

NAVY RECORDS ON TEAPOT DOME TO BE BROUGHT OUT

CHEYENNE, Wyo., March 20.—Rear-Admiral Julian Latimer, judge-advocate-general of the navy will arrive here today bearing a response from Secretary of the Navy Wadsworth to a subpoena for records from the navy office, asked by the defense in the Teapot Dome lease annulment suit on trial here.

Secrets of the national defense situation as it was in 1921 are involved in the move, according to Martin W. Littleton of defense counsel. The defense, he said, will ask that documents bearing on the international situation at that time be read into the record of the Teapot case as a justification for the leasing of Teapot Dome to Harry F. Sinclair.

Whether Admiral Latimer will produce the records asked is not known. In the recent trial in Los Angeles, in which the government sought annulment of the Elk Hill naval oil reserve lease to the E. I. Doherty interests, Rear-Admiral J. K. Robinson, chief engineering officer, presented a letter from Secretary Wadsworth to the court, which ruled that the defense records were of such nature that they could not be read into the record there.

Cross examination in the deposition of Dr. H. Foster Bain, director of the United States bureau of mines, was taken up when court convened for the day.

Uwen J. Roberts of government counsel questioned Dr. Bain at length

on his conversations with Albert H. Fall former secretary of the interior, regarding the leasing of the naval oil reserves.

Questioned as to whether he knew the Sinclair Crude Oil purchasing company was interested with the Standard Oil company of Indiana in the Salt Creek field, adjacent to the Teapot Dome, Dr. Bain said he knew of the combination but that this did not make Harry F. Sinclair a partner in the Salt Creek monopoly because the Crude Oil Purchasing company was not buying crude oil from the Salt Creek field.

Hatchet Buried in Quaint Ceremony

THE HAGUE, March 20.—(AP)—Dispatches from Borneo, Dutch East Indies, give interesting details of a peace ceremony between the different Dyak tribes of that island. These clans have been constantly fighting each other for years, and have the reputation of being ferocious and bloodthirsty head-hunters.

Some 4600 Dyaks came to the gathering. There were present also a few Dutch and British officers, who witnessed curious war dances, songs and prayers by medicine men. Finally the head priest killed a pig by a slow method and sprinkled its blood over the multitude, pronouncing a terrible curse upon anyone who should presume to revise the intertribal quarrels.

Dr. Charles Eliot Observes Birthday

CAMBRIDGE, Mass., March 20.—Dr. Charles W. Eliot, president emeritus of Harvard university, observed his 91st birthday quietly today at his home here. Hundreds of telegrams were received from all parts of the country and the world conveying greetings.

RELIEF WORK IN STRICKEN REGION IS RUSHED AHEAD

tion along the line of automobiles attracted to the scene and in a short time had raised several thousand dollars.

Contributions in money and supplies made directly at the response of appeals made over the radio apparently will set a new high total through this means of reaching the world. Radio has been employed in nearly all relief measures.

CITIES LIST DEAD

CHICAGO, March 20.—(AP)—The death list in the five states which on Wednesday were struck by a tornado and storm remained virtually unchanged at noon today, although, later reports had a tendency to slightly reduce former estimates. At this time the dead, estimated and known, numbered 700. The casualties were in the neighborhood of 3,000. The list showed:

Town	Dead	Injured
Marion	210	500
West Frankfort	110	200
DeSoto	110	200
Gorham	90	200
McLeansboro	37	75

McCoy's Attorney Seeks New Trial

LOS ANGELES, March 20.—Kid McCoy, expunged, failed to get his sentence in superior court here today, on recent convictions of assault with intent to commit murder and assault with a deadly weapon, when his attorney moved for a new trial. Judge Charles S. Crail fixed next Friday as the date for presenting the arguments.

Cincinnati Police Face Liquor Charge

Cincinnati, O., March 20.—Cincinnati was stirred today when it became known that 48 members of the city's police force had been indicted by a special federal grand jury of charges of conspiracy to violate the national prohibition law.

POWER TUNNEL IS RUN THROUGH ROCK AT FLORENCE LAKE

LOS ANGELES, March 20.—(AP)—The Florence lake tunnel, 15 feet high and the same length extending more than 13 miles, mostly through solid granite in a suaky line under the high Sierras, is a construction feat that has drawn the attention of the engineering world. It has just been completed.

The tunnel is one of the most important works in the Big creek-San Joaquin river project of the Southern California Edison company. The entire project will bring in 1,407,000 horsepower, and with its transmission lines, sub-stations and accessories, will cost \$375,000,000.

