

HOME CONCERT TO BE GIVEN TUESDAY

The University of Oregon orchestra will give its annual home concert Tuesday night at the new music building. To accommodate the large crowds which always attend the orchestra concerts, James Leake, student manager, has announced that two performances will be given, with the first starting at 7:15 o'clock and the second at 8:45 o'clock.

Hes Underwood, head of the violin department of the school of music, will direct the orchestra.

Among the members of the 50-piece orchestra are many artists who are well-known throughout the state. Miss Alberta Potter of Eugene again will be concert master. Miss Potter recently returned from New York where she studied for a year under Frank Kneisel. She is very accomplished and will render a solo.

Other violinists of note are Delbert Moore of Salem and Samuel Sobole of Portland. Mr. Moore is leader of the Phil Pipes orchestra and Mr. Sobole of the Ya-Towne Shoppe orchestra. Each plays the first violin.

Miss Hensh Clarke is one of the outstanding musicians in the orchestra. She is one of the best flutists in the northwest and has given many concerts on the campus and Portland and has played practically all the Portland theaters.

Miss Lora Tesner, an accomplished cellist, will render a solo, accompanied by the orchestra.

The concert will include: March from "X Siquid Jorsalfor" (Greig); "Serenade" (Schubert); "Dancing Dolls" (Poldini); violin solo, "Hejre Kati" (Hubay) by Miss Potter; "Two Slavonic Dances" (Dvorak); "Loves Dream" (Czibulka); "Serenata" (Moszkowski); march from "Nutcracker Suites" (Tchickowewski); violin solo, "Serenade Espagnole" (Glazounov) and "Harlequin" (Popper); Miss Lora Tesner; and "Second Hungarian Rhapsody" (Liszt).

Astoria Radio Fans Make Investigation

The Eugene Radio club can get started on its own investigations of broadcast interference, in the absence of a visit by the federal air inspector, according to word received by Robert Callahan, secretary of the Eugene club, from Gus Leiby, of the Astoria Radio club.

Cooperation is shown by power companies, and other sources of interference, to the committees of the Astoria club.

"A committee is in charge of investigating the interference caused by regenerative sets," says Mr. Leiby. "This committee reports that the services of a radio expert to lecture from the Astoria section KFJL, will be obtained, to tell the fans how to operate their sets without bothering their neighbors, will be obtained. Another committee is in charge of investigating power line interferences. Officials of the local electric and power company have been consulted, and have promised cooperation. Therefore, the committee is busy tracing down transformer leaks, etc., and telling the company about it.

"We understand that a government radio inspector is to be established in Oregon. Portland papers are supporting the idea, and have sent the club one of the petitions."

The Eugene club, awaiting word from the government inspector at Seattle, may undertake some action of its own, according to Mr. Callahan, who is assembling information as to the activities of other clubs along the Pacific coast.

PIMPLES

How to get rid of them.

WHY ENVY a clear, lovable complexion? Why wish hope? It is within your reach! There is always one quick and sure way to make your complexion free from all eruptions, pimples, blackheads, boils and that impossible muddiness. That is by building up your red-blood-cells. S.S.S. will do it for you! Because S.S.S. does build red-blood-cells it cleanses the system and makes those so-called skin disorders impossible to exist. S.S.S. contains only pure vegetable medicinal ingredients. It is also a remarkable builder of firm flesh, which is also important to beauty. It will fill out your hollow cheeks, put the "ruby" of health in your cheeks and the sparkle in your eyes. Since 1823 S.S.S. has been beautifying complexions and giving women physical charm. This is why S.S.S. is accepted as the greatest of all blood cleansers and body builders. Begin taking S.S.S. today and give yourself what you have been looking for, for years.

S.S.S. is sold at all good drug stores in two sizes. The larger size is more economical.

SOCIETY AND CLUBS

By MARIAN LOWRY

The Unitarian Women's alliance is meeting tomorrow at the church parlors. A business meeting will be held at two-thirty o'clock and a program at three o'clock at which time Walter Barnes of the university history department will give an address on "Darwinism and Character." There will be a silver tea and social hour following to which all members and friends are invited.

Mr. and Mrs. Lawrence Hartman (Catherine Spall) of Portland spent the weekend in Eugene visiting.

Miss Rosalia Kober of Salem was a visitor in Eugene over the week-end.

Altar Guild of St. Mary's Episcopal church is to meet tomorrow evening at seven-thirty o'clock, and is to be entertained by Mrs. Claire Lee at her home at Tenth and Monroe streets.

Of considerable interest in college circles is the engagement of Miss Freda Goodrich and Rue J. Mowrey which was announced Saturday evening at a dinner given at Alpha Chi Omega sorority house, Miss Goodrich is the daughter of Mr. and Mrs. Frederick W. Goodrich of Portland, and Mr. Mowrey is the son of Mrs. H. Marshall Goodrich, also of Portland. Miss Goodrich graduated from the university last June, and was editor of the Oregonian during her senior year. She is a member of Alpha Chi Omega, Theta Sigma Phi, Mortar Board, and Phi Beta Kappa. Mr. Mowrey is a senior in the university this year. He is a member of Theta Chi. The announcement was made at the dinner given preceding the formal dance at the Theta Chi house. A number of alumnae of Alpha Chi Omega came down from Portland for the occasion. No date has been announced for the wedding.

Mrs. D. E. Yoran will be hostess for a one o'clock luncheon at her home Wednesday for members of Helmetta club.

