AUTO RACERS HAVE VARIED ENDEAVORS

INDIANAPOLIS, May 22.—(AP)—The day has passed when command of a racing automobile is gained only after years of struggle in a machine shop.

Doctors, manufacturers, tradesmen, clerks and scientists, now pilot the speedsters, which in the last year, have set new records practically for all distances. On Saturday, May 30, facing the starter for the 13th annual 500 mile race at the Indianapolis speedway, will be found pilots skilled in medicine, engineering, manufacturing, drygoods and entomology.

Tommy Milton, one of the world's most fearless drivers, owns a butter and cheese factory in St. Paul, Dr. William Shatzack of Los Angeles practices medicine until the close of the track draw him away.

Benny Hill, a veteran pilot is an entomologist; Frank Elliott, between races is an engineer, Antoine Moure manufactures pleasure cars in Paris. All are college men.

The "old guard" drivers, however, will not be without a splendid representation at the forthcoming race. Ralph De Palma, Pete De Paolo, his nephew; L. L. Coram, Jules Ellinboe and others worked their way from the pits to the wheel. They are among the favorites to win some of the \$100,000 prize money.

A tire made for the West. in the West!

IN A FEW MATTERS we Westerners gladly hand the palm to our Eastern friends. Building subways and skyscrapers—yes! Football—possibly. Climate—improbably. Pleasure auto driving—no!

We drive more months of the year . . . have greater scenic attractions. The "great open spaces" draw us farther from home. We know roads—and autos—and tires!

Which, in a way, accounts for the success of C-T-C tires. They are built in the West to meet Western conditions.

Eastern engineers came West to build them—but they make them for the West as well as in the West!

Today they are ranked as one of the three or four really fine tires in America. They are the largest-selling tires made in a Western-owned factory.

Motorists in the nine western states know what a tire should do. Their purchases show that C-T-C does it!

Come in and let us show you this remarkable tire.

Billy Evans Says—

By BILLY EVANS "I HAVE a mighty good ball club," remarked Connie Mack to me when I dropped in on his club at Ft. Myers, Fla., during spring training.

"The stuff is there, all the boys need is the will to win." "The moment they are of the opinion that the Athletics is a mighty good club, it is going to be a hard team to beat."

"The A's have been a second division club for so many years, it is a difficult matter to get the players in a different frame of mind."

"My ball club this year is a first division aggregation. Any team that sticks around the first division has a chance to win a pennant."

"All the boys need is the will to win, the proper mental attitude."

Then the genial Connie excused himself to lead the boys in skull practice, as all baseball gatherings are known, prior to going on the ball field.

The Athletics were to meet the New York Giants that afternoon and Mack wanted action.

In the two games prior to the contest with the Giants, the Athletics had been beaten, played sloppy ball. Mr. Mack was far from pleased.

What Mr. Mack said to his proteges that afternoon will always remain a mystery. Suffice it is to say that the words instilled into the noble athletics the will to win.

In the first two innings Simmons and Hauser hit for home runs, one of the wallops coming with two on, the other with the bases loaded. The Athletics won the game in a canter.

During the first month of the American League race the Athletics have performed with the will to win and have been in the first division all the way.

Baseball Puzzlers

IT IS the last of the ninth and the home team is trailing by one run, the score being 4-3.

With runners on second and third and two out, the manager of the home team sends in a pinch-hitter to bat for the catcher.

The pinch-hitter fails to notify the umpire of the change. On the first ball pitched he hit safely, scoring both runs needed by the home team to win the game, 5-4.

The team in the field then discovered that the batsman who had hit safely was a pinch-hitter who had neglected to make known his entry into the game.

They raised the contention that such a failure made him the improper batsman and that the catcher, the proper batsman, should be called out because of the error.

What about it? The Answer. The home team won the game, 5-4. The two runs driven over the plate by the unannounced pinch-hitter counted.

While the pinch-hitter was at fault when he failed to notify the umpire of the change, yet the omission did not make his hit void.

The rule states that the substitute who enters the game immediately takes the place of the regular in the lineup and that any of his acts are legal, regardless of whether he is properly announced.

THE NUT CRACKER BY JOE WILLIAMS

KING SOLOMON, the Panama heavyweight, being wondrous wise, lets it be known that he doesn't care to exchange punches with M. Dempsey.

The Yanks' infield without Everett Scott at shortstop looks stranger than a tramp comedian without a patch on the seat of his pants.

Ray Schaik caught a ball thrown from a skyraider and it blasted his hands. . . . Differing from the average high ball which blisters your tonsils.

Walter Johnson would make a great congressman. . . . We see by the papers he has 108 whitewashes to his credit.

The experts are asking, "Are the Athletics playing over their heads?" They seem to be playing over the heads of seven other teams, anyway.

Hindenburg has sworn to shield the German people from misfortune and misery. . . . This may or may not mean he plans to abolish wrestling.

Miss Lillian Leitold of the circus turns over 120 times in midair without stopping. . . . Why?

The other day all the clubs in the National League had a rest and you can imagine how the fans in Pittsburgh must have enjoyed that.

Caddies who use profanity are to be barred from Cleveland courses. . . . This is too bad. It means they can never hope to grow up and get engagements on Broadway as actors.

Rodolfo, the eminent bull fighter of Spain, is a multimillionaire. . . . Indicating that he not only can throw it but his control is perfect.

Well, it will be four or five months yet before you get to read the line, "Grange Skirts Left End for Ninety."

And one wonders whether or not the defending champion in the Fly Swatters Sweepstakes has gone into heavy training for this year's combat.

Woman Sues Over High Skirt Styles

LOS ANGELES, Cal., May 22.—California's highest court has been

asked to decide the high skirt issue of Myrtle M. Kirsch. Mrs. Kirsch sued a Los Angeles grocery firm for \$50,000 damages, alleging that one of the defendant's delivery men had struck and injured her in such a way that she has since been unable to wear short skirts without being in pain and mental anguish. . . . The superior court awarded her \$500 but the defendant company demanded the amount too high and filed a writ with the supreme court.

"Got The Real Thing" For five long years I suffered with stomach trouble and what the doctors called gall stone colic, and all said nothing but an operation would do me any good. A friend who had taken your medicine advised me to try it, and I found it to be the real thing. I feel better than I have in eight years and I am praising God for Myrtle's Wonderful Remedy. It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allows the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis.
