

PRINCE GEORGE OF JUGO-SLAVIA IS PUT IN MADHOUSE

By MILTON BRONNER
(ONIA Service Correspondent)
LONDON, May 20.—Wine, women and song—too much of each—have led to the royal bad egg of Europe, Prince George of Jugoslavia, being locked up in a private madhouse where hereafter he will not be able to trouble the serenity of his royal brother, King Alexander, whose throne he should really be occupying.

That's the real truth behind the communique recently issued by the Jugoslavian premier.
"In view of the state of health of Prince George, elder brother of King Alexander, which is such that he urgently needs a change in the manner of his life and being put under the constant supervision of a doctor, the royal family have, a place of permanent residence for Prince George and appointed a special doctor."

All of which means—exit Prince George from the European scene. It's the most amazing tale in the history of modern royalty. Up to about 1905, when he attained his majority—13—he was almost a model prince. He was the eldest son, and heir to the Serbian throne. He was the apple of the eye of his father, old King Peter, who, on his eighteenth birthday, before the assembled regiments of the nation said to him:

"My dear son, my joy at your birth 18 years ago was great. Today when you enter the officers' corps of my brave army my pride is greater. With the help of his serbian throne and will be the highest officer in the army in which you today step as lieutenant."

Less than six months George had made himself the talk and scandal of the Balkans. He beat his aides. He dressed as king and held drunken orgies. He was threatened to horsewhip his premier. He drove a car at wild speed through the narrow, ill-paved streets of Belgrade. He paid swift court to pretty actresses in Vienna.

He was mad about pretty women. One day passing down a Belgrade street he saw the picture of Mile, Laurit, an actress. He secured her address and posted a proposal of marriage.

Having quarreled with another pretty actress, he made disparaging remarks about her. She appeared at the local restaurant in Belgrade and publicly horsewhipped him. Of course, she was arrested, but the national feeling was on her side and the matter was discreetly dropped.

It is estimated he proposed marriage to at least 30 pretty women. He was the universal lover, paying court to girls of all nations. The climax to his career came when his valet mysteriously died. There were sinister rumors connected with this and in 1909 Prince George, to the relief of the nation, was induced to renounce his rights to the throne.

For a time he lived quietly in retirement. When the first Balkan war broke out he asked for a command, but was refused, and was greatly enraged when his younger brother, the present King Alexander, was given an army. Then he complained that he was not given an allowance compatible with his rank and position. He wrote letters to the Belgrade papers attacking the royal family.

For a time his brother confined him to residence in Nish. Released from exile, he came once again to Belgrade and would drive around town in his car, distributing posters insulting to his brother, the king. One of these read: "Beware of the fellow with the big red nose."

With all his eccentricities he is a brave man and a good soldier. When the World War broke out and the Austrians attacked Belgrade, George got himself at the head of a small group and successfully defended the capital. He was seriously wounded in action at Tosa and sent to France to convalesce. He was made a lieutenant colonel and for bravery in the field but was eventually refused the promotion. His latest exploits have been to boost the cause of the republicans and attack royalists.

It was thought he would always be a lieutenant. Exile from Jugoslavia would not be effective. So the plan devised before now by royal families was put into effect. He was locked up—a prisoner for life, perhaps—as a sick man.

School Plans for Blind are Praised
BERLIN, May 20.—(AP)—America is leading the way in educational methods for the blind, in the opinion of Miss Betty Hirsch, director of the school for the blind founded during the World War by Germany's famous oculist, Gohelmann, she observes, "The city of Cleveland," she observes, "has found the ideal solution of the problem, in that education for the blind children is not carried on in special schools for the blind, the blind pupils are interspersed among the sighted children. This procedure is of the greatest benefit not only to the blind children, but to the others as well, in that it accustoms them to getting along with their less fortunate fellow pupils and shows them that a blind student can do fully as well as a sighted one."

