Each club is asked to compete.

"Prunes are a palatable and wholesome table fruit. They are a valuable factor in the daily diet. Healthful as well as delicious they have the advantage of being available all the year. The Oregon prune is unsurpassed in size and flavor. Both the Italian or tart prune and the Petite or sweet prune grow to perfection in many sections of Oregon. New methods of drying the prune and increased care in sanitation, have so improved the processing of the fruit that a box of well packed Oregon prunes is as inviting as a package of confectionery. Turn Hair Dark With Sage Tea

The old-time mixture of Sage Tea and Sulphur for darkening gray, streaked and faded hair is grand-mother's recipe, and folks are again using it to keep their hair a good, even color, which is quite desirable as we are living in an age when a youthful appearance is of the greatest advantage. Nowadays, though, we don't have the troublesome task of gathering the sage and the mussy mixing at home. All drug stores sell the ready-to-use product, improved by the addition of other ingredients, called "West's Sage and Sulphur Compound." It is very popular because nobody can discover it has been applied. Simply moisten your comb or a soft brush with it and draw this through your hair, taking one small strand at a time; by moving the gray hair down with West's Sage and Sulphur Compound, it that, besides beautifully darkening the hair after a few applications, it also produces that soft texture and appearance of abundance which is so attractive.
