SOUTHERN PACIFIC OFFICE IS MOVED

Announcement that Southern Pacific railroad headquarters have come back to San Francisco was received joyfully in the Eugene district offices and passenger station of the railroad this morning.

"Mr. Sproule, on whose shoulders falls the burden carried by the retiring chairman, is intimately acquainted with Oregon and Oregon's railroad problems," said L. L. Graham, district freight and passenger agent. "He first entered the service in 1882, in the freight department, and came up from the ranks to president of the company. He has been signally successful in establishing policies that have gained and maintained public confidence.

"Hugh Neill, now secretary, was appointed a vice-president and G. W. Mullis, assistant controller, was made controller. J. P. Blair, general counsel will have charge of the legal business of the company in New York, neighboring states and Kentucky and of the Southern Pacific Steamship Lines.

figures as indicating that sheep raising is not an industry where large profits may be made quickly, as may be supposed by the uninitiated, but rather that the handling of sheep is a business where a reasonable profit may be made after allowing for all items of expense. The profits on small well managed farm flocks, run much higher than the averages cited. The Oregon Agricultural college is cooperating with farmers in different parts of the state to determine the influence of cutting out low-shearing eyes on the average weight of fleece.
