

SCOUTS TO AID IN FIRE PREVENTION

Boy Scouts of Eugene will take an active part in the American Forest week program, April 27 to May 3, according to C. H. Clark, scout executive. The local troops will aid the Cascade national forest in distribution of posters and other printed matter for the forest office, as well as hear speakers on phases of fire prevention and give lessons in care of fires.

"Boy scout instruction lays some emphasis on how to build a fire, but more on how to put it out," says Mr. Clark. "It is our intention to have a fire warden appointed for each troop as soon as practical, to head up all fire prevention instruction and education. Later, too, we expect to have deputy game wardens appointed in each troop."

The fire prevention rules as laid down by scouts are as follows:

- 1—Matches: Be sure your match is out. Break it in two before you throw it away.
- 2—Tobacco: Be sure that pipe ashes and cigar or cigarette stubs are dead before throwing them away. Never throw them into brush, leaves or needles.
- 3—Making Camp: Before building a fire scrape away all inflammable material from a spot five feet in diameter. Dig a hole in the center and in it build your camp fire. Keep your fire small. Never build it against trees or logs or near brush.
- 4—Breaking Camp: Never break camp until your fire is out—dead out.
- 5—Brush Burning: Never burn slash or brush in windy weather or while there is the slightest danger that the fire will get away.
- 6—How to put out a camp fire: Stir the coals while soaking them with water. Turn small sticks and drench both sides. Wet the ground around the fire. If you can't get water air in dirt and tread it down until packed tight over and around the fire. Be sure the last spark is dead.

MANY PUPILS TO TAKE EXAMINATION

More than 1700 pupils have already been listed to take the eighth grade examinations to be held in the various county districts Thursday and Friday, May 14 and 15, according to E. J. Moore, county superintendent of schools. A total of 537 pupils will take the full eighth grade examinations comprising eight subjects and 1189 pupils will take the geography and physiology examinations, Mr. Moore states. It is expected that there will be a number of more pupils added to the list as a few districts have not yet reported, the superintendent said.

Chauncey Depew Celebrates 91st Birthday on job

NEW YORK, April 23.—Chauncey M. Depew, chairman of the board of directors of the New York Central railroad and former United States senator, from New York, planned to celebrate his 91st birthday today, he announced, by "blowing away his job," entertaining a few old cronies at dinner tonight, and leaving "providence to worry about the number of years he will live above 100."

Wounded man Says He is one Police Have Been Seeking

PORTLAND, Ore., April 23.—Lying on a hospital cot suffering from a bullet wound received Sunday night when he was captured, Alexander Gerlach, 26, reiterated today a confession that he was "Jock and a quarter Jimmy," a burglar who is charged by the police with more than 150 robberies in Portland last winter.

Teacher Injured In Auto Accident

GRANTS PASS, Ore., April 23.—Mrs. J. E. Burton, teacher at Dixie school, six miles west of this city, was seriously injured this morning when the car in which she was riding with her son struck the car driven by Chris Kloman. Mrs. Burton was thrown from the machine and received injuries to her head. Mrs. Burton was on her way from this city to the school when the accident occurred.

Student Average Held to be High

The forty-eight graduates of the University high school who are now students in the university, made an average of 2.7 in their marks received for the work of the winter. The average of all the university students is not obtainable, but for the full term the general average was 2.38. All but eight of the forty-eight graduates of the campus school excelled this figure. The school is all the more proud of its alumni because of the fact that all but five are freshmen or sophomores. The lower classes never average as high as do the juniors and seniors. Margaret Swan, daughter of Mr. and Mrs. J. G. Swan of 2130 Seventeenth street, topped the list with an average of 4.2. Others who averaged 2.0 or better, were Robert Giffin, Oliver

Cause And Effect Tested at Fort Bragg

Here are shown the new developments in field artillery, which are being tried out at Fort Bragg, N. C. The upper photo shows the firing of one of the six-inch field guns, with the smoke just breaking from the mouth of the gun. The lower photo shows a direct hit, scored on a bridge constructed for the artillery practice.

Adams, Ruth C. Miller, Hazel Hayden, May Tolle and Edna English. The figures are based on the published grades of all the students of the university recently issued as a university bulletin.

Pictures of all Kinds Telephoned

CHICAGO, April 23.—Anything that can be photographed from a negative of criminals in elaborate interior decoration has been accepted as a "message" by the American Telephone and Telegraph company, which has transmitted pictures of many varieties by wire. The most delicate detail, according to company officials, has been transmitted as distinctly as words.

One commercial use made of the new process was the sending of an advertising layout photographed from a plate of type from an arm to a Chicago newspaper in which it appeared the same day. Eleventh hour revision in national advertising may be made by long distance.

Prince of Wales Works on Poetry

ABOARD H. M. S. REPULSE, April 23.—(AP)—The ancient ceremonies of the sea, attendant upon crossing the equator, inspired the Prince of Wales today to express himself in poetry. The prince and his staff were highly amused with the time-honored customs that were carried out when the ship crossed the line. Hundreds of members of the crew who were making their first crossing were sent flying into a tank and dived. The prince received an address from Father Neptune, wherein he offered the hand of his "daughter" a green-gowned girl with a fighting face—to the heir to the British throne. The prince expressed his appreciation in a verse of his own composition.

