VARIABLE STAR IS DECLARED SECOND OF KNOWN BODIES

PASADENA, Cal., March 10.—Discovery that the variable star Myra, a faint speck in the sky 165 light years away, in the constellation of Cetus, probably is the second largest known body in the universe, replacing the star Betelguez, which four years ago was hailed as the holder of that position, was announced yesterday at the Mount Wilson observatory.

According to the scientists, a study of Myra which was named from the latin word meaning wonderful, because of its great variation in light intensity, has revealed that star to be 250,000,000 miles in diameter and thus 25 per cent larger than Betelguez, the big star of the constellation Orion.

The largest of known heavenly bodies is Antares, 400,000,000 miles in diameter.

ALWAYS ECCENTRIC

CHICAGO, March 10.—The behavior of Myra, hailed by astronomers as the second largest known body in the universe, has always been eccentric, with a maximum brilliance, 10,000 times greater than its minimum, said Professor Phillip Fox, director of the Dearborn observatory of Northwestern University, commenting on observations of the star made at the Mount Wilson, California, observatory.

"Sometimes it is nearly as bright as the pole star," said Professor Fox. "Again it fades below the sight of the naked eye.

"What is happening? Well, it is a young giant star, and perhaps it gets blanketed and then struggles until it breaks forth again in its real brilliance."

Professor Forest Ray Moulton of the University of Chicago, contributed figures and historical data on Myra, which Fabricus discovered in 1596.

Myra has a diameter of 250,000,000 miles with a volume 31,200,000,000 times that of the earth, and 26,000,000 times the volume of the sun, said Professor Moulton.

Hotel Company may Be Sued by Group Of Movie Artists

DES MOINES, Ia., March 10.—Authorization to file damage suits totaling $250,000 against the Eppley Hotels company, operators of the Hotel Fontenelle at Omoha, was given last night to Attorney Walter F. Maley by Cullen Landis, Jack Daugherty, Anna May Wong and Harry L. Tighe, motion picture artists, recently arrested on charges of defrauding the hotel here of non-payment of a bill.

Bryant Washburn, moving picture actor, yesterday filed suit for $150,000 against the Cosmic Production company and H. A. Devaux, under whose sponsorship ten movie actors left Hollywood on a personal appearance tour, alleging, among other things that Devaux had given them the impression when they left Omaha that the bill had been paid.

Washburn seeks damage by reason of mention of his name in newspaper stories in connecion with the arrest of his collegues. The Hollywood players left last night for Marshalltown, Iowa.

Austria Comes in For Chiding Before League of Nations

GENEVA, March 10.—(AP)—Austria came in for another chiding today by the council of the League of Nations. Her failure to carry out various features of the league's final reconstruction plan was reproved.

The financial committee reported that the Austrian budget for 1925 and various bills necessary to effect several fiscal reforms had not been adopted by the parliaments. Furthermore, the general administrative improvements recommended had not been brought about while the central bank of issue had not centralized its receipts and expenditures.

Austen Chamberlain, British foreign secretary, presiding, diplomatically warned Austria of the urgent necessity of fulfilling all the league's requirements. A general debate followed.

The council passed a resolution approving the opinion and recommendations of the financial committee and attaching the highest importance to the prompt execution by Austria of these recommendations.

COOLIDGES ASK RABBI'S ARREST

NEW YORK, March 10.—Rabbi E. B. M. Browne, head of the American Jewish Seventy Elders and pastor of Temple Zion in the Bronx, was arrested today on a warrant in which the complainants, Calvin Coolidge, Mrs. Coolidge, and Frank Stearns, charged him with annoying the president. The rabbi is 72 years old.

It is charged that the rabbi inflicted upon the complainants an avalanche of letters demanding that he be reimbursed for half of $25,000 he asserts the American Jewish Seventy Elders spent in campaigning for President Coolidge last fall.

Rabbi Browne was arrested by secret service agents and arraigned in Yorkville court.

When the Rabbi produced apparently authentic letters from former Presidents McKinley, Harrison, Roosevelt and Harding he was paroled in his own custody without bail for examination next Mnoday.

The secret service agent testified that the Coolidges and Mr. Stearns had received a great number of letters from Rabbi Browne demanding that they pay him $12,500 and that they had replied to many of these letters.