"The feeling of human pride is quite as pronounced with blind people as it is with those enjoying eye sight. Self-confidence can be encouraged among the blind only if they are being offered an opportunity to show that they can hold their own in competition with others. If the blind are segregated from the sighted, this confidence can never be instilled in them. America is absolutely right in mixing the blind in with the sighted."

This Woman's Recompense
"I was so weak and nervous I could hardly do my housework," says Mrs. Harry Ashcroft of Covington, Ky. "I could not stand because of the bearing-down pains in my back and abdomen. One day I read how Ledia E. Pinkham's Vegetable Compound had helped others and decided to try it. I want to praise this wonderful medicine for the health and strength it has given me and ask other suffering women to try it." This is one of the great dependable medicines for woman's ills.—Adv.

Prince Has International Romances

Prince George and three of the girls who figure in his life story. Hannah Cohen (top), pretty Jewess of Jugoslavia, to whom he proposed; Tanya Veitrova (center), of Serbia; and Elizabeth Ionides, of Greece.

KANSAS DOESN'T GET ALL METEORS

McPHERSON, Kan., May 20.—(AP)—Kansas has attained a reputation as the planet as a land of field for stony meteorites, but that reputation would not stand the test of science, declared Prof. H. H. Nininger of McPherson college, past president of the Kansas Academy of Science, in an address on the subject of meteorites.

The belief that Kansas, center of the United States, exerts some unexplained influence on the heavenly wanderers, is without foundation in fact, the professor asserted. A chart of recorded meteorite falls discloses that one-fifth of the significant finds in the world have been in Kansas, and this has led, according to Professor Nininger, to the popular and fallacious impression that this state is peculiarly attractive to meteorites.

Two explanations he offered for the apparent monopoly Kansas has maintained; the character of the soil, and the interest aroused in the science.

"The finding of stony meteorites," Professor Nininger pointed out, "which have not been seen to fall, may be considered among the rarest events in the annals of meteoritics. In only two localities in this continent have such finds occurred in numbers—western Kansas and the coast-

al plains of Texas. In both of these regions the soil is comparatively free from terrestrial rocks." This, he said, facilitated distinguishing meteoric stones from the earth.

A series of witnessed falls of now famous iron and stone meteorites also had kept scientific circles, the public and the press interested in Kansas for long periods, he said, with the result that farmers began to believe that the heavy stones with which they were weighing down fences and tools were in fact meteorites. Thus were the discoveries multiplied.

Scientist have never satisfactorily accounted for the concentration of iron meteorites in large showers. Professor Nininger told his audience, "One theory is that such showers are remnants of disintegrating comets which have 'side-swiped' the earth. This, he said, may explain the huge crater in northeast Arizona, devoid of volcanic rock and surrounded by traces of iron meteorite falls, which geologists believe marks the entrance into the earth of a monster meteorite.

Oh! The joy of a peaceful, restful night. What a wonderful "up and going" feeling follows such a night of undisturbed slumber. Oh! What tortures—what agony—what despair—goes with the nights where eczema and other skin diseases hold power and drive away rest and peaceful slumber. For under the cover of darkness like crafty beings of the underworld these eruptions work their most serious havoc.

S.S.S. is the established conqueror of these annoying skin diseases. S.S.S. drives these ever disturbing elements from your system and elements that carry in their wake—lack of energy—undermining health! You may try in vain to get rid of them by using salves, lotions, washes, all to no purpose. You can't do it that way—the seat of the trouble lies deeper—impure blood trying to throw off poisons through the tender skin.

S.S.S. purifies the blood. It aids Nature in creating new red-blood-cells by the million! Red-blood-cells that send new rich blood coursing through your system. Red blood that drives away eczema—drives away pimples, blackheads, boils and rheumatism, too. An increase in red-blood-cells means added strength, added vitality and renewed vigor. Because the medicinal ingredients of S.S.S. are purely vegetable, it may be taken with perfect safety. Start taking S.S.S. today and watch it rout that annoying, skin destroying, health undermining army that holds your system in its grasp! Learn again what it means to enjoy peaceful, restful nights of slumber.

