VON HINDENBURG IS KEPT BUSY BY HIS NEW DUTIES

BERLIN, May 14.—(AP)—President Von Hindenburg grappled with another busy program today, his third in office, featured chiefly by the reception to the diplomatic corps with charge d'affaires, Warren Roberts, representing the United States.

During his reception of a railway delegation yesterday the Dawes reparations plan was brought before the new president for the first time. Carl Bosler, managing director of railways, informed him that under the Dawes scheme the roads were obliged to bear a large part of the burden of the Versailles treaty. In reply the president expressed confidence, that despite the difficulties confronting them, the railways would bring in greater returns to assist in meeting the nation's international obligations.

His meeting with General Von Seeckt and Admiral Zenkler, as chiefs of the defense forces was touched with some pathos, the president telling them that the occasion "fills my old soldier's heart with pride and sorrow."

He paid tribute to "the indefatigable work which you carried out under the most distressing conditions," and assuring them of his support, concluded:

"May you also be successful in the future in making the Reichwehr an effective instrument for peace for which only it is intended."

Several high German officials planned to participate in the reception to the diplomats today including Chancellor Luther, Former Minister Stresemann, Executive Secretary Meissner, Foreign Under Secretary Von Schubert and the official diplomatic introducer Von Guellich.

BRITAIN PLEASED

LONDON, May 14.—(AP)—The statements made by President Von Hindenburg of Germany upon assuming office created a good impression in official circles here, where his utterances are regarded as indications that he is unlikely to serve any party ends.

A diplomatic writer of the Daily Telegraph understands the British government will send a courteous acknowledgment of the notification of the installation, accompanied by the formal felicitations customary on such occasions.

On Trial in Court

Here is Mrs. Shepherd, wife of William D. Shepherd of Chicago, when she appeared in court where she was accused of having had knowledge of the murder of William McClintock, "millionaire orphan," and his mother, for which her husband has been indicted.

MRS. SHEPHERD IS CLEARED BY JURY

CHICAGO, May 14.—(AP)—Mrs. William D. Shepherd has been cleared by the grand jury of implication in the deaths of Mrs. Emma Nelson McClintock and William McClintock, millionaire orphan. The jury voted two "no bills" thus quashing findings of a coroner's jury that held her as accessory to her husband; held for trial on an indictment charging the murder by typhoid germs of young McClintock. It took no action on the coroner's jury's verdict holding Shepherd responsible for Mrs. McClintock's death, but may thereby hear any further evidence developed in that regard.

Mrs. Shepherd greeted the jury's vote with a statement in which she said an acquittal "must be the ultimate outcome of all the conspiracy against my husband and myself. There must be an end to this damnable outrage against us."

She has maintained throughout that the investigation of the deaths and the charges against her husband and herself was a conspiracy.

RIFFIAN INVADERS ARE PUNISHED BY FRENCH ASSAULT

RABAT, French Morocco, May 14.—(AP)—Abd-el-Krim's Riffian invaders were severely punished by the French yesterday in a series of operations which relieved all but two of the surrounded outposts and established the French on the Ribane heights.

The Riffians were completely cleaned out of this region, leaving a great number of dead on the field. The French captured large quantities of arms and ammunition, including, they say, many mausers and French rifles taken by the Germans at Maubeuge. One of the French blockhouse garrisons still surrounded and holding off the Riffians, is the Aoulay post, where only a dozen native troopers are still able to handle the guns out of a garrison of 50 men and two French officers. All the others have been seriously wounded or killed.

The French met the stiffest sort of resistance in their forward movement and there was much hard fighting but the Ribane heights were attained and positions established there.

An official French communique issued today states the flying column under General Colombat continues today clearing up the neighborhood of Ribane. "Our losses yesterday in action were light."

PIERCE DECLARES ITALIAN HOLIDAY

SALEM, Ore., May 14.—Governor Pierce today issued a statement urging the people of Oregon to join with the Italian people of this state in celebrating on Sunday, May 24, the tenth anniversary of the entrance of Italy into the World war and the 25th anniversary of the reign of Victor Emmanuel.

"Thousands of men and women of that nationality, loyal to the land of their adoption, are numbered by America among her best citizens," says the statement. "Italy's glorious past forms a large part of our history, and the record of her participation in the World war adds new pages that lend lustre to the old.

"We are indebted to Italy for her noble contribution to art, science and literature. Every wireless on the sea—every radio on land—speaks a tribute to her inventors; every piano sounds a praise to the genius of her musicians; our art museums are adorned by the handiwork of her sculptors, and her architecture is copied in every capitol of our states.

"Surely, on this anniversary, which is so dear to the hearts of Italians, we, in America, can join with our adopted peoples in such celebration and thus closer cement the many ties that bind our common interests."

Sharp Advance in Price of Wheat in Chicago Reported

CHICAGO, May 14.—(AP)—An unusually sharp advance in the price of wheat today accompanied indications of export business of liberal amount. Wheat for May delivery rose to $1.08 in the final hours trading, an overnight gain of seven cents a bushel.

Traders gave much attention to an estimate from the United States department of agriculture that the world carry over of wheat on July 1 would be 125,000,000 bushels compared with 283,000,000 bushels a year before. The carryover mentioned is said to be the smallest on record.

Before the day was ended May delivery of wheat brought $1.80½ a bushel, an extreme rise of 7½c compared with yesterday's latest dealings.

EL PASO, Tex., May 14.—With the aid of an interpreter, Bert Lytell and Claire Windsor, movie actors, today were joined in marriage by a Mexican judge in the Presidencia room of the city hall at Juarez, just across the Rio Grande river from here.

Manual Reachi, husband of Agnes Ayres, translated the words of the marriage.

"I'll take your word for what he said," Lytell told Reachi as the ceremony concluded, "but I think he meant, "Love, honor and be gay," and then turned to bestow a kiss on Mrs. Lytell.

The party leaves late today for Mexico City, where the Lytells will spend their honeymoon.

Communism Feared In Great Britain

LONDON, May 14.—(AP)—Alarm over the growth of communism in Great Britain which was voiced widely through the press recently, seems to have invaded the British cabinet.

It is understood that it is considering the advisability of refusing all foreign communists permission to enter this country for the annual conference of British communists at Glasgow, Scotland, May 31. The cabinet's reported attitude is regarded more or less as an admission of the government's anxiety over the rapid growth of the communist element since the barriers to its members entering this country were removed by the late labor government. It is regarded also as a warning of the conservative group's determination to keep known revolutionists out of Great Britain.