Expensive Project

The tunnel itself cost \$17,000,000. It was started in the fall of 1920, and since then without a stop the work has been maintained in relief shifts. The scope of operations is 250 miles north of Los Angeles and 35 miles south of the Yosemite valley. The purpose of the tunnel is to convey water from the Florence lake watershed, source of the south fork of the San Joaquin river, through the barrier of a 10,000-foot mountain ridge into the watershed of Huntington lake. Huntington lake is the reservoir of supply for the four great units of the electric company which supply a large part of central and southern California with light and power.

World Records Fall

World records for tunnel construction have fallen during the four years' progress in the Sierras. The 13-mile bore was divided into three sections, with two lateral adits cut into granite slopes and a crew working each way from each adit. The bore was completed a year and a half sooner than the optimistic estimates contemplated when the tunnel was started.

The completion of the tunnel will be followed by the creation of Florence lake, to store 31,000 acre feet of water at an elevation of 7300 feet. The total drop from Huntington lake through a chain of tunnels and power houses to the lowest power house is about 6000 feet.

The whole project when completed will have 80 miles of tunnel, with about 18 power houses. The original development in the Big creek project, started in 1912, consisted of two power houses developing 88,000 horsepower.

A 220,000-volt transmission line conveys the power generated by these plants 270 miles to Los Angeles.

CITIZEN POLICE PATROL STREETS

A detail of 10 citizen police will patrol the main streets of Eugene tonight during the spring style show from 7 o'clock to 10 o'clock, announces W. G. Jenkins, chief of police. No automobile or vehicular traffic, with the possible exception of streetcars, will be permitted during this time on Willamette street from Sixth avenue to Tenth avenue, and on all side streets to Olive street and Oak street during the same time.

The purpose of the special patrol is to avoid traffic accidents during the style show, and to permit a larger crowd in the business section during the hours mentioned.

The traffic officers will be detailed from the national guard companies. Virgil Wood will be in charge of the Company C detail, to be composed of J. Wrenn, Owen Murray, A. W. Cobb and Alvin Scott. Orville Thompson will head a similar group from the medical detachment and

LANE DIVORCE LIST READY FOR CENSUS

Interesting data on the number of divorce decrees granted in Lane county during the year 1924 is contained on the annual report for that period prepared today at the office of the county clerk for the federal census department. Of the 110 decrees granted 86 were obtained by wives who filed suit and 24 by husbands. The report also reveals that the number percentage of divorce increases in inverse ratio to the number of children. Of the 110 couples divorced 82 had no minor children, 28 had one child, 14 two children, five had three children, three couples had four children, two had five children and one divorced couple had six minor children.

The annual report for the federal census department contains information as to the cause of the divorce action and other statistics. Cruel and inhuman treatment is listed as the major cause of the divorces granted. Desertion is the second cause listed.

Tail Lights for Cows Bill Fails

LINCOLN, Neb., March 20.—The Brown "tail lights for cows" bill which would have required the displaying of red lights both in front and behind all other livestock, or allowed to roam around on public highways between the hours of 7 p. m. and 5 a. m., was killed by the house roads and bridges committee last night.

Gasoline Price is Up a Cent Again

PORTLAND, Ore., March 20.—The price of gasoline was back at 21c a gallon here today, including three cents state tax.

The general petroleum corporation, made a 1c cut Tuesday, and this was followed by the Shell, Union and Associated companies. All these companies today increased the price one cent bringing it back where it was before Tuesday.

Women's clubs have become so numerous in Turkey. A few years ago they were unknown.

Flour Millers of Montana Protest

SPOKANE, Wash., March 20.—Testimony that the millers of the Pacific Northwest would not be able to hold the California flour business for Montana wheat if the railroads are permitted to levy a milling-transit charge of 2 1/2c was offered before Johnston B. Campbell, of the interstate commerce commission in a hearing today.

The railroads rested their case this afternoon, after having offered testimony yesterday and the millers began their presentation.

Grandstand Burns At Vancouver, B. C.

VANCOUVER, B. C., March 20.—The grandstand of Hastings Park, a horse race track, was destroyed here today by fire.

The loss was estimated at between \$90,000 and \$100,000. The structure was insured for \$50,000. Plans will be made immediately to rebuild the grandstand, racing officials announced.

Police said an auto was seen driving from the grounds at a high rate of speed at the time the blaze was discovered.

Butcher Rejoices Over Wife's Recovery

"My wife suffered for five years and practically lived on toast and hot water," Deacons said she would have to be operated on for gall stones. A lady advised her to try May's Wonderful Remedy and after taking 4 bottles over two years ago, she has been entirely well ever since." It removes the catarrhal mucus from the intestinal tract, and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded at all druggists.

Cold weather "travel comfort"

In winter your thoughts turn to warmth and shelter, and the "driest" way to reach your destination.

Next time you have to make an out-of-town trip—travel by stage. Our modern safety coaches are temperately heated, enclosed to guard against wind and rain; the seats are comfortable and "springy"—you may thoroughly enjoy a trip even in the midst of winter.
