

DON'T RAKE TRASH INTO STREET, IS MAYOR'S WARNING

Dumping of refuse raked from lawns and gardens into street gutters is discouraged by Mayor E. B. Parks, who declares it not only works a hardship on the street department by stopping up drains, but also increases expense of the city's street cleaning.

"This practice is usually done carelessly, and not with malicious intent," says Mayor Parks, "but we wish property owners would co-operate by either burning their rubbish or having it hauled away."

Owners of woodyards are also violating city ordinances when they drive teams or trucks across sidewalks without putting in the regular crossing driveway, the mayor reports. Several local wood dealers may be arrested for the offense if it is persisted in.

Warning to operators of garbage wagons who permit garbage to drop into the streets or scraps of paper to blow from the wagons is also expressed. Complaint has been made by residents of south Alder street that garbage men are careless in this respect. If warning does not produce the proper results, it will be necessary to compel carriers to obtain a city license, Mr. Parks declares.

LEADER OF OREGON ELKS COMING HERE

Ben S. Fisher of Marshfield, head of the Oregon state Elks, will be in Eugene on an official visit at a meeting of the local lodge next Wednesday evening, according to word received by George H. McMoran, exalted ruler, today. This will be the first official visit of Mr. Fisher to the Eugene lodge since his election at the annual state session held at Tillamook last year. The state convention this year will be held in conjunction with the national meeting to be held at Portland. Although no definite plans have been made there is considerable talk that Eugene will be a competitor for the place of meeting in 1938.

Alsea Mill Deeds Are Filled in Lane

Copies of the transfer of holdings of the Jamestown-Oregon Lumber company from Fred M. Knapp, Luther M. Hall and Frederick P. Hall to the firm were filed today at the office of the county clerk here. The concern which operates at Glenbrook in Benton county some time ago was re-organized and a bondholders' protective association formed. The bonds of the company were recently turned over and stock received in return. The officers were of the company, formerly known as the Alsea River Lumber company, were in Eugene where most of the promotion of the concern was done.

A receiver's deed in the case of the Title Guarantees Trust company receivership has been filed at the office of the county clerk here. The company had 1440 acres of land, known as the Temple timber holdings in Lane county. These holdings have been transferred to J. T. Ross by the receiver.

Wheat Market at Chicago Takes on Severe Set-Back

CHICAGO, March 20.—(AP)—With a sensational break in prices at Liverpool reported and with advices that a big grain firm in Antwerp was in financial difficulty, the wheat market here had a wild start today at an immediate setback of more than five cents a bushel.

May wheat opened at \$1.58 1-2 to \$1.60, as against \$1.63 1-2 to \$1.64, yesterday's closing figures. Fluctuations after the opening in the wheat market were rapid, but rallies soon became the rule and extreme down turns of 4-2c during the initial transactions proved to be the limit for at least the time being. So eager was the selling at the start that many brokers beat the opening bell by half a minute.

Severe upsets in the price of other grain were also witnessed. Rye values were smashed down seven cents a bushel and corn nearly 5c in some cases.

ORGANIZATION OF SPECIALISTS PORTLAND AND BATTLE OCEAN

THE unparalleled success of the Dr. Chas. J. Dean non-surgical method of treating Piles and other rectal and colon ailments has built an organization of highly trained specialists to care for the patients who come from all parts of the West.

Vancouver Plans For Exposition

VANCOUVER, Wash., March 20.—Plans for a centennial exposition here July 4 to August 4, to commemorate the founding of Port Vancouver in 1825 were formally launched here yesterday, in a celebration which included breaking ground for a reproduction of the old fort, a parade, and a banquet last night attended by more than 400 men from all parts of the Pacific Northwest.

Fund Campaign of Corps Will Start

Preliminary plans for the annual financial campaign of the Eugene corps of the Salvation Army will soon be under way, according to Adjutant J. Roe, commandant of the post here. The campaign in Lane county will be held about the middle of April and it is expected that state officers of the army will be here to outline plans for the event, it is announced. In several counties of the state the annual campaigns of the army are started this month.

Portland Druggist's Will Aids Schools

PORTLAND, Ore., March 20.—John L. Vestal, a Portland druggist, who died Wednesday of this week, aged 73, left \$75,000 to the school board to be used for the benefit of Portland school children in any way the board might decide. Distant relatives were remembered in the will. Vestal's wife died some years ago and he had no immediate survivors.

The BREAKFAST OF THE "regular fellers"

Real red-blooded boys like to *chew* their breakfast cereal. No soft, mushy dishes for them!

