

Nemo-flex

Combinations
Emphasize the Slender Lines of youth

Very light and flexible, Nemo-flex Combinations make figure lines that are often exquisitely delicate. In so doing they are also remarkably comfortable and convenient, conforming as they do with the modern woman's demand for simplicity in dress. The model illustrated is side-closing, has a cross-boning over diaphragm, surgical elastic insertions and light boning to the top of the garment to insure the desirable flat-back. Made in dainty, novelty stripe materials or brocades.

There are five types of Nemo-flex Combinations to fit as many types of figures.