Dogs Prove Heroes Twice in one day

CHEROKEE, Ia., April 23.—Dogs were given credit today for two worthy deeds, one the rescue of a girl from an attack by hogs on a farm and the other the giving of the alarm that a garage was afire. The girl, Jessa Gist was injured by the hogs but will recover. A dog belonging to Edward Meyers was responsible for the alarm that Meyers garage was burning.

Teacher Injured In Auto Accident

GRANTS PASS, Ore., April 23.—Mrs. J. E. Burton, teacher at Dixie school, six miles west of this city, was seriously injured this morning when the car in which she was riding with her son struck the car driven by Chris Kloman. Mrs. Burton was thrown from the machine and received injuries to her head. Mrs. Burton was on her way from this city to the school when the accident occurred.

For headache, constipation, indigestion, biliousness, bad breath, laziness and that worn out feeling, take two Chamberlain's Tablets. They keep men, women and children full of pep, health and happiness—because they keep them clean inside. 50 for 25 cents. Sold everywhere.

PASTOR SPEAKS ON INDUSTRY SUBJECT

Adjustments of the difference between capital and labor through an understanding of problems of each was the interesting subject of an address by Rev. Frank Fay Eddy, pastor of the Unitarian church, at the noon luncheon meeting of the Eugene chamber of commerce today. Rev. Mr. Eddy took as his topic "The War Out," Edward a Piene's book on the labor problem. The speaker told of the suggestions made by the great merchant who endeavored to find a solution of the problems brought about by modern industrialism.

The membership committee for the coming week who will report at the next noon luncheon is composed of George O. Goodall, M. M. Boney, E. C. Simmons, Dr. N. E. Winard and L. W. Wooten. Glenn Morrow, entertained with piano selections.

Thousand Homes Are Offered to Far-Famed Clock

ALBANY, April 23.—(AP)—The tower clock which was awarded first prize at the Centennial exposition at Philadelphia in 1876 has found a permanent home in the new campus being erected on the campus of the State Teachers' college, at Cedar Falls, Iowa. The clock, built by the late Chas. Fasoldt of this city, has been in the possession of the Fasoldt family until the present time. A few weeks ago Dudley Fasoldt, grandson of the builder and owner of the timepiece, announced he would give it to the institution offering the best home and care for it. More than 1000 applications were received within a week after Mr. Fasoldt's offer had been published. They came from churches, colleges, municipalities and commercial organizations. Officials of the State Teachers' college at Cedar Falls have guaranteed that the clock will have the best of care by the institution's own mechanics and electricians. The campanile in which it is to be installed is located on high ground and the dial will be visible for miles. The clock, in its half century of existence, has shown a maximum variation of less than 10 seconds a year from solar time.

Compulsory Library Studies are Opposed

LONDON, April 23.—(AP)—There is too much literature and not enough mechanical acts being taught in the schools today," This opinion is from Hilaire Belloc, the author of a goodly number of volumes of essays and other literary works, in a lecture on "Education" at Manchester recently. The pupil should determine what his natural bent is, Mr. Belloc argued, and if it is not in the line of literature he should not be forced to study it or allied subjects. The pupil, he said, should spend his time learning the profession or trade he is most interested in and be capable of entering it when he leaves school, instead of having to serve an apprenticeship because he spent his time on useless subjects, as is the case under the present system.

Scotchmen Turning From Hard Liquor

LONDON, April 23.—(AP)—The drinking of hard liquor in Scotland has greatly decreased during the last 30 years, and the coffee shop to a large extent has replaced the public drinking house, members of the National Commercial Temperance league were informed recently by E. Rosslyn-Mitchell, member of parliament. When he was a bar, the speaker said, there was scarcely a business house in Glasgow without a jug of whisky ready for the immediate use of any person who came along, but such a practice is unknown in that city under the conditions of today. He urged that an effective way in helping to kill the drink trade was by personal example.

FIVE HOMERS MADE

PHILADELPHIA, April 23.—Five home runs were made in the first seven innings of the Philadelphia-Brooklyn game this afternoon. The drives were made by Fourier and Wheat of Brooklyn and Huber, Mokuau and Henline of Philadelphia.

Fish Commission's Land Sale Puzzles

PORTLAND, Ore., April 23.—District Attorney Stanley Myers announced today he would recommend that the county commission ask Governor Pierce to investigate the recent sale by the state fish commission of 30 acres of land at Eagle creek to E. M. Rhea. Rhea has offered to turn over to Multnomah county and the forest service all of the tract but 100 by 100 feet on which he desires to establish a concession including a restaurant, confectionery and campers' supply store.

HORNBY IS HIT

ST. LOUIS, April 23.—Rogers Hornsby, 1924 National league batting champion was hit on the head by a pitched ball in the third inning of today's St. Louis-Cincinnati game and fell to the ground stunned. Hornsby, however, was able to return to his position at second base in the fourth inning. Injure was on the mound for Cincinnati.
