NEW LIFE for TIRED APPETITES

Is your appetite hard to please these days? Does it seem listless and tired? If so, it's not hard to find the reason. You more than likely are not offering it the proper summer foods. It depends largely on your diet whether or not you can keep going at top speed during the warmer weather.

That's why SHREDDED WHEAT has a regular place these days on the menus of thousands of people. SHREDDED WHEAT is light but full of nourishment—a perfectly balanced food easily digested. It appeals to summer appetites.

Try two SHREDDED WHEAT Biscuits topped with strawberries. It's a happy combination—a breakfast or mid-day dish which cannot be imitated.
