PORTLAND LOSES TO ANGELS, AND SERIES IS EVEN

Los Angeles evened the series with the Portland Beavers at Los Angeles yesterday in the Coast league race, by beating the Oregonians 4 to 0. George Payne, Angel twirler, held the Beavers to seven scattered hits, and though the Angels garnered but four safe bingles, they took most of them in the fourth inning and tallied three times.

The Salt Lake aggregation made it two straight from Vernon by nosing out a 9 to 8 victory on the home lot yesterday. It was a game won in the last of the ninth. When Dick McCabe's Texas leaguer brought in Fritz Coombe from second base.

FOOTBALL SQUAD TO CUT CAPERS

The University of Oregon football squad will hold its first practice scrimmage tomorrow afternoon, just outside Hayward field. It will be the first real scrimmage since the squad came out for spring practice and it will give Coach Smith an idea just how strong his team is.

The Oregon team, except for two weeks, has been practicing continuously since the middle of last February. Smith has spent no little time developing a good kicker. Oregon has been weak in that department since Bill Steers' days.

The teams will scrimmage a full game, and there will be a referee, umpire and head linesman, just as in a real contest. The players making the best showing in these scrimmage practices will be transferred to the first squad when fall practice opens September 15.

Many mothers have learned this "better breakfast" secret—have you?

MOTHERS, more and more, are coming to sense the health-importance of "better breakfasts." But a better breakfast need not mean a get-up-earlier, harder-to-get breakfast. Not when Carnation Mush is pantry-handy! For, in *five minutes*, these creamy white flakes are transformed into a tempting, tasteful energy-breakfast.

Carnation Mush is all energy because it is all *wheat*. We take white *Sonora* wheat—specially selected. We wash it. We clean it. We remove only the outer husk of the wheat—nothing else. We keep all the bran, all the minerals, all the health-value. Then we steam and roll the golden grains into crisp, wafer-thin flakes—

So that you can have them for your "better breakfast" tomorrow morning—and have them piping-hot and jiffy-quick!
