Pacific Highway To be Kept Open

HARRISBURG, April 11.—(Special.)—A rumor was current the first of the week that the old highway leading to Junction City from the ferry would soon be closed to traffic. Local business men at once took the matter before the Linn County court and personal inspection of the detours was made by Commissioner Hume, who is satisfied that the road can stay open during the entire construction period of paving on the Pacific Highway between here and Junction City. The move to close the road, it is understood, was suggested by the contractor who is to do the paving. Naturally traffic over the highway itself would interfere with the progress of the work, however except for a short distance near the ferry, traffic can be handled without going over any part of the regular highway and with this detour it would be more convenient for tourist traffic to cross by the ferry and to take the west side route if any Linn county towns were in their itinerary.

Progress in every way is satisfactory, according to Foreman Duff. In a short time the derrick on the west side, which is decking the trestle that was completed a few days ago, will be free to be used on the pier at that end of the bridge. The big fiveton driver, which drove the piling for the middle pier is at the bottom of the river.

LONDON, April 11.—(AP)—Moneylenders, who have hitherto charged interest ranging from 5 up to several hundred per cent, are in for a considerable reduction in their gains if a bill introduced into the house of lords by Lord Carson becames law.

This proposes that the rate of interest charged shall not exceed 15 per cent unless the lender proves a higher charge is not excessive, and that the transaction was in all circumstances beneficial to the borrower. On loans not exceeding $100, interest is not to be more than 10 per cent per annum. All loan documents must specify the amount actually advanced and the interest charged.
