

WAR TROPHIES ARE ASKED FOR EUGENE

Arrangements for obtaining Oregon's share of a large number of captured German war trophies which are to be distributed this month to the various states are under way and renewed efforts are to be made to have some of these war trophies brought to Eugene. The University of Oregon made a special effort to have some of the artillery pieces, allotted for mounting on the campus in this city and some time ago Eugene post of the American legion took up the matter of obtaining a trophy for one of the local parks.

Approximately 40 tons of captured materials will be allotted to Oregon, Governor Pierce was advised by the chief of ordnance at Washington. Regulations covering the distribution to the state will be issued by the government this month. Governor Pierce and General George A. White decided at a conference today to obtain all of the trophies for which counties, cities and institutions are entitled to trophies make application.

It was estimated that the expense of transporting the entire allotment would be \$3200, and that this cost would have to be paid by those obtaining the trophies. Governor Pierce indicated that he would seek some way of having two of the camouflaged large cannon added to the exhibition in the state house ground.

MR. SVARVERUD FOR M'KENZIE BONDS

EUGENE, Ore., April 13.—(To the Editor)—In reading the various letters pertaining to city water, and especially those who are opposed to the bonds for the extension to the McKenzie and for all others, necessary for the extension of water mains, street intersections and other necessary issues in a growing city, I thought it might be of some interest to those people who have not lived here long enough to know, of the city water situation twenty years ago. At that time the city did not own either the water or the lighting plants, we had no filtration of the water, which was pumped out of a well down at the millrace, just across from the ex-calor factory. This well became polluted with typhoid germs which were pumped into the city mains and which caused a typhoid epidemic and many of our people died with the disease.

It was this epidemic that brought our people into action which resulted in city ownership of the water plant and then sometime afterwards the city lighting. We constructed the present filtration plant and the McKenzie power plant, and with constant care and good management, we have avoided any typhoid since that time; yet our present intake is getting too dangerous for future supply. We may be able to filter the Springfield sewage for some time and avoid typhoid, but we are certainly taking desperate chances to start another epidemic unless we take steps to avoid the danger. We might just as well call a spade a spade, and face the situation as it is. It is because of the knowledge of this danger that the water board has taken steps to build a pipe line to the McKenzie in which flows the purest water in the state of Oregon.

E. U. Lee in his letter touched on the facts that the extension of the line to the McKenzie would not raise taxes, but might make a very slight increase in water rates; yet I doubt if this even will be necessary if our population keeps growing and I am optimistic enough to say that it will.

Ben F. Keeney gives in his letter a definition of the difference between pessimism and optimism and according to his view the optimist is a dangerous creature to the welfare of humanity and he warns of disaster, if the people follow optimistic advice, but have you ever known where pessimism ever advanced any progress? The answer is, most emphatically, no.

Pessimism never builds or advances anything, and if it were not for the optimistic view, looking upon the bright side of the world, instead of the dark pictures as told by Mr. Keeney, our advancement would indeed be slow.

L. G. Hulm would kill the goose that laid the golden egg. Yes, he is advancing propaganda which is necessary for the sole purpose of turning our light and power plant over to the Mountain States corporation. It will probably be necessary to get several advance agents in order to educate the people to vote for the sale of the most valuable asset the city has got. No, Mr. Hulm, that is not necessary to get McKenzie water; there is absolutely no reason why we should not let the city water board credit for the purpose they ask. It is for the safety of the people and for the advancement and growth of our beautiful city and it ought to be carried by a unanimous vote. I have confidence in the good judgment of our people, they will vote for the bonds which are essential and necessary for the maintenance of our present growth.

This is Easter time, a season of aspiration and life. Never could there be a more fitting time to vote upon measures for the betterment of man. Tell me, how can the most devoted pessimist come forward and say No to better water? How can he, in this season among life and beauty say No to any measure for betterment or progress.

M. SVARVERUD.

The American per capita consumption of fruit last year was 85 apples and 53 oranges.

LADIES!

SOCIETY AND CLUBS

By MARIAN LOWRY

Mrs. Addie Osburn is entertaining at dinner this evening for members of Tourist club at the Osburn hotel as a special affair in honor of Mrs. E. O. Potter who returned last week after a tour of the orient.

Mrs. Frances Buell Olson, national president of the Degree of Honor lodge will be the guest for a dinner and meeting of the Eugene lodge this evening in the Knights of Pythias hall.

Mrs. M. S. Ady is this evening entertaining members of the P. E. O. Sisterhood at her home.

Miss Grace Knopp spent the Easter holidays in Portland as the guest of Miss Adelaide Lake.

Miss Eleanor Spall and Edward P. Bolt were married yesterday in San Francisco. Mrs. Bolt is a graduate of the University of Oregon and a member of Kappa Kappa Gamma. They will make their home in the south.

An interesting event of last evening was the fifth annual sacred concert given by Nu chapter, Nu Phi Epsilon, women's national honorary music fraternity, at the Methodist Episcopal church. Active members, alumnae, including prominent musicians from both university and town circles, gave the program. A program, "The Grand Opera" will be given by Nu Phi Epsilon next Sunday afternoon at four o'clock in the school of music auditorium, as one of the series of services given this year by the organization.

