

City News

THE WEATHER

Oregon: Unsettled, probably light showers tonight and Wednesday; light variable winds. Temperature: Minimum today, 45 degrees; maximum Monday, 70. Precipitation, .19 of an inch. Stage of river, 4 feet. Direction of wind, south.

Farming Good

Although the Coos Bay area, like other parts of the state, feels the effect of the general lumber depression, the farming situation there is excellent, according to P. E. Snodgrass, president of the First National bank of this city, who with Mrs. Snodgrass returned last evening after a week-end trip of a week. This is the first trip of Mr. Snodgrass to the Coos Bay district. "There are a large number of dairy farms around Coos Bay and this phase of activity is excellent. I was surprised at the large amount of fine farming land and the big development under way in the area," the bank president says. The motor route to the Coos Bay area by way of Roseburg is fine and Mr. Snodgrass states that he recommends this as a week-end pleasure trip for local motorists.

Towing Service Planned

Free towing service in case of emergency will be provided for the members of the Oregon State Motor association about the middle of this month, according to present plans being made by George O. Brandenburg, manager of the association, who is here today. Mr. Brandenburg states that he has practically completed negotiations for a local garage to care of this service for this month. An arrangement will also be made whereby exchange towing service will be provided between the Eugene and Oregon motor clubs. W. Jones of this city has been appointed as a representative of the Eugene association in Lane, Linn, Lincoln and Benton counties, the manager of the service.

Plans For Eugene

E. G. Collins, formerly local manager of the Shell Oil company here and now holding a similar position with the company at Kent, Wash., has a long stay in Eugene and in the city to the Eugene Guard to review his subscription he states that he wishes all tourist cars coming through Kent in hopes of spotting "Eugene" banners. More Eugene tourists should carry the name of the city on their cars is the wish expressed by Mr. Collins. "I can't get a complete feeling for Eugene until I visit there in September," Mr. Collins, who resided here for 25 years, writes.

President to Speak

L. L. Ray, former president of the Chamber of Commerce, will be the speaker at the Thursday noon session of the organization this afternoon, according to announcement today. About 25 members of the Junior Chamber of Commerce of the Eugene Chamber of Commerce will attend the luncheon at the city apartment of the high school which will provide a vocal program. Mr. Ray will speak on the need to the community of keeping young men to school rather than to have them go to work to make their career.

Tests Set

Testing of cattle for tuberculosis is started tomorrow in the Coos Bay area and farmers who desire to have their herds inspected are advised that Dr. Thompson, federal veterinarian, will make the trip above. No definite schedule has been set for the doctor but announcement at the office of O. S. Fletcher, who was with him through farms where a large number of herds have been inspected in Lane during the past several weeks by Dr. Thompson.

Literature is Asked

From Chester, Penn., comes a request to the Eugene chamber of commerce for a copy of "The Heart of the Matter," and other published literature for use in school. Several requests have been made at the chamber for literature for the grade and high schools of this county are now including a study of this book as part of the civics program. Many pupils of the Eugene schools have obtained copies of the booklets issued by the local chamber for school study.

Patrol Planned

Arrangements for the summer patrol in the forest area owned by the Coos-Kelly Lumber company in Coos and Lane counties, M. J. Skinner, manager of the patrol for the Coos-Kelly Lumber company, is in that district. All trails and telephone lines will be inspected and repairs made where necessary, according to announcement today of the patrol. The fire patrol in the Coos-Kelly Lumber company is approximately 400,000 acres.

AMERICANS FIRED ON

20 Die From Mid-West Heat

TERRIFIC WIND STORMS CAUSE HEAVY DAMAGE

Region From Nebraska to Ohio Swelters in Record Wave

East Also Hit; Four Die And Score Injured in Wind Storms

CHICAGO, June 2.—(AP)—A score of persons dead and as many more injured in the middle west was the toll today of the heat wave and ensuing wind and electrical storms which hit the middle west and caused its residents to avoid promised cooler weather with panting breath. From the Nebraska sand hills to Ohio, the heat was general. In several places it set records for the year and for June firsts of all recorded time. Then the humidity which covered the central states like the proverbial blanket, was pierced here and there by thundershowers and terrific gales.

