Forest Plane Patrol Plans Near Ready

Arrangements are being made in San Francisco for the establishment of the forest airplane patrol in Eugene this summer, reported Captain Donald Wilson of Bolling field, Washington, D. C., who stopped off in Eugene today on an air trip from San Francisco to Seattle.
" Eugene has an aviation field of which the city should be proud," said Captain Wilson. "The fame of this field is carried the length and breadth of the United States by every flyer who makes a stop in this city. Anyone who has ever flown an airplane can tell you what a relief it is to encounter a real landing field. I think Eugene is far ahead of many of the cities on the Pacific coast in its vision, through providing such a field for this purpose."

SHEEP HERDER SLAIN IN FIGHT ABOUT FLOCKS

Southern Klamath Area is Scene of Fatal War Between Owners
Timothy Murphy Dead While Frank Way is Charged With Killing
KLAMATH FALLS, Ore., May 25.—Timothy Murphy, 40, Klamath Falls sheep grower, is dead, and Frank Way, also a sheep operator is held here in the county jail on an open charge, as the result of a fist fight to a finish in the desolate Devil's Garden country in southern Klamath county, according to reports received by county officers.
The account of the affair said the two men came to blows over a black sheep. Only an occasional stray heard or sleepy rattlesnake witnessed the bloody battle, as the two men fought and tumbled about among the dusty sagebrush clumps and slate-like lava rock.

FIRST PHOTOGRAPH OF HINDENBURG INAUGURATION

Bristling arms were much in evidence as Hindenburg, former war lord, became Germany's new president. His first act after being inducted into office was to inspect his troops.
This is one of the first pictures of the inauguration of Hindenburg as Germany's president. They were taken at noon and afternoon at Berlin, May 12. Fast airplanes relayed the photographs to Southampton to make connection with the Majestic. The Majestic came into Quarantine at New York early May 19. It was met by a fast boat chartered by NEA Service. After clearing customs this boat sped to New York City where record-breaking time was made in dispatching the pictures to The Guard. Never before have newspapers traveled from Berlin to the United States in seven days or less than seven days. Only a few years ago that was record time for a crossing direct from London.

PARTY ABSENT 3 DAYS NOW IN POLAR SEARCH

World Anxiously Waits on Return of Expedition By Airplanes
Both Alarm And Hope Mingle in Expressions Of Those Interested
NEW YORK, May 25.—Up to 2:11 o'clock this afternoon the North American Newspaper alliance had received no word from the Amundsen-Ellsworth seaplanes since their departure Thursday afternoon from King's Bay, Spitzbergen, for a flight to the North Pole. This was announced at that hour through the Associated Press by Loring Pickering, general manager of the alliance.
NEW YORK, May 25.—(AP)—Mingled expressions of pessimism and optimism are voiced by explorers and aviators here regarding the fate of the Amundsen-Ellsworth polar expedition. The Norwegian explorer, his American backer and their four companions have not been heard from since they left Spitzbergen for the pole in two airplanes Thursday night.
Persons most familiar with Captain Amundsen and polar exploration see nothing alarming in his failure to return to his base in 24 hours as originally planned. Earl Rossman, a photographer who lived in Amundsen's supply hut at Wainwright, Alaska, thought that Amundsen's thoroughness was probably responsible for the delay.
" If he has found a new continent he will bag it so thoroughly that nobody will be able to question it," Rossman said.
Others feared a forced landing, injury to either the planes or men or both, or some accident in either landing or taking off for the return. It was pointed out, however, that the expedition carried sufficient food for a month and that at the expiration of that time the party should be in territory where it could kill game. Rifles and ammunition for this contingency were carried in the planes.
Vernon S. Prentice, brother-in-law of Lincoln Ellsworth, believed the planes would land in Alaska. Mr. Prentice said he felt no concern because of the delay and that he expected no word until tomorrow. Amundsen's desire to find new lands would probably lead him to steer for Alaska, Mr. Prentice said.
This view was shared by Vilhjalmur Stefansson and other explorers, although dispatches from Nome three days ago on the probability of Amundsen's aiming for the American peninsula.
No concerted plans for a relief party have been made but the American expedition of Commander Donald MacMillan is leaving Boston for the Arctic in June and the United States navy dirigibles Los Angeles and Shenandoah may be utilized in case of necessity. Commander MacMillan already has expressed his intention of going to the rescue provided there is a call.
COPENHAGEN, May 25.—(AP)—There is no confirmation here of the report printed in London by the Daily Mail that Captain Roald Amundsen had returned yesterday to his base at King's Bay.

BANK EXAMINER TO GET COURT ORDERS

SALEM, Ore., May 25.—Circuit Judge I. H. McMahan today issued an order directing Frank C. Bramwell, state superintendent of banks, to appear in court Wednesday morning at 10 o'clock and show cause why he should not be punished for contempt of court. The action came when Bramwell failed to obey an order from the court Saturday directing him to be in court this morning.
The presence of large crowds in Dayton to attend today's preliminaries has brought the suggestion that a temporary court room should be erected on the baseball park site.
The proposed building would seat 20,000 persons.
Snoopes was held for action by three magistrates at a preliminary hearing three weeks ago. He expects to be indicted.

RAIL COMPANY NOT TO PRESS REQUEST TO CLOSE STREETS

Withdrawal of the request of the Southern Pacific railroad for the closing of a number of streets that cross the tracks of the company in the eastern part of the city will be made by the company, according to a telegram received this morning by Carl G. Washburne, chairman of the traffic committee of the Eugene chamber of commerce.
The following is the telegram received by Mr. Washburne:
"Confirming conversation with the members of the traffic committee in view of our very friendly relations with the people of Eugene and because of apparent opposition to the closing of certain streets in Eugene which was set for a hearing May 25 we are agreeable to withdrawal our request that those streets be closed regardless of the hazard which such crossings create. By reason of growing population and greater use of crossings by automobiles it is advantageous to all concerned to limit the number of grade crossings to a minimum. However, we have no desire to attempt to force any conditions not entirely agreeable and have therefore requested the public service commission to discontinue our request for a hearing without prejudice and I would ask the traffic committee of the chamber of commerce to so inform those interested.
" E. L. KING,
" Superintendent of Linn in Oregon."

Movie Scenes May be Taken In Lane Areas

A location that will include a log jam with plenty of mountains in the background, is sought in Lane county by Frank Brount, of the Famous Players-Lasky company, for location of a western picture that his company is to make in the near future. Several logging scenes are included in the scenario, and the company desires to get the true "big timber" atmosphere, says Mr. Brount.
Several regions around here have been examined by Mr. Brount, and he says that there is a good chance that some spot in this section of the country may be picked for the action shots. A real mountain stream, with real logs in abundance, are the first essentials, he says. The location man left today for Washington, after inspecting the Coos Bay region. He will return later, and will announce the locale when he returns to Los Angeles.
The company plans to send quite a company for the "shots" it is said, since they are to be in one of the big pictures of the year.

Tax Publicity has Courts Authority

WASHINGTON, May 25.—(AP)—Newspapers which published lists of income taxpayers and the amounts they paid last fall were upheld in doing so today by the supreme court. The court declared the newspapers were not guilty of a violation of the law in publishing income tax lists made available to public inspection in the offices of collectors of internal revenue.
The opinion was delivered by Justice Sutherland, who said it was clearly the intention of congress to make the lists public, whatever some person may think of the wisdom of such a policy. Making them public, he said, carried with it the right of the newspaper to publish them. No dissent was announced in the finding of the court.