That's why they "holler" for SHREDDED WHEAT. And the chewing of these crisp, oven-baked shreds of whole wheat insures thorough mastication—most important for youngsters.

Children brought up on SHREDDED WHEAT are thoroughly nourished because SHREDDED WHEAT contains all the body and muscle-building properties of the whole wheat grain. It's the balanced food.

Write for recipe book, "50 Ways of Serving SHREDDED WHEAT."

NAVAL GIANT TO LAUNCH APRIL 7

WASHINGTON, March 20.—A new naval giant will take her first dip at Camden, N. J., April 7, when the first line airplane carrier Saratoga slides off the ways of the New York Ship Building corporation. When completed and commissioned with the fleet, some time late in 1937, she will be the biggest and fastest craft of the kind in the world, and will carry a fleet of 72, combat, observation and bombing planes.

Launching of the Saratoga will mark an epoch in American naval construction significant of the changes in the concept of the air already made in preparations for sea battles of the future.

Mrs. Curtis D. Wilbur, wife of the naval secretary, will act as sponsor for the big ship at the christening ceremonies, with high officials of the navy and other government departments witnessing the event.

Laid down as one of six battle cruisers authorized under the 1916 building program the Saratoga was converted under the arms limitation treaty, with her sister ship, the Lexington, also to be launched in the near future, into an aircraft carrier before her construction was very far advanced.

As redesigned, the Saratoga will be 888 feet long over all, with a minimum beam 150 feet and a flying deck reaching from stem to stern, a clear sweep, with the exception of the smokestack and navigation bridge huddled to extreme starboard side amidship, in order to leave full room for the landing of planes. She will carry eight 8-inch rifles, limit of size for ships of her type, under the treaty, will have a displacement of about 30,000 tons and a speed of between 33 and 34 knots. She will be driven by electric motors, the power being generated by steam turbines of 180,000 horsepower.

There is no counterpart for this first American first line carrier in any other navy, although Japan has under construction similar ships of almost as great size but considerably slower speed.

In Foggy London LONDON, March 20.—It has been

come so dangerous for pedestrians to cross streets during the famous London fogs that a London man has patented a small red electric light which a man can wear on his shoulder and thus warn the fast driving autoist.

Work 10 Hours Daily BERLIN, March 20.—German workmen now work 10 hours a day, except in a mine or other underground work. Shortly after the end of the war the German republic passed a law for an eight-hour day.

GASOLINE PRICE IS BACK TO 23 CENTS

Service stations in Eugene went back to their old price of 23 cents a gallon for gasoline this morning—all except the Standard Oil company, which was the only company not to announce the decrease of one cent per gallon last Tuesday.

General, Shell, Union and Associated announced the cut of one cent Tuesday, and the four companies enjoyed most of the gasoline trade for the last three days. Announcement of the increase in price was received by telegraph by the local distributing warehouses this morning before the stations opened.

FRUIT GROWERS TO CLOSE POOLS SOON

With the closing of the pearsip pool of the Eugene Fruit Growers' association there are now only three pools of the last season's crop that are still open. These pools are Royal Ann cherries, prunes and beans, according to officials of the association. Within the next several weeks all these pools for 1934 are expected to be closed in readiness for the new crops of 1935, it is reported.

The next big rush at the local cannery of the fruit growers association will be cherries and berries although it is expected that rhubarb will be coming in to the plant by the latter part of April in large quantities. The berry yield in Lane county this year is not expected to be as large as in other years as the low temperature of last December is said to have caused a considerable shrinkage in the total crop expected. A heavy yield of cherries is expected judging by reports from various parts of the county.

Good progress is being made on the erection of the new addition to the plant here and the frames are now ready for the pouring of the concrete, it is the report.

Airplane Motors To Be Ford Aim

DETROIT, March 20.—The Detroit Free Press today quotes Edsel Ford, president of the Ford Motor company, as saying that his company will go into the production of airplane motors as soon as experiments in progress at its laboratories are completed.

Mr. Ford is also quoted as saying that construction will be started at once in the Ford airport of the largest dirigible mooring mast in the world, to be constructed at a cost of \$75,000 for the mooring of the Shenandoah and Los Angeles, or any other craft of similar or greater size.

Every person should drink at least three pints of water daily.

Geo. N. McLean, Insurance, 907 Willamette St. Phone 617.

D. A. R. Conference At Astoria Opens

ASTORIA, Ore., March 20.—More than fifty delegates in attendance from over the state, in addition to the Astoria chapter, the Oregon American Revolution opened with a general business session.

Most of the delegates arrived yesterday but the program was largely social, the board of managers held an executive session and formulated a report.
