Confidence! THE largest-selling tire made in any Pacific Coast owned factory is the C-T-C.

Today the largest-selling tire, a year ago C-T-C was "on its way up"!

Yet it has taken twenty-five years' tire-building experience to build C-T-C!

Behind C-T-C stands a staff of engineers whose experience in Akron factories runs back more than a quarter century!

When you need new tires, let us show you what the C-T-C can do. Or, better still, call in now and get acquainted with this tire that has "made good" quickly because of remarkable mileage records.

The word came today from St. Vincent's hospital where the home run hitter is a patient. Babe is being treated for a cold, a touch of influenza, another touch of indigestion and a bump on the back of his head.

The latter is the result of his fall in the Pullman washroom—a fall which physicians at first thought had caused a concussion of the brain and possibly a fracture of the skull. They were certain today, however, that the bump was all that ailed Babe's head.
