

DAILY PROGRAM OF SCOUT CAMP IS ANNOUNCED

Plans are rapidly getting under way for the annual Boy Scout camp to be held this year on Knowles creek near Mapleton, beginning July 13, reports Will Robertson. A large number of scouts have submitted names for the camp in the contest being conducted. Charles Paddock, scoutmaster at Oakridge, has applied for permission to join the Eugene camp with six or eight boys from that community. A delegation from Cushman are also expected to attend.

Mr. Robertson has also consulted with the leaders of the various troops going over details of the daily program, and says he is impressed with the rigid inspection which the scouts will go through twice daily. This inspection is in two parts—one of tents and quarters, including polling of grounds, cleanliness of mess kits and eating equipment, beds, etc., and personal inspection, in which the scout is looked over closely for signs of dirt or unkempt appearance.

Each tent will house one patrol of scouts, and will bear a totem pole in front. The patrol winning first place in daily inspections will get a blue stripe around their pole; second prize, a red stripe; and third, a yellow stripe. Formations and calls will be by bugle, in regular army style. Here is the daily program as outlined to the scouts by Mr. Clark:

- 6.15—Roll over and think about getting up.
- 6.25—All out! Throw out your chest and swing your arms, and then into the water for a great old bath to start the day.
- 6.50—Watch Old Glory as she's raised to the top of the pole.
- 7.00—"Ham an'."
- 8.00—Straighten up around your bunk and watch one of your camp officials mark your "hotel" the neatest one of the bunch.
- 8.15—A little work will just limber us up for a real day's program.
- 9.00—Chance to advance one more notch in scout craft.
- 11.00—The big swim.
- 12.00—Chow!
- 1.00—Take it easy!
- 2.00—4.00—Everything! Games and hikes, nature study, features, free time.
- 4.00—Another swim.
- 5.30—All dilled up in uniform. Everything in order in tents. Another looking over by the inspecting officer.
- 5.50—Retreat! Down the flag comes, slowly and with dignity.
- 6.00—Come an' get it while it's hot!
- 6.45—Trading post open.
- 7.00—More games.
- 8.00—Remember those old campfire songs.
- 9.00—Good night.
- 9.15—Turn out that light!

Would Shut Down Gas Works

"My stomach has been so filled with gas for the last three years that I felt I could pretty nearly supply our town. I also had frequent pains in right side in region of the appendix. Doctors didn't help much. One day my neighbor told me about what Mary's Wonderful Remedy had done for him and I got a bottle of our drugist. I can say that it will do all and more than you claim for it." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. At all drugists.

Cars Held in Lane May be Auctioned

Order of seizure on the Buick car owned by Mark Broom which was taken by the sheriff when Broom was arrested on a liquor charge has been filed. This is the third car now in the hands of the sheriff all of them taken while containing liquor. A Paige car was taken when Robert Hunsell Jr. was arrested and a Ford coupe when John Koepeke was arrested for transportation of liquor. If court orders are obtained these cars will be sold at public auction. It is not probable that the Koepeke car will be confiscated as the amount paid on the machine is not sufficient to meet the costs of sale and the risk of having to sell the car at a low bid, it is said.

M'KENZIE PASS TO OPEN JUNE 20

The McKenzie pass will be open to automobile travel before June 20, a week before the American Legion state convention in Prineville, and permitting automobiles from Eugene and western Oregon to make the trip by this route, it is announced by G. E. Hoffman, in charge of the bureau of public roads crew now working near the summit on the eastern side. Snow is melting rapidly, Mr. Hoffman says, and the big steam shovel on the ground near the lava cut, will be placed in operation this week. The big drifts that close the eastern approach to the cut will be removed by this shovel.

After the cut is cleared, the trac-

tor and grader will be moved over the summit, where the other snow fields block the road in patches. In the last few days orders have been received from the United States government to hurry the pass clearing work, and Mr. Hoffman declares it will be fairly complete by the time of the Legion convention.
