Sugar Price Lower-- Good news for housewives and home owners is the announcement of local commission houses that the price of sugar for this annual household event is lower now than since the middle of May, 1922. Prices as quoted by local dealers on carload shipments from San Francisco are \$8.40 to \$8.45 per hundred pounds. Although the heavy demand for sugar for home canning has just started indications are that there will be a considerable increase in the call for this year. Strawberries are now being purchased for canning in large quantities, dealers report.

Hill Lines Gain Sites at Klamath

MOVE HEMS IN S. P.; PURCHASE PRICE \$140,000

Klamath Falls Capitalist Sells Land to Railway Company

Deed is Mailed From Portland and Filed With County Clerk

KLAMATH FALLS, Ore., June 6. (AP)—Acquisition by the Hill lines of approximately 160 acres here for terminal sites became known today when deeds were filed with the county clerk. The property was purchased from Charles Wood Eberlein, Klamath Falls capitalist. Revenue stamps attached to the deeds indicated a purchase price of approximately \$140,000. Makes Plans Available

The land purchased by the Hill lines lies directly west of the present Southern Pacific terminal and makes available to the projected railroad new power plants of several of the larger mill operators now here, as well as the proposed sites of the Weyerhaeuser Timber company and the Sheelin-Hixon company. The Southern Pacific for the past several weeks has been negotiating with Mr. Eberlein for the purchase of about 15 acres of this land, but they were unable to reach an agreement as to the price. During the past week it was reported here that the Southern Pacific was planning condemnation proceedings against the property, but the outright sale of the land forestalls any such court action, it was said.

Mr. Eberlein Called Following his inability to reach an agreement with the Southern Pacific, Mr. Eberlein was called to Portland by Hill line officials, where he has been in conference all this week. It was reported here that the deed was signed Thursday. It was sent here by special delivery and filed with the county clerk immediately upon its arrival in the city this morning.

By acquiring this land, the Hill lines now have the Southern Pacific hemmed in on both sides, and make it impossible for the latter railroad to expand in any direction in the industrial section of the city, according to agents for Mr. Eberlein. Mr. Eberlein has reserved additional land to permit the Oregon Trunk to expand to any of the projected industrial plant sites near the proposed terminal.

"This demonstration marks a pivotal point in the economic development of Washington and Oregon. It begins at noon Tuesday, June 9th, in our mill located at the foot of West eleventh street, in the Port of Vancouver industrial district, opposite the Vancouver depot. Everyone is welcome."

LABOR CONDITIONS REPORTED GOOD IN EUGENE DISTRICT

Labor conditions have been unusually good in and around Eugene the past few weeks, reports F. L. Armistead, director of the local United States labor office, and the demand for workers of all kinds is steadily increasing. Construction and road work, and lumber and logging operations are taking the bulk of men, it is reported.

A total of 83 men and 12 women were placed by the office this week. The largest number was taken by logging and lumbering operators, who employed 42. Others were as follows: farm hands, 2; carpenters, 1; casual laborers, 9; common laborers, 25; cook, 1; trackmen, 6. Women were engaged as follows: housework, 5; chamber maid, 1; kitchen help, 2; and waitresses, 4. The construction camps on the Natron cut-off are taking a large number of workers now, due to good weather which permits full operations. Most of the men sent out from here are skilled, and are employed as powder men, rock men and machinists. This morning the local office sent 20 workers, it is reported, and more are expected to leave tomorrow.

The men who take employment on the cut-off go by train to railroad, and then hike 17 miles over the hills, to where the camps are now located, it is stated.

Fishing Conditions In McKenzie Said To be Nearly Ideal

Fishing conditions are almost ideal on the McKenzie, according to local sportsmen, many of whom are planning to spend tomorrow casting for the wily trout. The river is fairly clear, and unless a storm comes up tonight, the fish should be biting with vim and vigor tomorrow. Dave Evans and J. Doss, local sportsmen, left for the upper river this afternoon, and they will be joined tomorrow by Leonard Koepf and Arthur Hendershott, and the party will cruise down the river in a boat. It is necessary for women to have fishing licenses for the rest of the season, it is stated, since the law affecting them went into effect May 28. This license costs the same as that for men, \$3. Boys may obtain a county permit to fish and hunt for \$1.50, it is stated.

RICHARD LOEB VIOLENTLY ILL FROM MEASLES

Calls For "Buddy"; Raves And Sobs in Old Prison Hospital

Leopold, Recovering From Operation, Not Notified Of Illness

JOLIET, Ill., June 6.—(AP)—Richard Loeb, the master mind, who plotted, with Nathan Leopold, the murder of Bobby Franks last year, has suffered a mental breakdown and is in a state, that, according to his doctors, will improve or terminate fatally within 48 hours.