S.S.S. is sold at all good drug stores in two sizes. The larger size is more economical.

Court Dress Cuts In Price Welcome

LONDON, May 20.—(AP)—Ready-made gowns will appear at court functions this season for the first time. The innovation, the idea of which was imported from the United States by designers in London, is the result of the purses of their customers among princesses and princesses, also includes the purchase of dresses on the installment plan.

According to the dressmakers, many youthful daughters of earls and dukes were the first to welcome this economical solution of their reduced clothing allowances, and a rushing business has resulted among those modistes who have taken up the plan. For \$50 the young women have been able to find exclusive models designed and executed by artists of color and the seissors, whereas a few years ago they would have paid two or three times as much.

Some of the court dressmakers, this season, have abolished the old time custom of sales by appointment only and because of the keen competition in their line of business, are willing to serve customers any time they appear.

History is Cited.
The following is a short history of the records, as far as France is concerned, since M. Albert Sarraut, who replaced Premier Briand at the head of the French delegation, returned to Paris in the spring of 1922.

The treaty concerning the "limitation of naval armaments," signed at Washington Feb. 6, 1922, was turned over to the committee on foreign affairs in March, 1922. Deputy Guesnier was entrusted with the task of preparing a report on the treaty, and making a recommendation as to its ratification. He recommended that "the government be authorized to ratify, effective until Dec. 31, 1923, the treaty signed at Washington between the United States of America, the

NAVY AGREEMENTS STILL WAIT ACTION OF FRENCH PEOPLE

PARIS, May 20.—(AP)—The Washington naval accord, negotiated by Premier Briand in 1921 and signed under premiership of M. Poincaré in 1922, are still awaiting the ratification of French parliament. The Poincaré cabinet held office for two years after the bills calling for their ratification were introduced in French chamber; general elections have taken place, the Herriot cabinet endured for ten months and, with the momentous financial problems now confronting the new La Palud ministry, it appears unlikely that parliament will be called upon to discuss these accords for some time to come. Their present status is unknown beyond the fact that they have been before the foreign relations committee of the chamber since the middle of 1922.

"Pigeon-holed" is the somewhat undignified term used in America, which, although it does not appear in the dictionary sanctioned by the French academy, may best describe the fate of the accords.

The following is a short history of the accords, as far as France is concerned, since M. Albert Sarraut, who replaced Premier Briand at the head of the French delegation, returned to Paris in the spring of 1922.

The treaty concerning the "limitation of naval armaments," signed at Washington Feb. 6, 1922, was turned over to the committee on foreign affairs in March, 1922. Deputy Guesnier was entrusted with the task of preparing a report on the treaty, and making a recommendation as to its ratification. He recommended that "the government be authorized to ratify, effective until Dec. 31, 1923, the treaty signed at Washington between the United States of America, the

British empire, France, Italy and Japan limiting naval armaments." Bill Submitted
A bill bearing the signature of President Alexandre Millerand and presented by Premier Poincaré, Finance Minister The Lasserre, Navy Minister Halperin, War Minister Maginot and Minister of Public Works Le Tancquer, calling for the ratification of the treaty, was then submitted to parliament. It was again referred to the committee on foreign relations. Since then it has not been mentioned again in public discussion, and nothing has been heard of it in committee.

The treaty concerning "possessions and insular dominions in the Far East," signed Dec. 31, 1921, has had a career similar to the above. Deputy Raynaldy, who has since been in minister of commerce in the Herriot cabinet, made a report to the committee recommending its ratification. This was Jan. 22, 1923.

OXFORD, England, May 20.—(AP)—Oxford tradesmen are gravely concerned over the increasing tendency of undergraduates to pay cash for their purchases. The new fashion saves the postage on the customary 20 monthly duns, but it means the loss of the extravagant custom of the young Verdant Greens of pre-war days, who ordered silk dressing gowns by the half dozen in the serene belief that bills due three years hence are really not proper bills at all.