Miss Bernice Haines, bride-to-be, was honored Tuesday evening with a miscellaneous shower given at the home of Mrs. Minnie Nimmo, by Miss Floy Kirkham, Miss Merie Nimmo, Miss Louise Nimmo, and Miss Lena Newton. After the guests had arrived, Miss Haines was brought over to the home and there found her friends waiting. The evening was spent in writing a book, "How to manage a husband." To Mendleson's "Here Comes the Bride," a tea server was pushed into the room, where dolls and orange blossoms represented a bridal procession. The lower part of the tea server bearing the gifts. Among the guests were Misses Zada Tinker, Marie Tinker, Leta Humphreys, Grace Kelsay, Lula Ayedlott, Eva Taines, Lois Haines, Doris Haines, Isabelle Hoover, Wanda Wood, Lulu Rasor, Cecil Hardin, Sylvia Gilfillen, Eva Del Murphy, Katie Buchanan, Kea Buchanan, Vuella Stivers, Affie Reagan, Wealthy

CONTRACTS GIVEN FOR NEW THEATER

Allen Brothers have been awarded the contract for the new theater and apartment building at 784 Eleventh avenue west, by Mrs. Laura B. Paine. It is announced. Williamson and company will handle heating, plumbing, ventilating and tinning, and Bailey Electric company the wiring contract. Raymond Slawson, nephew of Mrs. Paine, will be the manager of the building.

The structure will be concrete, faced in front with brick and will be of a colonial design. Lobby will be walled with red brick and floored with tile. At the entry will be a fireplace and lounges. Rest room for women and men's smoking room will be on the mezzanine floor.

Condon hall, the new science building at the University of Oregon is nearing completion and the departments of geology and psychology and the reserve library department hope to begin moving in the structure about the first of May.

The part of the building devoted to geology will have special map cases, a special drafting room and especially well equipped assay laboratory rooms, and laboratories for petrography, mineralogy and paleontology. These will all be very complete, the assay laboratory being probably one of the best equipped in the state.

Until the reserve section of the University library is moved from the second floor, the general geology classes will not have as much room in the new building as would be convenient. When the library is moved, which will be in about two years, the second floor will be given over to a large lecture room for geology classes, a museum for the Candon geologic collection and the other specimens which are now kept in the basement of the Administration building.

Anglers Take big Catch on Stream

Walter B. Honeyman, Portland sportsman who is a regular attendant at the opening of the trout season on the McKenzie, returned north Saturday night after whipping the Lane county streams, he having arrived here for the opening day with his brother Thomas Honeyman and Colonel Robert Stening of Portland. The Portland anglers claim a record of 54 trout caught during their three-day expedition along the upper McKenzie and tributaries. Heavy rains marred the first day's fishing. Mr. Honeyman said, but with clear water the second day better luck was reported. The Portland sportsmen regard the McKenzie as the best of the trout streams of the state.

Cecil C. Woolley Purchases Garage

Cecil C. Woolley has bought the automobile repair shop of R. H. Pierce, at 645 Olive street, it is announced.

Mr. Pierce is retiring from garage work to give his entire attention to the Pierce-Anderson automatic disc wheel, invented by himself and manufactured here by George Anderson and himself at 1955 North Polk street. Mr. Woolley will continue the same policies and will do a general repair, storage and used car business, he announced yesterday. He has been a resident of Eugene for more than 15 years, and has been in the automobile repair business for a number of years.

National Gingham Week Has Blossomed Forth In All Its Lovliness

—Yard after yard of ginghams in many qualities, colors and patterns—fact is too diversified to attempt a description. The ledges, the counters, the shelves tell the story of bolt after bolt of these crisp, fresh ginghams.

—Then on the second floor we find a host of women's house frocks and aprons, also girls' dresses and kiddies' party dresses and rompers, made of this probably best known of all weaves—gingham. In the springtime when they're most in demand.

INSURE WITH HENRY TROMP.

MISERABLE!
Everybody is—when stomach and liver are out of order.

Dyspepsia, indigestion, biliousness, constipation and laziness quickly removed with Chamberlain's Tablets

Women's Admirable Guaranteed Fast Color House Frocks Most Attractively Priced \$1.95

—They are made of genuine Ameskeag Chambray (a stitched cloth label at back of neck on each dress). Almost forgot to include "Guaranteed Fast Color," too, which means these springtime plaid tub frocks will stand repeated washing and then look fresh each time.

—Slip-on-over-the-head styles, a point which wins them much favor with busy housewives. Made with kimono sleeves, depending for their individuality upon their original treatments of collars, sashes, pockets, pearl buttons and prettily bound with contrasting bias braid. Springtime is house frock time.

GIRLS' REAL HAND EMBROIDERED TUB DRESSES \$1.85

—NEW SPRING ARRIVALS —IN BRIGHT COLORS THE MISS OF 8 TO 14 LIKES

—Cleverly made dresses in those simple styles so becoming to the school girl.

—Touches of colored embroidery (contrasting) give an effect of smartness—and, you know, is quite the thing in girls' wash dresses. Collar of the Peter Pan variety. Perky sash, too.

The Breeding Place of Defective Vision

IS IN MANY CASES THE SCHOOL ROOM

Present day methods of education require concentrated vision for long periods at a time, at an age when children's eyes are especially susceptible to injury from eye strain.

School children's eyes should be examined at frequent intervals. Many cases of "backwardness" or "mental deficiency" may actually be traced to defective vision.