War on Bobcats In Lane Continues

War on Lane county bobcats continued and four more were added to the casuality list today, making 17 for the past two days up to late this afternoon. This is a total of 39 bobcats on which the county bounty has been paid since the first of the month. If the present rate continues, it looks like a record month in payment of county bounties on predatory animals, according to R. S. Bryson, county clerk. The increased state bounty paid in addition to the county allotment has induced the hunters to take more interest in trailing the cats.

WASHINGTON HAS WARM ELECTIONS

SPOKANE, Wash., March 10.—With an unusually heavy registration, Spokane voters today are deciding one of the most warmly contested city elections held here for years.

The issue was drawn mainly around election of three city commissioners from a field of 16 candidates with Maurice Smith, commissioner of public safety and candidate for re-election, the outstanding personality. With the avowed purpose of defeating Smith, an organization comprising some of the city's most prominent mercantile interests, was formed and endorsed the candidacy of Leonard Funk, commissioner of public works, Robert W. Butler, fromer county auditor, and Charles W. H[illegible], a deputy sheriff.

Aligned on the opposing side is an association of laymen of protestant churches, which is backing Smith. John Argall, commissioner of finance and George L. Reid, former county commissioner and sheriff. Smith's policies of prohibition law enforcement have been emphasized by the churchmen who declare the fight is on a "wet and dry" basis. Smith's opponents deny the liquor issue is involved.

SEATTLE VOTES

SEATTLE, Wash., March 10.—Seattle was voting today on whether to supplant its mayor with a city manager. A campaign on a charter amendment to effect this change ended yesterday in a climax of heated argument.

Centering around retention of a city council, which would choose the city manager, whereas citizens at the polls select the mayor, the question divided most elements of the city's life on entirely new lines.

WORK OF WELFARE IN NEAR EAST TOLD

"Every returning tourist from the near east urges us to redouble our efforts in behalf of the orphan children there," stated J. J. Handsaker, regional director Near East relief, today.

"Among those who have expressed their admiration for what they have seen there are Mrs. Louisa Kellems of Eugene Bible university, D. J. R. Wetherbee, former physical director at the University of Oregon, Miss Cornelia Marvin, state librarian and Mrs. C. S. Jackson, of Portland.

"'Your Near East orphans are such promising children,' said Miss Marvin to me recently. 'You might pour millions of dollars into a country like Egypt and nothing would come out, there is no future for such a people. It's different with the alert representatives of the Near Eastern races of whom 35,000 are receiving care in American orphanages. Those children will be the future rulers of the Near East and this is America's big opportunity to make friends for the future, to work for the future peace of the world.'"

Asked as to how long the Near East relief must continue its work Mr. Handsaker stated that a group of representative Americans not connected with the Near East relief, had made a careful survey of the whole situation and had felt that within five years the majority of the children would be able to care for themselves, thanks to the training in self support they were receiving in the orphanages.

Mr. Fechet Favored By Military Group

The action was taken after Secretary Weeks had explained to the committee the controversy that recently developed about General Mitchell. Chairman Wadsworth said he knew of no opposition to the nomination.

Farmers of the Deadwood area have outlined an ambitious program of development for the coming year, according to O. S. Fletcher, Lane county agricultural agent, who attended a meeting held by the Deadwood Grange yesterday. A demonstration of the feasibility of raising alfalfa, a rodent control campaign, tubercular tests for cattle, are included in the plans of the Deadwood farmers, Mr. Fletcher said. CHULA VISTA HOME BURNED TO GROUND

Because fire engines could not travel over the muddy roads in Chula Vista district, fire destroyed the five-room home of Mr. and Mrs. B. W. Hird this morning. Damage was estimated at $4000. The house burned to the ground.

The department answered the call and made a trip to the scene. Deep mire in the roads kept the engines from reaching the house. After one engine did reach the blaze by means of boards laid on the roads, it was too late to be of any use.

Origin of the fire, which was in an upstairs closet, is unknown. Lack of water to get the flames under control when the fire started added to the handicaps in attempting to fight it.

Public Market to Need Larger Area

Members of the board of directors of the Lane County Producers market were scheduled to meet with the county court this afternoon to talk over the possibility of obtaining more room for the expansion of the market quarters. The directors are W. R. Wing, Harvey Plank, H. C. Wheeler and Frank Harlow. W. A. Ayres is market master. Members of the county court stated that under present conditions there was little that the court could do to aid the market. The removal of the jail from its present site would provide plenty of ground for the market and other uses but this plan is still only in the tentative stage.
