

LOCAL MERCHANTS AID ROAD PROGRAM IN OAKRIDGE AREAS

Eugene merchants placed themselves actively behind the move to improve the roads to Oakridge in time for the End of Steel celebration July 4, in a resolution adopted unanimously at the meeting of the chamber of commerce today.

The resolution proposes immediate action in putting a caterpillar tractor and scraper on the road, and reads as follows:

"Whereas, Complaint is made that the roads to the Oakridge district are in bad condition, amounting at some points almost to a condition of impassibility, and

"Whereas, The residents of Oakridge district have complained that there is insufficient interest in Eugene on the subject of improving the roads to the Oakridge district,

"Now, therefore, be it resolved, That the chamber of commerce of Eugene place itself on record as favoring the earliest possible action looking to the improvement of the roads to the Oakridge district.

George H. McMoran presented the resolution, which came as a result of a letter to Dr. L. W. Peate, chairman of the July 4 celebration at Oakridge, asking co-operation in the project.

Rodeo is Boosted.

"We have booked a rodeo that will include a carnival covering an entire block," said Dr. Peate. "We will have passenger planes, stunt planes, horse races, foot races, and novelty contests, bucking and falling and rock drilling, brass band, prize fights, wrestling, dancing, free barbecue, and many other amusements. We feel appealing to Eugene for consideration we are fully justified. If a balance sheet could be made of all the banking done in Eugene by Oakridge concerns it would surprise even the banks. One Oakridge merchant alone shows that he paid Eugene wholesale houses over \$50,000 last year."

Bishop is Speaker.

Bishop Walter C. Sommer of Portland, in Eugene for his annual visit and address to university students, spoke to the chamber on the desirability of international understanding and the need for American people promoting a better world feeling to prevent future wars.

Bishop Sommer is a radio fan, holding the title of Grand Sermon of the Oregonian Hot Oils. He declared himself in favor of a broadcasting station for Eugene, to be financed in part by the chamber of commerce. Such a station, he said, would be of inestimable value as a means of exploiting the advantages and resources of Eugene and Lane county.

'Jonah and Whale' Popular Subject At Revival Meet

"Jonah and the Whale" was the topic delivered by Evangelist Benham at the big tent revival meeting last night. It is one of Rev. Benham's most popular lectures, and was well received by a large audience.

During the presentation of the subject some very interesting points were brought out showing Jonah's experiences were typical of the history of Israel and he explained Jonah's three days in the whale, as being comparable to the three days spent by Jesus in the heart of the earth.

The services are all well attended, and much enthusiasm is being manifested. Musical services are featured each night, and crowds are increasing in size.

Venison Expensive, Beck man Learns

Nick Andrews of Beck was fined \$50 yesterday in the justice of peace court at Mapleton, on the charge of having venison in his possession.

The arrest was made by Rodney Roach, deputy state game warden, who served out the warrant before Judge J. E. Goude, charging Andrews with having the deer meat. The prisoner pleaded guilty to the offense and paid his fine.

Shrine Hospital in Montreal Opened

Masons from all over the United States and Canada attended the dedication of the new Shrine Hospital in Montreal, built for the care of the indigent crippled youths irrespective of race or creed by the Shrine of North America.

Teddy Sloan of Richmond, Vt., one of the patients of the hospital is shown in the picture.

RAILROADS ARE HIT BY MOTOR HAULING

(Continued from page one)

take to assume that the railroads are not intensely interested in the possibilities of that field. In some localities, he pointed out, motor cars already have been installed by rail lines.

Neither that ask "what are the railroads going to do about motor truck?" it would be more appropriate, he said, to ask what the public is going to do about it.

"Railroads cannot maintain service indefinitely," he said, "where their trains are not patronized.

"The railroads are not trying to eliminate the motor vehicles but merely wish to bring all phases of the question before the people so they may realize the unfavorable reaction against themselves in diversion of business needed to pay the running expenses of the railroads."

MOTOR TRUCK IS TOPIC

CHICAGO, May 28.—(AP)—Secretary of Agriculture W. M. Jardine told the mid-west transport conference here today that there is "no basis for the fear that the motor truck is going to compete seriously with the railroads, but that the motor truck has found its place in the short haul, he said, and it is not taking over any business that the railroads can do as well or better, the truck is not invading the long haul field.

"We can help the motor vehicle find its place by wise restraint of its more enthusiastic proponents and by refraining from regulation which may have a crippling effect," Mr. Jardine suggested.

"The motor vehicle," he said, "has given to highway transportation a new usefulness and the public has expressed its belief in it by an enormous investment. Road builders and vehicle manufacturers must cooperate in order that the roads shall be built to carry the vehicles and that the vehicles shall not overburden the roads. Railroad, waterway and highway transportation should be coordinated in order that each shall be developed to its highest point of usefulness without taking from another the functions which the other can perform to the better advantage of the public."

Canada now exports to the United States one sixth of its total production of electrical energy.

CHILDLESS HOMES

Read Mrs. Benedict's Letter Praising Lydia E. Pinkham's Vegetable Compound

Kewanee, Illinois.—"When I was married about a year and a half I took Lydia E. Pinkham's Vegetable Compound and I became healthy because of ill health. I did not have any children. I now have two healthy little girls and I am sure I would not have had them had it not been for your medicine. Last spring and summer I got all run-down, irregular, and I had awful headaches, and my back and side hurt me so that I could stay up only a short time. My limbs would get so tired and ache till I could cry. I started to take the Vegetable Compound again and used the Sanative Wash, and it was not long till I was relieved. Now I do all my own work and help others. I am astonished to see me now as I was always sickly when in my teens and until I started taking the Vegetable Compound."—Mrs. MARY R. BENEDICT, 313 Payson St., Kewanee, Ill.

