

FAME OF EUGENE WIDELY HERALDED BY RADIO ROUTE

Following is the address of Rev. E. V. O'Hara on Eugene, as broadcast from KGW, The Oregonian radio station in Portland, last Saturday evening, on the occasion of the concert given there by the Cecilia choral club of this city, to an audience extending over a great part of the country and which comprised many thousands of people:

"I am commissioned to convey to you the greetings of the great body of progressive business men constituting the chamber of commerce of Eugene, Oregon. Of Eugene, the fair metropolis of Lane county, the most rapidly growing city in the northwest, a center to which lines of travel and traffic converge from north and south and east and west; Eugene, the headquarters of important and well established co-operative enterprises which give stability and prosperity to the farms, and orchards and dairies which are the pride of Lane county. The secret of the stability of Lane county's prosperity is to be found in the wide diversity of fundamental products. As the Eugene chamber of commerce slogan has it, 'We don't put all our eggs in one basket.'"

"I bear also the greetings of my vast parish of Lane county, the garden spot of America, a territory extending 40 miles north and south and one hundred and fifty miles east and west embracing its magnificent sweep the snow capped bright of Diamond peak and the living glaciers of the Sister mountains; two great national forests of virgin timber, the source of an immense lumber industry; the Niawla river flowing to the Pacific, the headwaters of the noble Willamette, and above all, the beautiful McKenzie with its enchanting highway the McKenzie, the summer camp ground of the west and the ample source of the unpolluted water which will flow into the homes of Eugene."

"One might suppose that Byron had caught a vision of Lane county when his poetic soul burst forth in the rippling strains of that beautiful rhapsody:

"Know ye the land of the cedar and vine,
Where the flowers ever blossom,
The beams ever shine;
Where the light wings of zephyr,
Oppressed with perfume,
Wax faint o'er the gardens of God in her bloom;
Where the fountains of the earth and the hues of the sky,
In color though varied, in beauty may vie."

"But we do not consider that the resources of Eugene and Lane county are merely those which have been showered upon us by a bountiful providence, or which have been created by commerce and industry. We abound too, in the things of the mind and the spirit. Here is situated the University of Oregon with its colleges of liberal arts and science, the head and crown of the educational system of the state of Oregon. Here, too, in the realm of music is the Cecilia Choral club, the choir of St. Mary's Catholic church of Eugene, from whose concert I have taken these few minutes to speak to Lane county and to those further melodies I now give place."

Four Schools are Debate Contenders

Only four high schools remain as contestants for the championship in the Oregon high school debate league. Two of these are in the Eastern Oregon district. Starting with nearly a dozen high school districts the number has gradually narrowed down to four, according to Dr. Dan Clark of Eugene who is directing the work on the part of the university.

The Ashland high school and the Tillamook high school are the two contestants in western Oregon. The Ontario high school and the McLaughlin union high school at Milton are the two contesting teams in eastern Oregon.

TELEPHONE GIRL NOW WELL

Suffered Two Years. Relieved by taking Lydia E. Pinkham's Vegetable Compound

Marshalltown, Iowa. "At the time I began taking Lydia E. Pinkham's Vegetable Compound I was a telephone operator and had been suffering for two years with bearing-down pains and cramps in my legs. I could scarcely walk. At times I could not do any kind of work on account of my trouble. My mother was taking the medicine for the Change of Life and she thought it would help me and it did. I have also taken Lydia E. Pinkham's Liver Pills. I recommend your medicine to my friends and I will answer all letters asking about them."—Mrs. P. E. EVERTS, Box 149, Marshalltown, Ia.

Mrs. Norton's Experience
"Before I started taking Lydia E. Pinkham's Vegetable Compound I was weak and nervous, and had such terrible dizzy spells that I could not stand some days. I had no appetite, was restless at night and felt all run-down. My husband got me a bottle of the Vegetable Compound and I am surprised at the results after taking it."—Mrs. CLARENCE S. NORTON, 18 Pierce St., Dover, N. H.

SOCIETY AND CLUBS

By MARIAN LOWRY

The Matrons' guild of the Central Presbyterian church is being entertained tomorrow afternoon at the home of Mrs. F. C. Furness, 831 Ninth avenue west, at two-thirty o'clock. Mrs. D. M. Anderson, Mrs. M. S. Wallis, and Mrs. Elmer Stone are to be assistant hostesses.