CHICAGO, June 2.—(AP)—What does Luther Burbank think of evolution? What does the famous plant scientist think about the Tennessee controversy, in which a law against the teachings of evolution is being tested? In an exclusive interview with NEA Service, Burbank left no doubt as to his evolution belief. He declared: "Evolution is truth, and truth must win and prevail. Every nation that does not believe will eventually disappear from the earth. The indictment of a Tennessee teacher for teaching evolution in a high school in that state is a step one thousand years backward. All my work with plants here in Santa Rosa daily demonstrates evolution. John Deere, all life is evolution. Ignorance always has and always will fight evolution for evolution is growth. The people, the groups, who are combatting the theory of evolution have not found the truth and do not believe in it. They must be educated. The theory of evolution should be taught in public schools. Young children should be instructed in the truth and evolution is truth. Daily I am working on new plant species which are produced through a knowledge of the laws of evolution and which can be produced in no other way. When I first came to California there wasn't a plum grown here which would stand the long journey to the eastern markets. I therefore produced many varieties which would keep in a salable condition until they reached the markets in New York and Chicago and other eastern and European markets, simply through the knowledge and application of the well known laws of evolution. Evolution is contrary to theology, which may account for some of the animosity it has aroused, but it is not contrary to religion. Theology is man-made, religion is not. Truth is supreme. All life on this planet is one Unit." (Continued on page five)

Backs Evolution

IGNORANCE FIGHTS EVOLUTION, SAYS LUTHER BURBANK

(By NEA Service)

SANTA ROSA, Cal., June 2.—What does Luther Burbank think of evolution? What does the famous plant scientist think about the Tennessee controversy, in which a law against the teachings of evolution is being tested? In an exclusive interview with NEA Service, Burbank left no doubt as to his evolution belief. He declared: "Evolution is truth, and truth must win and prevail. Every nation that does not believe will eventually disappear from the earth. The indictment of a Tennessee teacher for teaching evolution in a high school in that state is a step one thousand years backward. All my work with plants here in Santa Rosa daily demonstrates evolution. John Deere, all life is evolution. Ignorance always has and always will fight evolution for evolution is growth. The people, the groups, who are combatting the theory of evolution have not found the truth and do not believe in it. They must be educated. The theory of evolution should be taught in public schools. Young children should be instructed in the truth and evolution is truth. Daily I am working on new plant species which are produced through a knowledge of the laws of evolution and which can be produced in no other way. When I first came to California there wasn't a plum grown here which would stand the long journey to the eastern markets. I therefore produced many varieties which would keep in a salable condition until they reached the markets in New York and Chicago and other eastern and European markets, simply through the knowledge and application of the well known laws of evolution. Evolution is contrary to theology, which may account for some of the animosity it has aroused, but it is not contrary to religion. Theology is man-made, religion is not. Truth is supreme. All life on this planet is one Unit." (Continued on page five)

BRYAN CONTINUES TO AIR HIS VIEWS

CHICAGO, June 2.—(AP)—William J. Bryan continued both here and at Urbana, Ill., to expound his theory of the issues at stake in the Tennessee evolution law case, a new move was made in Tennessee when John K. Neal, defense counsel for J. T. Scopes brought the biology text book situation of the state under fire. Scopes was charged with explaining the theory of evolution to students after he had read a passage from a biology text book authorized by the state. Mr. Neal, in a letter to Governor Austin Peay, urged that the selection of a text book on biology for use in the high schools be deferred until the Scopes case was decided, threatening criminal prosecution against the book commission if it chose a work containing any reference to evolution. Declaring that every standard work on science accepts evolution and that he was sure no scientists would consent to have his book mutilated to fight the Tennessee law, Mr. Neal said that if the anti-evolution law was upheld after the commission had adopted a book accepting evolution, science teachers of the state would be in the same position as Scopes—of either refusing to comply with his duty to teach the books selected or of violating the law. Mr. Bryan delivered addresses here and at Urbana.