SINCERITY ADVISED BY BISHOP SUMNER IN ASSEMBLY TALK

On renewing his annual visit to the university campus, Walter Taylor Sumner, bishop of the Episcopal diocese of Oregon, said at the assembly this morning, emphasizing in an address on "Border Lines," the greatest problem facing the university students today, the lack of self-discipline and sincerity.

The bishop advised sincerity in the three phases of life, education, morals and religion, quoting what Edwin Hopkins, president of Dartmouth college, believes the greatest fault university men and women have, the fault of not thinking deeply on such matters. The important activities in the world of business, politics and affairs of state must all go distinct and clear cut in their issues, for that which tends toward insincerity tends toward failure, he said. His talk was to aid the young people in the art of living.

"There are the globe-trotters and the publicity seekers who expect to attain happiness through these methods, but there is a definite philosophy that will give us that which we seek," Bishop Sumner stated. "That philosophy is to keep as far away from the line of demarcation as possible. Hold clear and concise views on all things, education, morals and religion, and stay by those views. As we approach the border lines of believing and not believing, we are treating on dangerous ground."

We are living, it was explained, in an age of receptivity, in which we receive everything and give nothing in return. We go to movies, sit and enjoy the show and don't have to applaud the actors to show our appreciation. We go to church, and are prayed for and preached to and we merely sit there. Everything is done for us, and it takes self-discipline to make ourselves work to attain some definite goal.

He outlined what approached the border lines in each of the phases of life, saying:

"In learning we must not merely accept what is taught us, but make use of it."

Father, son Fined On Assault Charge

A. L. Terrill and son Glen Terrill were on trial late this afternoon before Judge Gilmor, on a charge of disorderly conduct. It was alleged that the two men entered the G. C. Moir garage at 942 Olive street and assaulted J. S. Stephens and G. C. Moir. A. L. Terrill was fined \$25 and his son \$5.

Judge Barnard at Highway Meeting

Judge C. P. Barnard of the county court went to Portland today to attend the meeting of the state highway commission, to convene for a three-day session, May 28, 29 and 30.

The chief action in which Lane county is interested will be letting of the bids for grading the ends of the Hendricks bridge. This work involves about half a mile of grading and bids will be let at this week's meeting of the commission.

Logger Fined on Fire Law Charge

Edgar Hannan, logging operator of Veneta, appeared today before Justice of the Peace Harold J. Wells and was fined \$25 and costs on a charge of having insufficient fire fighting equipment on his donkey engine. He was cited to appear by Frank M. Hoover, state fire law enforcer, and he pleaded guilty to the charge.

The law states that each donkey engine must have 200 feet of hose, and Mr. Hannan's engine had but 100 feet. He was also deficient in regard to a tool box and other equipment.

Kills Catarrh Germ In Three Minutes

Chronic catarrh, no matter how bad, and cases of bronchial asthma now yield instantly to the amazing discovery of a French scientist. This drugless method called Lavex kills the germ in three minutes, yet is positively harmless to the most delicate tissues. Your head and lungs are cleared like magic. Sufferers are relieved in a single night.

To prove it, and to introduce Lavex to a million sufferers in one month, I offer to send a treatment free and provide to any one who will write for it. No obligation. No cost. If it cures you, you can repay the favor by telling your friends—if not, the loss is mine. No matter what you have tried, just send me your name and address for this generous free treatment and prove that you can be rid of catarrh.

Married Woman Eats Only Bread and Milk

"I could eat only bread and milk, everything else soured and formed gas. Since taking Adierka I can eat anything without causing gas." (signed) Mrs. J. R. Manning. ONE spoonful Adierka removes GAS and often brings astonishing relief to the stomach. Stops that full, bloated feeling. Excellent for obstinate constipation, often removing surprising amounts of old waste-matter you never thought was in your system. Allen's Drug Store, 86 9th Ave. East.

Silver Service of Battleship Asked

SALEM, Ore., May 28.—Governor Pierce yesterday sent a telegram to the secretary of the navy asking his efforts in helping the state of Oregon locate the silver service that was once the property of the battleship Oregon and which was presented to the ship by the people of the state when it was commissioned. The cost of the set was \$25,000 and the service appears to have disappeared when the Oregon went out of commission. Possibly, it is believed, some quartermaster may know where it is.

Albert Ira Pettengill Dies Suddenly

Albert Ira Pettengill, resident of Eugene for the last 12 years, died suddenly this morning at his home, 963 Polk street, at the age of 70 years.

Mr. Pettengill was a retired farmer of Lane county, and besides his wife, Mrs. Medora Pettengill, he leaves

Swimming Course to Be Continued at Y

The swimming season for boys at the Y. M. C. A. scheduled to end tomorrow night will be continued on Monday, Tuesday and Friday of next week, announces E. P. Hobbeman, physical director. Lessons to beginners and those who are just learning strokes in swimming will be given on these days, it is stated.

Nearly 50 boys have successfully passed the 45-foot swimming test already, it is announced, and several others have nearly reached this degree of proficiency. The course has proved very popular, and may be repeated later, it is stated.
