irritating.

No one who takes Olive Tablets is ever cursed with a "dark brown taste," a bad breath, a dull, listless, "no good" feeling, constipation, torpid liver, bad disposition or pimply face.

Olive Tablets are a purely vegetable compound mixed with olive oil; you will know them by their olive color.

Dr. Edwards spent years among patients afflicted with liver and bowel complaints and Olive Tablets are the immensely effective result. Take one or two nightly for a week. See how much better you feel and look. 15c and 30c.

No Gloomy Days

If you'll simply do this in the morning

All those dull days can be ended, those days of unfitness. You can live two days in one. Millions have proved that in this simple, pleasant way. On rising, drink a glass of water, hot or cold. That washes out the stomach, fits it for food.

Add to that water a little Jad Salts. That makes an acid, effervescent drink. Jad Salts are made from the acids of grape and lemon juices, plus lithia, etc.

Watch the results. In one hour comes complete elimination. All the poisons, all the wastes depart. You become a new person, like a child of ten.

All through a delicious drink. All by adding sparkle to your morning draught.

Try this tomorrow. It will be a revelation. It will show you how to save the lost days, and ward off serious troubles. You will use it always when you know. All druggists supply Jad Salts.

ARMORY WILL BE CLEARED BY AUTO MEN FOR QUINTET

Through the kindness of Ken Able of the Lane Auto company, E. C. and L. R. Simmons of the Ford company, and John Starke, manager of the automobile show the University of Oregon basketball team will have the use of the armory floor for practice for its game Friday against the Oregon Aggies. These two companies have their displays in the gym for this week's auto show but they have promised to clear the floor just before practice today.

It will be more difficult to move the cars tomorrow because of additional displays, so they will have only one-half of the floor clear. The players can practice shooting fouls, after holding regular practice in the gymnasium. The Webfooters are weak in shooting fouls and need all the practice they can get.

The entire floor will be cleared Thursday night for the important clash with the Aggies the following night. To remain in the running Oregon needs the Aggies' scalp. Otherwise, the Webfooters will have to win their three road games, and then they will only be tied with the Aggies for the lead.

A victory for the locals will put them in line for the title. It is not expected that Washington state will be very dangerous on their home court, but Idaho and Washington, playing on their own floor, will have a decided advantage over the visiting Oregonians, who will have to play four times in six days.

Coch Reinhardt's chief object is to develop dependable substitutes. Oregon has a fine team, but as soon as one of the players, and especially a forward, is ranked, the whole team work seems to waver. If Reinhardt can develop at least one more dependable forward, the Oregonians will have a fine chance to gain the conference championship.

EUGENE STUDENTS AID O. A. C. DRIVE

OREGON AGRICULTURAL COLLEGE, CORVALLIS, Feb. 17.—(Special)—Students from Eugene have had a part in raising more than \$300,000 of the \$500,000 required to erect a Memorial union building on the campus. Eugene students who worked in the campus campaign organization are Gladys Buckman, Margaret Calef, Russel S. Bond, Clara Miller, and Mary Rose.

Inspired by the example of the men who gave their lives in the Spanish-American and World war, students and faculty pledged \$203,000 to the project in less than a week. Of this sum faculty members contributed \$31,000. Alumni in Portland and business men of Corvallis have contributed nearly \$40,000 in campaigns not yet completed. With less than \$200,000 to be raised and the entire alumni field practically untouched, the financial goal of \$500,000 will be reached by April 1, say those in charge.

The building is planned for completion in the fall of 1925. The plans offered by Lee Thomas, '07, architect, provide for a building 200 feet square and towering to a height of 180 feet. It is designed in keeping with the campus building plan, yet has the added attraction of classic architecture.

In the building will be offices for the various student organizations now scattered over the entire campus, and separate gathering places for