Shepherd Jury Selection Slow

CHICAGO, June 2.—(AP)—Interrogation of witnesses in the process of selection of jurors to hear the trial of William J. Shepherd charged with the murder of his foster son, William X. McClintock by 12 grand jurors continued today with more than a dozen operators present. Only four jurors have been sworn in although the trial entered its third week yesterday.

APPOINTMENTS TO FISH GROUP MAY NOT HOLD

Injunction Proceedings Are Hinted in Legal Circles At Salem

Appointments Said to be Clearly a Violation of Constitution

SALEM, Ore., June 2.—In legal circles here today opinion is voiced that the state fish department will be thrown into chaos by injunction proceedings from some source, not yet revealed, to prevent State Senators Beals and Garland from serving as members of the fish commission. They were appointed yesterday by Governor Pierce, following a conference with several state senators, in which Beals and Garland both participated. The appointments, it is pointed out here, are clearly in violation of the state constitution in two different ways. In the first place, it is explained, the constitution prohibits a member of the legislature from accepting any other lucrative state office, and fish commissioner is a lucrative office, inasmuch as the members receive \$5 a day for each day they are on business of the commission. The other violation of the constitution, it is claimed, is in the part the senators took in the appointments. The constitution provided that the governmental affairs of the state shall be in three departments, legislative, executive including administrative, and judicial, and that no person connected with anyone of these shall infringe upon the other. Since the state senators are said to have dictated the appointments it is pointed out that they infringed upon the executive and the administrative department.

APPOINTMENTS MADE

SALEM, Ore., June 2.—Fred A. Beals of Tillamook, state senator from Tillamook county, and S. M. Garland of Lebanon, senator from Linn county, yesterday received appointment as members of the state fish commission. Beals to succeed E. P. Kendall of Portland, whose term has expired and Garland to succeed John C. Veatch of Portland, who has resigned. Governor Pierce appointed Beals and Garland following a compromise agreement after a conference during most of the afternoon with Garland, Beals, R. L. Eddy of Roseburg and George Joseph of Portland, the two latter members of the state senate. (Continued on page two)

MONEY ASKED IN PLACE OF VETOED SUMS

Total of \$80,000 Will be Sought of Emergency Board of State

Not All of Total is Based On Vetoed Appropriations, is Word.

SALEM, June 2.—The state emergency board, at a meeting called for next Saturday by Secretary of State Koser, will be asked by various state officials to replace financial sums that were vetoed by Governor Pierce through his item veto power when appropriation bills were placed before him just after the adjournment of the legislature. A total of about \$80,000 will be asked of the board Saturday, not all, however, based on vetoed appropriations. The most important item will be a request for funds to administer the act requiring that all motor vehicle owners file with the secretary of state certificate of ownership of their cars, showing all liens against them. Inasmuch as the act creates a new department in the secretary of state's office, which will be highly expensive and since the act failed to appropriate money for the purpose, the emergency board is now called upon. Just how much will be asked has not been decided. One of the items vetoed by the governor was a \$16,000 appropriation for a sewer system and sidewalks at the Monmouth normal school. The board will be asked to provide for that. J. D. Mickle, state dairy and food commissioner, will ask the replacement of \$4508 for his department, also vetoed by the governor, and C. A. Park, chairman of the state board of horticulture, will ask \$5,000 to continue the fight against alfalfa weevil in eastern Oregon, likewise a vetoed item. The sum of \$400 will be asked to pay the pension of Raleigh G. Wilson of Corvallis, who was permanently injured while serving as a member of the Oregon national guard. Provision also will be asked for traveling expenses for circuit judges.