St. Mary's guild of the Episcopal church is holding its all-day session tomorrow.

An event of interest to many residents of the east side of town this evening is the covered dish supper for which members of the Congregational church living on the east side are entertaining at the parish house at six-thirty o'clock for members of their families and friends.

The Unity Study club is to meet tomorrow afternoon at the home of Mrs. H. W. Strong, 1190 Broadway street at two o'clock. All interested are invited to the session.

The annual visit of the worthy

grand matron of the Order of Eastern Star to the local chapter is to be Friday evening. Mrs. Ida Umbach of Lakeview, past grand matron, is to be here for the occasion. Friday afternoon Mrs. Umbach and officers of Evangeline chapter of this city will meet for a social affair in the Masonic temple, and in the evening there will be a larger function for members of the chapter.

N. U. A. club members postponed their meetings this evening until the next regular meeting date, at which time Mr. and Mrs. F. X. Schaefer will be hosts to the group.

Miss Grace May McNeil, national inspector of Alpha Delta Pi sorority, will be a guest of the University of Oregon chapter over the coming week-end and a number of affairs are to be given in her honor. For Monday members of the chapter have issued invitations for a tea to be given at the house, honoring Miss McNeil.

STREET PAVING TO GET EARLY START

Paving operations on Thirteenth avenue from University street to Agate street will start tomorrow, according to Harry Devereaux, city engineer. With the coming of sunny weather the engineer expects to get as many of the pending projects under way as soon as possible.

Work will begin Friday on paving Third avenue from Monroe to Blair street. It is also announced. On the Thirteenth avenue project, where concrete paving is at present being laid up the hill from Willamette to Lincoln street, the contractor has a job that will take all summer, the engineer believes. Paving has been completed on Thirteenth avenue from Willamette to Lincoln street, and announcement of the opening of this street may be expected in the next two weeks.

Several sewer jobs are under way, and it is considered likely that some sewer work will be completed that will relieve the Amazon slough situation the coming year, although plans have not taken definite shape yet.

Piling is now being driven on the Patterson street bridge, and as announced, the Ninth street concrete bridge will be opened next Monday. Finishing touches are being put on the bridge, including the setting of posts, placing of lights and general cleanup work.

Clyde Johnston to Join Eugene Firm

Purchase of a half interest in the firm of L. M. Travis, Inc., by Clyde Johnston, former district attorney, was announced yesterday. This firm is secretary to the Lane County Credit association, and handles all collections of merchants, firms and professional men in its membership.

Mrs. L. M. Travis, widow of the attorney who established the firm, will retain a half interest, it is announced. Offices have recently been refitted, renovated and remodeled, giving more room.

"Men Are Worth As Much As Their Glands"

FR. SERGE VORONOFF, of France, who has devoted years to experiment in glandular treatment, has said: "A man is worth only as much as his glands." He has also stated that the functioning of our organs is no more than the result of the activity of our glands, and when the bodily functioning is disturbed, the cause in most cases should be sought, not in the condition of the organs itself, but in the condition of the gland which controls it.

Glandogen, the new scientific gland tonic, which is prepared in convenient tablet form, for men and for women, provides a simple method of taking glandular treatment. Accept no substitutes. Insist on genuine Glandogen, the original gland tonic.

Allen's Drug Store and Red Cross Pharmacy will supply you.

\$150,000 PAID BY CITY ON WARRANTS

City warrants totaling approximately \$150,000 have been paid by Fred Wentworth, city treasurer, he announced today, since bonds were recently sold releasing money to call in the improvement warrants.

More than \$14,000 in old road and street improvements have been paid in the last few days. These have not run more than a year. All the old time warrants of the city are now paid, it is stated, the oldest warrant out being on the improvement bond interest fund, the money for which is slow of collection. Other warrants are less than two years old.

The warrants called in recently have totaled the largest sum ever paid by the city of Eugene in one month, states Mr. Wentworth. Each warrant's interest must be computed separately, and the entire job has bulked large.

When the city sells the sewer bonds of \$50,000, and the paving intersection bonds, the two issues of which also total \$50,000, the treasurer will also be able to take up all warrants drawn for trunk sewer payments, it is stated. The city this summer will be able to pay all warrants for street intersection paving as rapidly as they are presented.
