

COURT ACTION ON FIRE EQUIPMENT DEBT IS UNLIKELY

No drastic action is contemplated by the A. G. Long company, Inc., of Portland, to collect the \$25,000 due them for the purchase of a new fire engine and city service truck, W. S. Long told city commissioners this morning at an informal session in the city hall at 10 o'clock.

If the auditorium bonds are cleared in supreme court, the \$25,000 issue for purchase of the new fire equipment also will be valid, despite the voters' repudiation of the measure at Wednesday's special election. It is held by S. M. Galbraith, city attorney. A decision is expected from the supreme court on the question within the next 30 days.

Willing to Wait.

"Our company has no desire to embarrass the city administration in any way as a result of this election," said Mr. Long. "We desire to extend the fullest cooperation, and are willing to wait until the matter is straightened out in supreme court."

"Eugene's credit standing is high, and we would be willing to sell the city another fire engine under the same basis," he concluded.

"The city fire chief, W. H. Nishbaum, declared this morning that he didn't need another engine, but ordered 250 feet of four-gly chemical hose from Mr. Long, costing \$2,200. The hose is three-quarter inch, coupled in 50-foot lengths.

Appreciation Expressed

The council expressed their appreciation of the company's attitude in the matter, and agreed to await the auditorium bond decision before taking any further steps.

"The city has been made as to whether the sewer bond issue of \$50,000, also held up by the auditorium bonds, could be sold in addition to the issue approved Wednesday," said Mayor Parks. "The city attorney rules that the last measure invalidated the former one, and that only \$50,000 in sewer bonds can be sold. However, if the supreme court clears the fire apparatus bonds, the council will call immediately for bids and sell them as soon as possible."

JUDGES FOR ESSAY TESTS ARE CHOSEN

Judges who will decide on the relative merits of the local history essays to be submitted for the children's pageant to be held here May 9, were announced today by E. J. Moore, county superintendent of schools. The board of judges composed of former school teachers is headed by Mrs. Vera Todd Crowe, chairman. Other members of the board are Mrs. Georgia Gilstrap, Mrs. Mary Perkins, Mrs. W. E. Miner and Mrs. Mary D. Wheeler. All essays must be turned in by May 1, according to Mr. Moore.

Interest is increasing throughout the county school area in regard to the pageant and many more districts are sending in word that they plan to participate. Mr. Moore in answer to several inquiries states that when a district is competing for the relief display prizes, pioneer displays from that district can not be entered "by another district." If two or more districts combine for displays then it will be allowable to have all cooperate by pooling their displays, the superintendent states.

Danger Signal Flashed by "Nerves"

When you suffer from sharp, darting pains, nerve aching, nerve fatigue, accompanied by a feeling of exhaustion, yet are too restless and upset to seek needed relaxation, the nerves are sending out to you a cry for help. Heed this plea! If you do not, serious consequences may result.

For years scientists have sought an effective remedy for such a condition. Thousands of tests and experiments have been made, yet, heretofore, no sure remedy has resulted. Now, at last, an eminent San Francisco physician announces a new discovery based upon the science of Homoeopathy. In form of treatment recognized by several prominent physicians as the most effective remedial agent known to science.

This discovery is compounded into Eops Neuritis Tablets and is now available to all who want relief from neuritis, neuralgia, nerve pains and other forms of nervous disorders. If you suffer from "nerves," try this remarkable preparation at once before your condition gets worse.

Eops Neuritis Tablets are free from narcotics, bromides and coal tar products. Allen's Drug Store will supply you. Mail orders filled.

PLANS FOR LARGER MARKET ARE MADE

Extension of the public market to include another double row of stalls east of the present market is the plan of the board of directors and permission of the county court has been obtained for use of the ground adjacent to the jail building. It will not be necessary to cut away any trees as it will be possible to build around them, in the opinion of Clinton Hurd, county commissioner.

The means of financing the new market project have as yet not been announced. The county has no funds available for this purpose, members of the court state. The present market was erected through cooperation of Eugene business men but no request has been made for aid on the new addition. In the opinion of some Eugene business men who helped to finance the present building a new building could be erected on borrowed funds that could be repaid through a slight increase in market stall rents. The proposed addition will be about

the same size and type of the present structure.

Lane Anglers are All Obeying Laws

Although there were many Lane county anglers out for the first day's trout fishing and there have been a considerable number whipping the streams yesterday and today, they are all well behaved, each has his license and a thorough knowledge of the ethics of the game, according to Rodney Roach, deputy state game warden for this district, who has been looking over the territory in search of violations during the past two days. Although the rains have proved a handicap to anglers there is still much confidence and the real enthusiasts are defying the weather in search of their favorite sport, the deputy reports.