Tradesmen are discovering that the man who buys for cash buys carefully and stints the more exotic cravings of his family. Worse still, they are discovering that he prefers to do his buying in London, where a shopping excursion is a very desirable excuse for a restful afternoon in one of the music halls. London competition is far from pleasing, for it was long settled that Oxford prices should be set well above those of the metropolis during term time, to carry over the lean vacation when streets are deserted and tradesmen recline against their sturdy oak counters in a sad and wishful boredom.

The increase in cash purchases is indicative of a shifting of social standards. Fewer undergraduates are now the sons of choleric and unbusinesslike old country gentlemen with gout and ancient lineage; more and more are coming up to the university from the very recently acquired country seats of moneyed men of business who are better judges of accounts than of horses and Maderia. In the university as elsewhere the easy-going credit system based on the unimpeachable honesty, solvency and respectability of the settled country families is giving way to the rule of ready cash.

England to Study Route of Aviation
LONDON, May 20.—(AP)—Sir Sifton Branner, director of civil aviation, returned to London recently after having completed in four months a 17,000 mile journey by air to India and back in the same airplane in which he started. The machine made the entire flight without a single mechanical breakdown.

The purpose of the trip was to investigate the possibility of commercial aviation under tropical conditions. Sir Sifton declared upon his return that there should be no difficulty in crossing India by air, the route to be followed being up the valleys of the Indus and the Ganges, all flat country and where the conditions were not at all bad for flying.

Sir Sifton said the actual flying time of the plane was 210 hours from London to Rangoon and back. He has reported on sites for airship masts at Calcutta, Colombo, Delhi and Rangoon.

Fresh Tru-Bake Crackers

Free

Madam: This is Tru-Blu "Thank You" Week. In appreciation of the reception you gave Tru-Bake, the universal cracker, a year ago, we offer you another opportunity to get a package of Tru-Bakes FREE.

And if you missed our introductory offer last year, we invite you to get a package of Crisp, Fresh Tru-Bake Crackers FREE this week—

at Your Grocer's

Thursday, Friday, Saturday, May 21, 22, 23

The Free package of Tru-Bake Crackers is an anniversary gift pure and simple. It will be given FREE through your grocer on Thursday, Friday and Saturday—with every purchase of Tru-Blu "Cup Custard" cookies sold at 45c a pound.

"Cup Custard" cookies are wonderfully mellow 2-layer English style cakes—filled with a custardy confection that teases the taste most delightfully. Kiddies just love them. So will you.

Be sure to get a pound or two before Saturday—and present the coupon (printed below) for a 14c package of Tru-Bakes FREE.

Tru-Bake

The Universal Cracker

was originated by Tru-Blu master bakers after 16 years of research. And introduced about a year ago. At that time Tru-Blu promised you the finest cracker obtainable. That Tru-Blu Bakers have kept their pledge is indicated by the crispness and fine flavor of every cracker bearing the name TRU-BAKE.

To Grocers: This introduction of Tru-Bake is a special favor. It is a 14c package of Tru-Bake crackers and a 14c package of Tru-Blu "Cup Custard" cookies. The entire offer is good only on the dates mentioned above. Tru-Blu Biscuit Co.

AND IF she had the special oven in which these famous English style cakes are baked. Tru-Blu Bakers were the first to introduce English style twin biscuit called "Cup Custard". A double-value cake of two light textured cookies baked to a tempting hickory shade—and made even more tempting with a filling of custardy fondant. The name Tru-Blu is embossed on every genuine "Cup Custard" Cookie-Cake. That's your guarantee of quality. Your grocer has a FRESH supply. You'll want a pound or 45c Lb. two at.

Get this Package FREE

Our old square cracker is now in total eclipse. The new shape Tru-Bake Cracker fits the bite. Eats neater, tastes better. Ask for Tru-Bake.