"Dickie," suffering from an acute attack of measles that weakened him mentally and physically, has tossed for two days and nights on his cot in the old prison hospital here. Since Tuesday, when he became violent and buried objects at his guards, he has raved and sobbed.

"Buddy! I want Buddy!" he cried repeatedly, also calling for his mother. "Buddy" was taken to mean "Priches" Reinhart, Leopold and Loeb's girl companion, in the days before they killed young Franks and were sentenced to prison for life.

If Loeb does recover from the measles attack, he may face a life of insanity, it was indicated by Dr. Herman Adler, state criminologist, who reported that the youth is in a "post-infectious delirium."

Dr. Adler is convinced that Dick is not feigning his illness. Leopold does not know of his accomplice's collapse. He is recovering after an operation for appendicitis and it was feared that the news of Loeb's condition would harm him.

Loeb was strapped to his bed today, without any noticeable change in his condition. Prison officials said his mental indications were of a pronounced character.

DEATHS FROM HEAT NEAR 300 MARK IN EAST

Fifty-Five Additional Fatalities Are Reported on Today's Lists

Snow Reported in Rocky Mountain Region, as East Swelters

CHICAGO, June 6.—(AP)—With fifty-five additional deaths reported today from the east and middle west, the total hot spell reared 300. The general weather bureau at Washington held out little prospects of a break next week in the heat wave that has blanketed most of the country east of the Rocky mountains for the last eight days. The death list, with 55 added stood at 295 since the hot wave began.

The Chicago weather bureau offered no particular consolation to Chicago and vicinity, forecasting a continuation of the heat tonight and Saturday from Kansas and the lower Missouri valley eastward, with cool weather in the northwest advancing only slowly.

The new death list follows: New York city 5, New York upstate 4, New Jersey 9, Wisconsin 1, Illinois 1, Michigan 1, Missouri 1.

Fifty thousand office employees fled to parks and other refuges when the government buildings were closed at 1 p. m., in Washington.

In New York city, where the temperature reached 95 at 2 p. m., one degree above the mark yesterday at that hour, many offices were closed because of the heat.

While the midwest and east continue to gasp and sear weather forecasts, the Rocky mountain region today had snow at Evinston and Beulah, Wyo., and tourists at Colorado Springs got out their light overcoats. Office workers in Denver shivered in unheated buildings as drizzling rain fell.

A light breeze off Lake Michigan kept the temperature at 80 at 4 p. m., in Chicago today.

Marquette, Mich., with a temperature of 102 degrees was the hottest city in the central west yesterday. Record temperatures of 101 were reported in Ohio while it was 100 in Paducah, Ky., and 100 at some Indiana points.

Births Here Show Decreases in May

Thirty-six births were reported in Eugene during the month of May and 27 deaths, according to the monthly report compiled by Dr. S. M. Kerron, city and county health officer, that will be submitted to the state department of health. The number of births shows quite a falling off from May of last year when 50 were reported which was an unusual high number for Eugene judging by the records of other months. A total of 26 deaths, one less than in May this year, were reported for this period in 1924, the report shows.

TEN THOUSAND TROOPS AWAIT FIRST BATTLE

Waterfronts Fortified And River Craft Moved to Safety Points

Fifteen Hundred Marines And Bluejackets on Chinese Soil

CANTON, June 6.—(AP)—Civil war was declared here today. General Yang Hsi-Min, commander-in-chief of the Yunnanese first army controlling all of the city of Canton, announced he would open hostilities against the Kuomintang (people's party) troops quartered on the island of Hovan.

Fighting is imminent. Ten thousand troops on the Kuomintang side under General Li Fook-lam are reported ready for action. Strategic points on the river and all waterfronts are being fortified hastily against the coming battle. The Yunnanese are in complete control of all public services and have seized all government offices. Reinforcements are constantly arriving.

The cargo handlers have declared a strike out of sympathy for the Kuomintang. River craft are moving into places of safety.

The anti-foreign movement, which started last week at Shanghai and which has been fostered here by student bodies sympathetic to actions of the Chinese students at the Gateway city, has for the time been re-echoed into the background. Foreigners expect it to develop again when the present military activities cease. The foreign settlement (Sikansen) volunteers have been mobilized for emergency duty and all Chinese boats in the vicinity of Shanghai have been ordered to leave.

BATTLE IMMINENT

WASHINGTON, June 6.—(AP)—A battle between General Hsu's Cantonese army, reported to be within 40 miles of Canton, and Yunnanese forces entrenched in the eastern suburbs of Canton, is expected within 26 hours.

Americans have been directed by orders of Food and L. Mayer, charge of the Peking legation, to leave the Canton suburbs where fighting is likely and many women and children already have removed themselves to safer points.