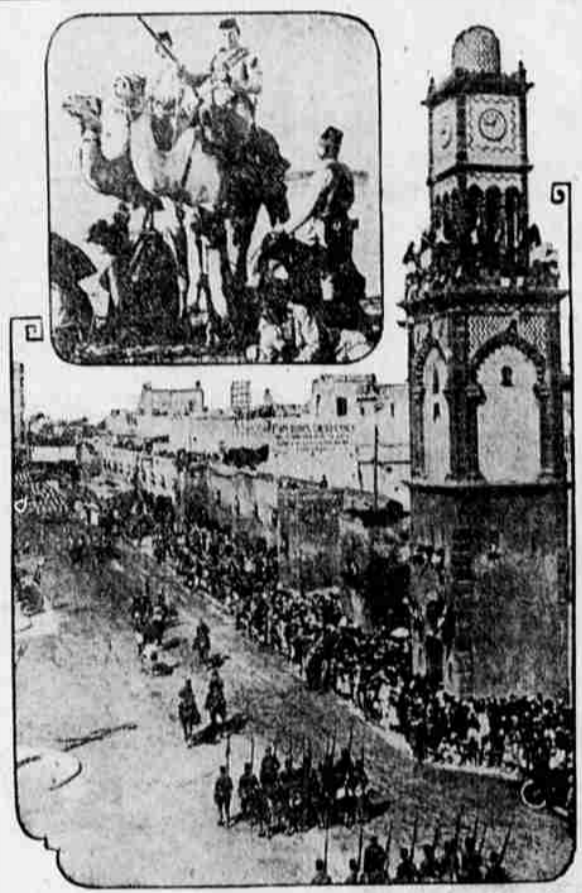

Baseball Results

NEW YORK, June 2.—Babe Ruth made his first hit of the major league season today in the second game of the series between the Yankees and Washington Senators. A single to right center in the fourth inning was followed by a double in the eighth. NATIONAL At Philadelphia— Boston 12 18 2 Philadelphia 5 9 1 Batteries: Gonschick and O'Neil; Mitchell, Ulrich, Vines and Henline. At Brooklyn, 12 innings— New York 5 18 11 Brooklyn 6 14 1 Batteries: Nehf and Wagner; Gowdy, Petty, Osborne, Hobbell, Greene and Taylor. AMERICAN At New York— Washington 5 12 0 New York 8 16 0 Batteries: Murrin, Russell and Ruel; Shoemaker, Ferguson and Herzog. At Boston— Philadelphia 15 19 1 Boston 2 9 0 Batteries: Brumel and Cochran; Lacey, Wingfield, Fuhr and Peinlich, Stokes. At Cleveland— St. Louis 8 11 1 Cleveland 4 9 0 Batteries: Gaston and Blanton; Miller, Edwards, Yowell and Myatt.

POST ADJUTANT TO RECEIVE NEW DUTY

After two years as commandant of the Eugene corps of the Salvation Army, Adjutant and Mrs. Jessie Roe will soon be transferred to some post in the western territory. The staff officers council is now in session at San Francisco and at this time the assignments for the coming year will be made. It is usual to change the corps commandants each year but Adjutant and Mrs. Roe were retained at the Eugene post last year. The present Eugene corps commandants came here from Salt Lake City where they were engaged in Salvation Army work. No word has been received as yet as to who the new commandant will be here although this is expected within another week. Adjutant Roe states. The Eugene corps has shown a large increase in membership during the two years that the present commandants have been in charge.

French Colonial Troops Face Tribesmen

French forces are facing bitter fighting in their warfare with the Riffian tribes under Abd-el-Krim. The lower photo shows Colonial troops passing through Casablanca on their way to the front. Above are typical French Colonial camel cavalry, who are bearing the brunt of the Riffian attack.

CHINESE RIOT PARTICIPANTS SHOOT YANKEE

Thomas G. McMartin, Dentist, Wounded; Units Return Fire

Chinese Train Shots on Americans When Units Turn Corner

SHANGHAI, June 2.—(AP)—Chinese agitators made public appeals tonight on the streets of Shanghai for a general uprising to drive out all foreigners. Officials of the foreign settlements expressed confidence that they could handle the situation but admitted that the outlook was perhaps more grave than at any time in the city's history.

WASHINGTON, June 2.—(AP)—State department advices from Canton today described conditions there as "very critical."

Reports from Shanghai said the foreign consular representatives had asked for sufficient naval vessels to land two thousand men for guarding property.