Miss Anna K. Garrett entertained for an informal dance at her home Friday evening for a group of high school young people. Guests for the evening were Nellie Belle Swan, Lester Olson, Remond Nichols, Jimmie Walton, Luella Sarrow, John Hawley, Geraldine Spencer, Carol Eberhardt, Opal Robertson, Roger Kimberling, Hazel Heine, Darwis Jones, Lucille Carroll, Donald Davis, William Powell.

Mrs. Stella Diamond was hostess to members of Iowa Women's society at her home Thursday afternoon for a covered dish luncheon. About thirty members and friends attended the afternoon. For the May meeting Mrs. S. H. Humphrey will be hostess.

The Seventh division of the Ladies' General Aid society of the Methodist Episcopal church will meet in the church Tuesday afternoon with Mrs. York Moor as the hostess.

Mrs. W. W. Calkins will be hostess tomorrow for a one o'clock luncheon at her home for members of Alois club.

Campus folks are greatly interested in the announcement of the marriage of Miss Jane Hanahran and James Scripture which took place Friday evening, and which came as a complete surprise to friends of the couple. Mrs. Scripture's home is in Palo Alto, California. She is a freshman at the university, and a member of Gamma Phi Beta sorority. Mr. Scripture is a junior at the university, and a member of Delta Tau Delta. He is

city editor of the Portland Telegram. Margaret L. Morrison wrote a story about Dean John Straub of the University, who is termed as a personal friend of the newboys.

Rev. Frederick G. Jennings of Eugene, who started a fund to raise money to keep a permanent cot at the Good Samaritan hospital of Portland, for newboys who are ill, also comes into some praise, as do Dean Hale and Sam Bass Warner, of the university law school, who are featured in an editorial entitled "Service."

Three of the recipients of Huxler scholarships are attending Oregon now.

E. F. Carleton may Be School Leader

E. F. Carleton, of the extension division of the University of Oregon and formerly superintendent of schools in Eugene, is prominently mentioned as a possibility to succeed J. A. Churchill, state superintendent of public instruction, when the latter retires from this office, January 1, next, to assume the presidency of the Ashland normal school, according to word received from Salem. Mr. Carleton is well known throughout

Oregon through his educational work. He resigned as superintendent of the Eugene school district more than two years ago to accept the position with the University of Oregon.

Local Restaurant Gets new Owners

Sale of the Toastwich Shoppe on Ninth avenue west near Willamette street was completed today and the new owner, W. J. Clark, recently train news agent on the Southern Pacific road between Eugene and Oakridge, took charge. W. B. "Buster" Love and Vincent Friel who recently opened the eating house here have conducted it for the past three months. Mr. Friel will devote his time to the blasting powder sales business and Mr. Love plans to enter another line of business in the near future.

Newsboys Magazine Features Eugeneans

The first copy of The Hustler, a 48-page magazine published annually by the Portland newsboys, came off the press today. It is edited by Sam Wilderman of Portland, who is attending the University of Oregon law school. He started editing The Hustler some 10 years ago, when he himself was a newsboy. The proceeds of the magazine go to a college scholarship fund, 17 newsboys receiving tuition from the profits of that magazine since 1923.

Among the many features of The Hustler is a story of Paul H. Kelly, editor of The Guard. The story was written by Willie C. Dunaway, for-

Announcing the Arrival of New Fabrics for Spring in Novelty Patterns

We have just received a large shipment of new and stylish fabrics for Spring and Summer in novelty patterns which are far superior to anything shown in Eugene heretofore.

When designed by an artist who fits your clothes to your personality and tailored by experts who are accustomed to the highest grade work, you will have distinctive clothes of which you will be proud.

Fit and Style of Every Garment Is Guaranteed

Satisfied customers mean more to us just at present than the hopes of profit. Therefore this concern stands back of every suit or coat turned out. It was with this idea in mind that caused us to purchase a quantity of novelty patterns in high grade fabrics for an exclusive trade. Only one suit or coat to a pattern and they are moderately priced.

Now is your opportunity to secure in your home town an extremely high grade cloth, designed by an artist whose life has been spent in fashioning clothes for an exclusive eastern clientele. These patterns will not last long and cannot be duplicated. See them on display any day this coming week.

—A wonderful hose. Heavily reinforced where needed and special garter tops. Such good shades as nude, tanbark, freckle, tiredalla, beige, rose taupe, fog, jack rabbit, also black or white.

TO KEEP HAIR CURLY IN MOST TRYING WEATHER

You needn't worry about damp or windy weather spoiling the wavy appearance of your hair if you use silmerine. And you can dance all evening without having your tresses straining about your face. If you've never tried it, by all means procure a bottle of liquid silmerine from your druggist and follow the accompanying directions. It will enable you to have just the prettiest waves and curls, so natural looking no one will guess they were artificially produced. The curliness is quickly acquired and lasts considerably longer than where the heated iron is used. Life, lustre and beauty of the hair are preserved by this harmless liquid. It is neither sticky nor greasy.
