

HARRY WILLIAMS SEES BIG SEASON AHEAD ON COAST

By HARRY A. WILLIAMS
President Pacific Coast League
Written exclusively for NEA Service
BASEBALL on the Pacific coast last season experienced the biggest year in its history, on the threshold of another race rich in possibilities.

It will be found that the league contains more color in its playing personnel, particularly in Portland and Seattle, while baseball critics are of the opinion that greater playing strength and a finer balance, if possible, will be seen.

Of course it would be difficult to improve on the league in the latter respect as it will be recalled that five clubs had a chance for the championship last season up to the final week of the season.

An eighth club race, that is with every club in the running from start to finish, never has been known. But after last year when only three clubs were counted out, and those not until the season had only about a month more to run, the league is confident that nothing is impossible in baseball and contemplates the possibility with something akin to awe.

Last year the league played to 2,238,519 paid admissions, which was a gain over the preceding year of 490,981. The attendance was almost equal to the combined population of the eight cities comprising the circuit.

These figures attracted nation-wide attention, and the Pacific Coast League seems now to be quite generally regarded as the most powerful baseball circuit in the country outside the majors. In the event that last season's attendance achievements are surpassed the coast will again claim the country's attention.

This year there will be the added stimulus of the post-season series for the Minor League championship which will be played in the fall. Such a series has been discussed for many years, but did not become a reality until recently when a five-year agreement was signed with the American association.

The International League also has been invited to become a party to this agreement. Such a series of east-west not only has a considerable monetary value to the players but will do much to promote sectional pride and enthusiasm.

Baseball continues to be the country's leading and most popular sport. For years much pessimism has been concerned pertaining to its future. But all this proved to be merely sounding brass.

First, the automobile was to reduce baseball to a secondary attraction; then golf became a sport for the masses. But neither of these has hurt baseball in the least.

In reality baseball not only has held its own in point of public interest, but has tremendously increased that interest. This is proved beyond controversy by the attendance of last season.

Even Umpires Have Their Spring Training Work To Do

Baseball players are not the only performers who have to undergo spring training. This picture shows the Pacific Coast League umpires getting their spring training at the office of Harry A. Williams, league president. We cannot say whether they practice dodging soda bottles and how to umpire, written by Billy Evans, veteran American League umpire, and sports writer for this newspaper. Left to right, they are: Jack Carroll, Ed Finney, Billy Phyle, Ed Teck, "Beans" Reardon, and sitting, Roy Brasher, Charlie Schmidt, President Williams, Perle Casey.

OREGON TO MEET CARDINAL TRACK STARS IN SOUTH

University of Oregon will open its track season Saturday at Palo Alto against Stanford. Nineteen athletes accompanied by Bill Hayward, coach, and Jack Benefield, graduate manager, will leave Eugene Wednesday noon for the sunny south.

Oregon looks awfully good on paper, mainly because Stanford, in winning its meet with Nebraska Saturday, 50 2-3 to 50 1-3, did not have to exert itself, and consequently did not make as good a showing as expected. Also a heavy downpour made the track slow, and hampered both Nebraska and Stanford.

If the Oregonians, however, so early in the season, make as good a showing as Nebraska did, the Eugene fans will be satisfied that Bill Hayward again has a bunch of real contenders. Last year Oregon won the Pacific coast conference meet.

Holt, star sprinter, will be unable to participate for the Webfooters. Holt made only nine school hours last semester, falling one short of the required number. To add insult to injury, Holt won the century event in the tryouts Saturday, noising out Westernman by a few inches. As Stanford is not overstocked with good sprinters, Holt would have been a certainty for at least three points.

The Oregon team will start as follows:

100-yard dash—Irving Westernman and Chester Stonebreaker; 220-yard dash—Stonebreaker and Jerry Extra; 440-yard dash—Jim Kinney and Ben Wilbur; half mile—Guy Mauney and Fred Gerkey; mile—Tom Holder and Phil Swank; two-mile—Rodney Keating and Harry Tietz.

High hurdles—Dick Caruthers and Walt Kelsey; low hurdles—Caruthers and Kelsey.

High jump—Rowland Eby and John Flannigan; broad jump—Flannigan, Chic Roseberg, captain, and Walt Kelsey; pole vault—Roseberg and Kelsey.

Javelin—Roseberg; shot put—Johnson; discus—Johnson.

One-mile relay—Kinney, Gilbert Hermance, Joe Price and Wilbur.

WARFARE DECLARED By Berlin Actors

BERLIN, April 7.—(AP)—A group of about 100 prominent actors and singers of the Berlin stage have signed an agreement not to enter into contract with any theater whose management adheres to a plan recently framed by the managerial association, which divides all actors and singers into four categories and stipulates the maximum salary which in each category shall receive.

Stage folk say they will not be arbitrarily branded as first, second, third and fourth class, according to the whim of managers, and insist that it is an insult to the profession to try to rob actors of all individuality and herd them together as if they were merchandise.

When the managers announced their new plan they explained that many artists were demanding such high salaries it was impossible for them to meet their terms without increasing the price of seats to a point where the public would refuse to pay.

RECEIPTS HAVE BEEN LIBERAL BUT SUPPLIES ARE WELL ABSORBED

PORTLAND, Ore., April 7.—For the first time in several weeks eggs have fallen below the 50 cent level in the local market. This is significant in the fact that indications point to a big production, prices have held fairly steady on account of high grain and feed costs.

Receipts have been liberal in this market during the last few days but supplies were apparently well absorbed.

On the exchange extras are a cent lower today at 27c. First and current receipts are also a cent lower, 28 and 27c respectively. Pullets held steady at 27c.

It is expected that storage activities will increase at this level as the quality of eggs have improved during the past two weeks.

COAST TRACK AND FIELD MEET FIXED

The annual Pacific coast intercollegiate track and field meet originally scheduled for Oregon Agricultural college for May 20 and 30, will be held at the University of Washington stadium on those days instead. It was announced by Paul Davis, graduate manager of Stanford, and president of the Pacific coast intercollegiate managers' association, in a letter to Jack Benefield, graduate manager of the University of Oregon, yesterday. The Aggies failed to get their track in shape as soon as expected and they asked to be permitted to relinquish the right of staging the meet. Oregon held its last year.

Stanford at first was going to bid for the meet, but when the Cards learned that Washington wanted it they cast their vote for the Huskies, who got all of them except one, Oregon not voting.

The coast intercollegiate tennis meet will be held in Seattle in conjunction with the track meet. Preliminaries and finals will be May 30.

The coast intercollegiate managers association will open its two-day session in Seattle May 20. Schedules for baseball, basketball, track, tennis, swimming and wrestling for 1926 will be drawn at that time.