AMERICAN HIT SHANGHAI, June 2.—(AP)—Chinese student riot participants today fired from house tops in three directions into Shanghai streets upon a unit of the American volunteer corps, shooting Thomas G. McMartin, an American dentist, in the back and killing the horse upon which McMartin was riding.

American and other foreign units returned the fire of the Chinese with carbine rifles and pistols. Lewis machine guns were mounted quickly in the streets and showered shots in the direction of the structure from which the Chinese started firing. The number of casualties was not estimated.

First Use of Rifles. The shooting of the American dentist, who was a corporal in the organization attempting with other foreign units to return order in Shanghai, marked the first use of rifles by the Chinese since demonstrations started last Sunday as a protest against the conviction of 16 Chinese strikers who left Japanese owned spinning mills near Shanghai.

The Chinese trained their shot against the Americans when the units turned a corner on Nanking into Tibet road in the vicinity of the famous Chinese amusement resort, "New World."

While the students were attacking the patrol units, shots were also fired into the Lunza police station from adjacent streets.

EIGHTH GRADERS OF EUGENE WILL FINISH JUNE 12

Eight grade pupils numbering approximately 162 are candidates for graduation into classes of high school grade June 12. It was learned today, when principals of Frances Willard and Geary Junior high schools prepared the lists of students who are candidates for promotion.

RIFFIAN CHIEFTAIN GATHERS TROOPS NORTH OF TAZZA

FEZ, French Morocco, June 2.—(AP)—Abd-el-Krim, the Riffian chieftain now appears to be concentrating of Tazza and Marshal Jgautey has his main forces in the region north of Tazza to that town to prepare for eventualities should the Moroccan leader launch a drive.

Abd-el-Krim is credited not only with the aim of cutting the railroad from Morocco to Algeria, which passes through Tazza, but the desire to establish himself in the mountainous and thickly wooded region thereabouts which is exactly suited to the style of warfare he prefers.

Many parts of the region are almost impossible of access and in addition the tribes living there are turbulent and always ready to participate in plundering raids.

RIFFIANS CONCENTRATING PARIS, June 2.—(AP)—The official statements regarding the Moroccan (Continued on page three)

THE FLAPPER WIFE

THE STORY SO FAR GLORIA GORDON, beautiful flapper, marries DICK GREGORY, struggling young lawyer. Her idea of marriage is fun and fine clothes... but no work or children!

Dick borrows his mother's maid, MAGGIE, to teach Gloria to cook. But she refuses to learn.

Dick has an attack of flu. While he and his secretary, MISS BRIGGS, are working at home, Gloria plans a house-warming. She asks STANLEY WAYBURN, an actor with whom she once was in love to be one of the guests. He accepts.

When Dick meets Wayburn he is instantly jealous, although the actor craftily devotes himself to MRS. MYRA GAIL. Gloria drinks too much and faints away while dancing with DR. JOHN REYMOUR, whose wife, MAY, is in love with JIM CARVER. The party breaks up when LOLA HOUGH scolds BILL, her husband, for getting Maggie, disgusted, leaves and returns to MOTHER GREGORY.

Then Gloria hires RANGHILD SWANSON, although Dick says they can't afford a maid. And she orders \$400 worth of new clothes, and insists upon a new car, leading Dick with debts.

She goes for a ride in the new car, after a quarrel with Dick, and meets Stanley Wayburn.

NOW GO ON WITH THE STORY "Why do you have need of me, just now?" Stan asked when the car was under way again... slowly, this time.

Gloria laughed gaily. "Oh, I don't know," she answered, "unless it's that you're always a sort of mental cocktail to me... you pick me up."

"You picked me up, just now," Stan persisted. "I did. I never was so glad to see anybody in my life. I was feeling blue... But tell me, what were you doing, rambling around the country all by yourself?" the girl asked.

Stan's hand in its suede glove came down on the wheel over hers. "I was thinking of someone whom I loved... and lost," he said.

"It was your own fault that you lost her... that is, if you mean (Continued from page seven)
