NEW YORK, April 2.—Mrs. William K. Vanderbilt, attended by a half dozen policemen, conducted a thorough search of her five-story residence at Fifth avenue and Fifty Third street early Friday after she had reported seeing the reflection of an intruder in the mirror of the dining room. After a half hour's search police were unable to find anyone or to discover any apparent tampering with doors or windows.

According to one of the officers who has been summoned by a police whistle blown by a servant, Mrs. Vanderbilt carried a revolver during the search. Police said this was the third time within the last few weeks that they had been summoned to the Vanderbilt home to seek suspected intruders.

Letters threatening harm to her if she did not pay \$50,000 were received last winter by Mrs. Vanderbilt, Bern Sirro, 20, was arrested and pleaded guilty to blackmail and extortion. He was released under suspended sentence and a two-year parole last month on condition that he return to his father's ranch near Fresno, Cal. He also was alleged to have written a letter to Philip Rhineland demanding \$20,000.

A watchman keeps guard outside her residence, but Mrs. Vanderbilt feared an intruder had slipped past the guard early today.

She and one of her daughters were in a reading room on the second floor shortly after midnight when she thought she heard noises below. She said she investigated and saw the reflection of a man in the mirror. She was positive he fled when she entered the room with a revolver.

### Motion Pictures Said to Be Help to American Industry

LONDON, April 2.—(AP)—"Trade follows the film," says the London Daily News in an article relating to the benefits obtained by American industry through the medium of the moving picture. American clothing and shoes and various other articles have become so well known through the film in various parts of the world that there is a regular demand for them and British dealers have started fashioning their goods accordingly, says the newspaper.

In this respect the Daily News quotes Percy Nash, one of the best known British producers, as saying: "So great is the influence of the American film that many British manufacturers of ready-made clothing and shoes have had to alter their designs and to manufacture an American model with which their overseas customers have been familiarized by the American moving picture."

### Jack Rabbits Yield Profit After Demise

CORDOVA, Alaska, April 2.—(AP)—Washington and other states of the Union might profit from the jack rabbit pest if they killed the animals, powdered the meat and sold it to Alaska fox farmers for summer feed, in the opinion of J. Williamson, owner of the largest fox farm about the Russian River on the Kenai peninsula.

More than 5,000 rabbits were slaughtered by Williamson last winter. The meat was ground, placed on racks over a stove where it was dried, and then pulverized and stored in sacks.

The rabbit powder was mixed with water and vegetables, boiled and served to foxes during the summer, making an agreeable change of diet from fish and porcupine.

Another form of preserving the meat is to pack it when fresh into five-gallon oil cans. About 35 rabbits are put into one can. Water is poured over the meat and the can set outdoors until its contents freeze. The can is then thawed loose and removed from the block containing the meat. The block is stored in ice houses that prevent it thawing until feeding time in summer.

### ATTORNEYS SHIFT IN JAZZ HEARING

(Continued from page one)

mony, sometimes an indignant "no." She left the courtroom smiling with the matron.

**Father Speaks**

Her father said he believed her insane. He gave this opinion after outlining a history of her delinquencies and her conduct since her arrest.

In cross-examining him, Mr. Skillin brought out that the girl had told her father she "didn't like" Alexander Mossolin, her chief counsel.

The defense went into its theory that parental influence disposed Dorothy toward insanity. Under questioning Joseph Ellingson said:

"About three months before Dorothy was born her mother came into the bedroom in which I was sleeping alone, and tried to choke me. I overpowered her with difficulty, after which she fell to the floor in a faint."

**Delinquencies Recited**

The father then began a recital of his daughter's delinquencies as a child. The first serious breach in her conduct, he said, came at the age of 12 when she and another girl "were picked up by a sailor and a soldier" and stayed away all night.

He said she played truant from school frequently and finally was detained in a juvenile home for a time. "Did you ever talk to your daughter regarding her late hours?" "I did," said the witness. He explained that he warned her that she should consider her future, that a girl of her years should not go with older persons of doubtful character.

**Girl Nervous**

As her father exposed her life, the girl continued to twist her handkerchief.

He was asked "Did you and your wife ever attend church?" "Not since our marriage."

"Did Dorothy ever attend Sunday school?" "Once in a while, when she was little."

Ellingson said that when she was a babe he had used alcohol "pretty heavily."

He detailed the girl's childish rages. She was not obedient, he added. "Did her mother ever have any control over her?" "Never."

"Did her mother ever whip her?" "No, but sometimes her mother would get angry and yell at her."

### Element Separation Machines are to be Finished at Chicago

CHICAGO, April 2.—Two machines, pronounced among the most efficient thus far built for the separation of an element into different substances are to be completed in the Kent chemical laboratory of the University of Chicago. One is used for chlorine separation. From the other, mercury is caused to run out a different substance from that which was in the lighter substance in the mercury being separate from the heavier by causing the atoms of mercury to jump about in the machine at seven times the speed of the fastest express train.

The mercury separator, chemists say, will be of value in connection with experiments being undertaken on the transformation of mercury into gold.

### GENERAL MITCHELL WILL BE ASSIGNED

WASHINGTON, April 2.—Brigadier-General William Mitchell, assistant chief of the army air service, will be assigned on April 26 as air service officer of the eighth corps area with headquarters at Fort Sam Houston, San Antonio, Texas.

Secretary Weeks approved today the orders for General Mitchell's transfer, effective upon the expiration of his present tour of duty. The secretary said the assignment had been made for two reasons: the eighth corps area has greater air service activities than any other area and General Mitchell has seniority in service. Upon assuming his new duty General Mitchell's rank will revert to that of colonel.

General Mitchell will be assigned to the staff of Major General Hinde, commanding the eighth corps which includes Oklahoma, Texas, New Mexico, Arizona and Colorado and has jurisdiction over Mexican border patrols.

While General Mitchell is known to have preferred assignment as an air service officer attached to the staff of Major-General Hale, commanding the sixth corps area with headquarters at Chicago, he failed to make application for that post and was given what the war department regarded as the most important field post.

### Albers flapjack flour

Here is the pancake flour the West takes to its heart—and its stomach. And you don't have to be a "sharp" at cross-word puzzles to figure out the reason: flavor!

No other pancake flour can hope to rise to the flavor-heights of Flapjack; because no other pancake flour is blended in quite the same way. For instance:

No cornmeal or other heavy ingredient goes into Albers Flapjack Flour. The leavening is highest-quality. Even the salt used is as fine-texture as the flour itself. Everything that goes into Flapjack Flour goes in for just one reason:

To make sure you'll get light-and-airy, tender-and-tasty hot cakes every time. Simply add a little water or milk and bake on a hot griddle.

### JACKSON COUNTY LOSES LIEN CASE

MEDFORD, Ore., April 2.—The demurrer of Jackson county, named defendant in the suit of the Right Rev. Mr. William T. Sumner, bishop of the Episcopal diocese of Oregon, against Joseph A. Newell, et al, for the collection of \$5000, alleged to be due on a promissory note, secured by a mortgage on an orchard, was overruled in an opinion handed down by Circuit Judge Charles M. Thomas Friday.

Jackson county filed a horticultural lien against the orchard, for about \$400 incurred in combatting blight in the orchard.

Bishop Sumner contended that the horticultural lien constituted a cloud on the title, and charged that the horticultural lien notices had not been filed within the six months specified time provided by the law.

The county in its demurrer admitted this, but held that it had the right to file at any time, and the six months clause was not mandatory.

The court in its opinion upheld the contention of the plaintiff, that the county has not the right to enter upon a premise and incur expenditures and attempt collection, except "as in the identical and precise manner prescribed by the law."
